HIGH-SPEED INTERNET
SETUP INSTRUCTIONS
WHAT'S INCLUDED:

DSL CABLE

ETHERNET CABLE

ZYXEL MODEM

POWER CORD

# Follow the instructions to set up your TDS® high-speed Internet service.

1 Your DSL Internet service is delivered through a connection from a telephone wall jack to your modem. The best jack for DSL is likely located in an office, living room or den.

2 Plug one end of the **DSL cable** into your phone jack and the other end into the gray DSL port on the back of your **modem**.

PHONE JACK

ZYXEL (BACK)

3 Plug the **power cord** into the modem and the other end into a power outlet. Looking at the front of your modem, the top two lights will eventually glow solid green. A globe-shaped light will also appear and may flicker gently. This could take up to five minutes.

ZYXEL (FRONT)

4 While you wait for that, you can set up your wireless network. First, locate your Wi-Fi network name (SSID) and password, printed on the sticker on the back of your modem.

ZYXEL Communications Corporation
Model Number: VMG4927-B50A
WiFi Network Name(SSID):   Zyxel17223 — ● **Wi-Fi Network Name**
WiFi Password: CHBHHCCAC4 — ● **Wi-Fi Network Password**
Default IP Address: 192.168.1.1
Administrator Username: admin
Administrator Password: A7U3PwgSuE

5 Using your phone, tablet, or laptop, navigate to the list of available Wi-Fi networks and select yours. Enter the password.

6 If you wish to connect a desktop computer, game console or other device directly to your modem, connect them via the **ethernet cable** provided in your setup kit.

7 Your high-speed Internet service should be up and running smoothly.

If the lights on your modem are not glowing as described in Step 3, check all connections to make sure the cables click into place. Check to be sure your power outlet is working. If connecting via a power strip, try plugging directly into an outlet instead.

• If you still have trouble, it could mean the phone jack you chose is set up for phone service only. You can either try again with another jack, or call our tech support team at 1-833-440-3058.
