1.6 TARIFF FORMAT

- 1.6.1 Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 4 and 5 would be 4.1.
- 1.6.2 Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 4 cancels the 3rd revised Page 4.
- 1.6.3 Paragraph Numbering Sequence - There are five levels of paragraph coding. Each level of coding is subservient to its next higher level:
 - 2
 - 2.1
 - 2.1.1
 - 2.1.1.(A)
 - 2.1.1.(A).1.
- 1.6.4 Check Sheets - When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision.

- 2.1.2 The Carrier's services are provided on a monthly basis, and are available twenty-four (24) hours per day, seven (7) days per week.

2.2 LIMITATIONS

- 2.2.1 Service is offered subject to the availability of the necessary facilities and/or equipment and subject to the provisions of this tariff.
- 2.2.2 Carrier reserves the right to discontinue or limit services when necessitated by conditions beyond its control, or when the Customer is using service in violation of provisions of this tariff, or in violation of the law.
- 2.2.3 Carrier does not undertake to transmit messages, and will not be liable for errors in transmission or for failure to establish connections.

2.3 USE OF SERVICE

- 2.3.1 Service is provided for use by the Customer and may be used by others, when so authorized by the Customer, provided that all such usage shall be subject to the provisions of this Tariff, and shall not affect the Customer's responsibility for all payments required under this Tariff.
- 2.3.2 Service is furnished subject to the condition that it will not be used for an unlawful purpose. Service will not be furnished if any law enforcement agency, acting within its jurisdiction, advises that such service is being used or will be used in violation of the law, or if the Carrier receives other evidence that such service is or will be used for such purposes.

RULES AND REGULATIONS

2.4 LIABILITIES OF THE CARRIER

- 2.4.1 The Carrier's liability for damages arising out of mistakes, interruptions, omissions, delays, errors or defects in transmission which occur in the course of furnishing service(s) or facilities in no event shall exceed an amount equivalent to the proportionate charge to the Customer for the period during which the faults in transmission occur.
- 2.4.2 The Carrier shall not be liable for claim or loss, expense or damage (including indirect, special or consequential damage), for any interruption, delay, error omission, or defect in any service, facility or transmission provided under this tariff, if caused by any person or entity other than the Carrier, by any malfunction of any service or facility provided by an underlying carrier, by an Act of God, fire, war, civil disturbance, or act of government, or by any other cause beyond the Carrier's direct control.

- 2.4.5 The Carrier shall not be liable for any defacement of or damages to the premises of a Customer resulting from the furnishing of service(s), which is not the direct result of the Carrier's negligence.

- 2.5.3 At such time as the service is terminated, the amount of the deposit is credited to the customer's account and any credit balance, which may remain, is refunded. - 2.6.2 The Customer is responsible for payment of all charges for services furnished to the Customer or its joint or authorized users. This responsibility is not changed due to any use, misuse, or abuse of the Customer's Service or Customer provided equipment by third parties, the Customer's employees, or the public. This responsibility includes payment for calls or services that originate at the Customer's number(s), that are accepted at the Customer's number(s) (e.g., collect calls), that are billed to the Customer number(s) via Third Number Billing if the Customer is found to be responsible for such call or service, the use of a Calling Card, or the use of a Company-assigned Special Billing Number and incurred at the specific request of the Customer.
- 2.6.3 Payment is due by the date printed on the bill. Payments are sent to the address listed on the bill.
- 2.6.4 If a Customer's bill is not paid by the due date printed on the bill, the Carrier may impose a late charge on past due amounts.
- 2.6.5 In the event of a dispute concerning an invoice, the Customer must pay a sum equal to the amount of the undisputed portion of the bill. The Customer must notify the LEC business office of the disputed portion in writing within 3 months from the date the invoice was rendered or such invoice would be deemed to be correct and binding on the Customer.
- 2.6.6 In the event suit is brought or an attorney is retained by the Carrier to enforce the terms of this Tariff, the Carrier shall be entitled to recover, in addition to any other remedy, reimbursement for reasonable attorneys' fees, court costs, costs of investigation and other related expenses incurred in connection therewith.

RULES AND REGULATIONS

- 2.7.1 All stated charges in this tariff are computed by the Carrier exclusive of any federal, state, or local use, excise, gross receipts, sales or privileges taxes, duties fees, or similar liabilities (other than general income or property taxes) whether charged to or against the Carrier or its Customer.
- 2.7.2 The Customer is responsible for payment of any sales, use, gross receipts, excise or other local, state and federal taxes, charges or assessments, however designated (excluding taxes on the Carrier's net income) imposed on or based upon the provision, sale or use of the Carrier's services.

The terms and conditions for billing, payment and collection, including without limitation, any late payment charge, specified in the LEC's local exchange service tariff shall apply to charges of the Carrier when the LEC serves as the billing agent for the Carrier or buys the Carrier's accounts receivables.
- 2.8.3 Adjustments to the Customer's bills shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate.

RULES AND REGULATIONS

2.9 RETURNED CHECK CHARGE

2.10 CANCELLATION OF SERVICE BY CUSTOMER

2.10.1 A Customer may cancel service by providing written or verbal notice to the Carrier or its agents.

2.11 DENIAL OR CANCELLATION OF SERVICE BY THE CARRIER

- (C) A violation of any law, rule, or regulation of any government authority having jurisdiction over the service; or
- (D) Carrier is prohibited from furnishing services by order of a court or other government authority having jurisdiction.

2.11.2 The notice shall contain the reason(s) for denial or termination of service.

2.11.3 The Carrier shall not be required to give the written notice provided for situations where the Carrier has evidence of fraudulent or illegal use of the Carrier's services.

2.11.4 The discontinuance of service by the Carrier pursuant to this Section does not relieve the Customer of any obligations to pay the Carrier for charges due and owing for service(s) furnished up to the time of discontinuance.

RULES AND REGULATIONS

2.12 REFUNDS OR CREDITS FOR INTERRUPTION OF SERVICE

2.12.1 The Customer shall be credited for an interruption of two hours or more at the rate of 1/720th of the monthly charge for the service affected for each hour or major fraction thereof that the interruption continues. Calculations of the credit shall be made in accordance with the following formula:

$$\text{Credit} = \frac{A}{720} \times B$$

"A" = outage time in hours

"B" = total monthly charge for affected facility, where applicable

GENERAL SERVICE AND RATE INFORMATION

3.1 GENERAL

3.1.1 Rates and timing of calls may vary by product type, access method, or call duration. Calls are billed individually and on a monthly basis. Usage is billed in arrears.

3.2 TIMING OF CALLS

3.2.1 Billing for calls placed over the network is based in part on the duration of the call as follows, unless otherwise specified in this tariff:

- (A) Call timing begins when the called party answers the call (i.e., when two-way communications are established).
- (B) Chargeable time for calls ends when one of the parties disconnects from the call.
- (C) Minimum call duration periods for billing purposes may vary by service option.
- (D) For billing purposes, usage after the initial period varies by service and is specified by service in this tariff.
- (E) The Carrier will not bill for unanswered calls.

GENERAL SERVICE AND RATE INFORMATION

3.3 OPERATOR SERVICE - CLASS OF SERVICE

For the purpose of rate application, one of the following classes of service may apply to a given call:

(A) Station-to-Station

There are three types of Station-to-Station calls:

- (1) The Dial Station class of service applies when the person originating the call dials the telephone number desired without the assistance of the operator and the call is billed to the calling number. It does not include calls from public or semi-public coin telephones. Dial Station rates also apply when:
 - (a) The operator records the calling number where no automatic recording equipment is available.
 - (b) The operator reaches the called number because of trouble on the network.
 - (c) The operator places a call for a calling party who identifies himself/herself as being handicapped and unable to dial the call because of the handicap.
 - (d) The operator reestablishes a Dial Station call that has been interrupted after the called number has been reached.
 - (e) The operator places a call because service components are not available for dial completion.
- (2) The Operator Station class of service applies when calls are completed with the assistance of the operator except as specified for the Dial Station or Customer Dialed Calling Card Station classes of service. Operator Station service includes messages originated at a public or semi-public coin telephone.

GENERAL SERVICE AND RATE INFORMATION

3.3 OPERATOR SERVICE - CLASS OF SERVICE (Continued)

(A) Station-to-Station (Continued)

- (3) The Customer Dialed Calling Card Station class of service applies when the person originating the call:
- (a) Dials the digit zero, plus the telephone number, plus a Calling Card number (where equipment is available) to complete the call without operator assistance, or
 - (b) Dials the digit zero, plus the telephone number (0 + number) to complete the call. In such cases the operator assistance is limited to recording the Calling Card number for billing purposes, or
 - (c) Dials the operator and places a Calling Card Station-to-Station call when equipment capability precludes either of the foregoing.

(B) Person-to-Person

The Person-to-Person class of service applies when the person originating the call specifies the particular party to be reached by the operator. That party may be:

- (1) A person.
- (2) A mobile station through a Miscellaneous Common Carrier attendant.
- (3) A station, department, or office through a PBX attendant.

After the called number has been reached, if the calling party request or agrees to speak to a party other than the party initially specified, the call is still classified as Person-to-Person. The calling party is responsible for identifying the party at the called number.

Person-to-Person also applies when the call originator requests the operator to make arrangements with a called party to establish a call at a specified time.

4.2.1 General Description

Inbound Toll-Free Number Service is an 8XX number that allows callers to originate direct dialed calls to the 8XX number without incurring a toll charge. The charge for using a toll free number is paid by the called party instead of the calling party. The service is available for use twenty-four (24) hours a day, seven (7) days a week. Service is terminated over standard Customer-provided switched access lines or in conjunction with Managed IP stations or trunks.

Interstate service is offered in conjunction with Intrastate service.

The Carrier will make every effort to reserve toll-free vanity numbers on behalf of Customers, but makes no guarantee or warranty that the requested toll-free number(s) will be available or assigned to the Customer requesting the number.

If a Customer accumulates undisputed delinquent charges, the Carrier reserves the right not to honor that Customer's request for a change in service until such charges are paid in full.

The Customer does not retain rights in toll-free numbers, which are shared with other Customers of the Carrier. Shared toll-free numbers are not portable. Toll free directory listing will not be provided.

These plans are available only to customers who are enrolled in TDS Long Distance's *Intrastate* Toll Free Service Plans.

4.6.2 Dedicated MPLS-VPN Service

A. General

Dedicated MPLS-VPN Service is a packet-switched network that provides a point-to-point or multi-point service arrangement for customers requiring special high bandwidth data applications. This service is offered with various transport speeds ranging from 1.5 Mbps to 1 Gbps from one customer premise location to another customer premise location or multiple locations within the state.

B. Conditions and Limitations

1. The service is offered subject to the availability of central office equipment and appropriate outside plant facilities. The service may not be available to all customers and/or at all speeds due to loop length, line conditioning and/or facility availability.
2. Customers must subscribe to this service for a minimum of twelve months.
3. Rates are based on term agreements. The rates are in effect from the time the service is installed until the end of the term agreement period. Upon expiration of the term agreement period, the customer may keep the same term agreement period or select a new term agreement period. Whichever term agreement the customer chooses, the rates for that term agreement will be at the rates in effect at that time.
4. Rates will not be increased by the Company until the term agreement period expires.
5. If the service is canceled by the customer prior to the completion of the term agreement period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the term agreement period times the monthly rate provided under the term agreement. Termination charges will not apply, if the customer replaces the service with comparable service and a term length that is equal to or greater than the original term agreement period.
6. If the applicant requests a different type of construction, equipment or facilities other than what is normally provided, the applicant may be assessed the costs of such arrangement.
