Section 10
Original Sheet 1

PRIVATE LINE SERVICE

A. GENERAL

IntraLATA Private Line Service is telecommunications service between two, or more, terminals, none of which is connected to, or otherwise made available to, any local exchange switching facility. The service is provided only under special conditions where warranted by the circumstances and where facilities are available.

B. CONDITIONS AND LIMITATIONS

Any applicant for IntraLATA Private Line Service extending beyond this Company's service area, will normally contract for service with this Company and be treated as its subscriber, however, such procedure is not mandatory.

The Company undertakes to maintain and repair the facilities, which it furnishes. The Customer or authorized user may not rearrange, disconnect, remove or attempt to repair any equipment installed by the Company except upon the written consent of the Company.

The rates and charges specified in this Tariff contemplate that work will be performed during regular working hours and that work once begun will not be interrupted by the customer. If, at the request of the customer, work is performed outside of regular working hours, either to meet his convenience or because the time allowed is insufficient to permit completion during regular hours or if the customer interrupts work which has begun, the customer may be required to pay any additional costs incurred.

IntraLATA Private Line Service is the furnishing of the Company facilities for communication between specified locations 24 hours daily seven days per week. Facilities may be those of the Company only or those of the Company and connecting companies.

The Company does not undertake to transmit messages.

IntraLATA Private Line Service is available to end user customers only. BellSouth, Interexchange Carriers (IXC), Competitive Local Exchange Companies (CLEC), and other carriers must order Private Line Services under the Company's Special Access Tariff.

Provisions of IntraLATA Private Line Services referenced in this Section are subject to availability of Company facilities, equipment, and technical capabilities, and, as applicable any limitations and operating characteristics of equipment and technical capabilities.

This section is subject to the terms and conditions of the September 12, 2002 Order of the Alabama Public Service Commission in Docket 28642 and any subsequent directives issued thereunder.

PRIVATE LINE SERVICE

C. REGULATIONS

1. Concurrence

Except as otherwise specified in Section 12 herein, Butler Telephone Company concurs in the Terms and Conditions in the Private Line Tariff of BellSouth Telecommunication Inc. of Alabama as of 10/31/02 for the purpose of providing private line services and channels:

- a. between points within the Company's serving area or
- b. between points within the Company's serving area and the serving area of other exchanges that are within the Alabama intrastate intraLATA jurisdiction.

This concurrence is limited to the provision of Voice Grade, Digital Data, and High Capacity Private Line Services. Other Private Line Services will be handled on an Individual Case Basis (ICB).

Butler Telephone Company hereby expressly reserves the right to cancel this statement of concurrence at any time when it appears that such cancellation is in the best interest of the company, subject to the jurisdiction of the Alabama Public Service Commission as it applies.

2. Exceptions

a. Voice Grade Service Rates

	<u>Non-Recurring Charge</u>		<u>Monthly Rate*</u>
	<u>First</u>	<u>Additional</u>	
1. 2-Wire Channel Termination Type 2230, per channel	\$354.00	\$138.00	\$42.00
2. 2-Wire Channel Termination Type 2231, per channel	360.00	138.00	42.00
3. 4-Wire Channel Termination Type 2435, per channel	378.00	156.00	66.00
4. 4-Wire Data Channel Termination Type 2463/2464, per channel	432.00	192.00	72.00

* Discounts are available for 36 & 60-month contracts. See this Section.

PRIVATE LINE SERVICE

D. SPECIFIC COMPANY SERVICES (Continued)

2. Dedicated DS1 Service – Local Loop Facilities⁽¹⁾

a. General

Dedicated DS1 Service is an intraexchange point-to-point service that provides for simultaneous two-way transmission at 1.544 Megabits per second (Mbps). This service only transmits digital signals and uses only digital transmission facilities. Dedicated DS1 service and its features are offered subject to the availability of central office equipment and appropriate outside plant facilities.

Regulations and rates for interexchange facilities are found in this Section.

b. Definitions

Clear Channel Capability - An optional feature of DTS that allows a customer to transport 1.536 Mbps on a 1.544 Mbps line with no constraint on quantity or bit sequence.

DS1 - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

Digital Local Channel - A transmission path for Dedicated DS1 Service furnished from the Central Office to the demarcation point on the customer's premises.

c. Regulations

1. Dedicated DS1 Service is available for a minimum service period of one month.
2. Dedicated DS1 Service is available on a month-to-month basis or under variable rate periods, with rates based on lengths of 12 months, 36 months and 60 months.
3. Rates for Dedicated DS1 under contract will not be increased by Company initiative until the contract period expires. Rates in effect at the time the service is installed will be applicable until the contract expires. Upon expiration of the customer's current payment period option, the customer may select a new payment period option at current rates or revert to current rates on a month-to-month basis.

⁽¹⁾ This service is grandfathered to existing customers effective May 1, 2018. The service will not be available to new customers after this date.

PRIVATE LINE SERVICE

D. SPECIFIC COMPANY SERVICES (Continued)

2. Dedicated DS1 Service – Local Channel Facilities⁽¹⁾ (Continued)

c. Regulations (Continued)

4. For channelization of Dedicated DS1 Service-Local Channel, please see Digital Transport Service in Section 8.
5. If the service is canceled by the customer prior to the completion of the service period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the contract times the monthly rate provided under the contract. Termination charges will not apply, however, if the customer replaces the service with comparable service and a contract length that is equal to or greater than the original contract period.
6. The rates following, assume the provision of a digital quality facility that uses existing exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for Dedicated DS1 Service.
7. The two types of non-recurring charges associated with Dedicated DS1 Service include a Design Order Charge and Installation Charges. The Design Order Charge applies once per order while the Installation Charge will apply for each Digital Local Channel installed.
8. The Installation Charges and Design Order Charge will not apply for the establishment of Dedicated DS1 Service when the customer signs an agreement to subscribe to the service for a minimum of 3 years. If the customer discontinues service prior to the conclusion of the 3 year agreement, the customer will incur a disconnection charge equal to the Design Order Charge and applicable Installation Charges. The disconnection charge will not apply if the customer purchases other services from the Company which replace Dedicated DS1 Service.

⁽¹⁾ This service is grandfathered to existing customers effective May 1, 2018. The service will not be available to new customers after this date.
