RATES - (Continued)

(6) Education Cornerstone Program:

a. Waiver of Charges:

1. One monthly business individual access line rate as shown in RATES (1) through (4) in this Schedule, for the applicable exchange that is used in conjunction with the public schools or libraries, one Integrated Services Digital Network (ISDN) line shall be waived for one year for each public school or library.
2. The waiver period shall begin on the date of the installation and continue for twelve months, at which time the customer may elect to disconnect without penalties or continue the service at the prevailing tariff rates and charges. The customer will be informed at the time of the installation what the tariff rates and charges would be.

b. Special Conditions:

1. Additional business individual access lines ordered by each public school or library will be billed from RATES (1) through (4) in this Schedule.
2. The public school(s) and library(ies) must be technically equipped to be served by ISDN Service and the Utility must have the central office switching capability and available outside plant facilities to serve that location.
3. The waiver of charges shall begin on the date of installation of the one free ISDN line and conclude twelve months from that date.

Schedule No. A-1

INDIVIDUAL AND PARTY LINE SERVICE
(Continued)

SPECIAL CONDITIONS

1. Individual and party line business and residence service will be furnished outside the base rate areas and within the exchange areas at the above rates and mileage rates as set forth in Schedule No. A-3. Mileage rates do not apply in the Minersville and Trinity Center exchange areas.
2. Extension and off-premises extension stations located on noncontinuous property will be applied mileage rates as set forth in Schedule No. A-3. The Utility will install the necessary wiring from the Utility's side of the SNI/PCA of primary station to an extension of off-premises SNI/PCA.
3. Extended service comprehends calling without additional charge to all other stations served by exchanges of the Utility and/or Pacific Bell's exchanges in the following expanded local calling areas: (T)

<u>From Stations Receiving Service from the Exchanges Designated As</u>	<u>To Stations Receiving Service from the Exchanges Designated As</u>
Olinda	Anderson
Olinda	Cottonwood
Olinda	Redding
Trinity Center	Minersville
Minersville	Trinity Center

4. The rates for individual or party access line services do not include a telephone set. Customer-provided equipment must meet the requirements of Part 68 of the FCC Rules and Regulations.
5. Rates above will include touch calling as the standard signaling arrangement, as facilities permit.

(L) Paragraph 8. now shown on Schedule No. A-1, Cal. P.U.C. Sheet No. 785-T as Paragraph 6.

INDIVIDUAL AND PARTY LINE SERVICE
(Continued)

APPROVED

SPECIAL CONDITIONS - (Continued)

6. Hunting service involves two or more central office lines. The access lines are arranged so that a call for the first line is completed to a succeeding line in the group when the first line is in use.
7. Hunting service is offered in connection with individual access line and C.O. trunk services and will be provided subject to the availability and physical limitations of central office switching equipment.
8. For discount on qualifying schools and libraries, please see Scheduled No. A-35 of this tariff.
9. Pursuant to Resolution T-16433, two party line service is limited to 15 current customers-of-record at the current locations-of-record. Requests from these existing two-party line service customers for the following services will not be permitted:
 - a. a transfer of their two-party line service to another name and/or location.
 - b. a reconnection of a disconnected two-party line telephone service for non-payment of a telephone bill.
 - c. a change in service (i.e., request for any custom calling feature activation).
10. It is the customer's responsibility to provide, and update if necessary, accurate Automatic Number Identification (ANI) and Automatic Location Identification (ALI) sub-address information to the 911 database administrator. Once the customer provides ANI and ALI sub-address information to the 911 database administrator, it is the responsibility of the Company to provide the location of the pilot number to the PSAP for 911 calls, and where technically and operationally feasible the Company will deliver ANI to the PSAP at a station level behind a Multi-line Telephone System.

It is the customer's responsibility to arrange for the above capability for its Multi-line Telephone System.
