

Schedule No. A-30
CENTREX SERVICE

APPROVED

APPLICABILITY

- (1) Centrex is a central office-based business communications service which provides capabilities similar to those offered on a Private Branch Exchange, but without requiring switching equipment on the customer's premises. Centrex integrates all of a business customer's lines into a single telecommunications system.
- (2) All Centrex station lines will be equipped with standard features. Additional optional features may also be selected and generally result in additional charges.

TERRITORY

Within the exchange areas, as said areas are defined on a map filed as part of the tariff schedules.

RATES AND CHARGES

(1) Centrex Line Rates #

- (a) **Monthly Centrex Line Rates:** The following per-line Centrex rates apply for contract periods ranging from month-to-month to 60 months. The customer is required to pay for the number of months in the service period selected:

CENTREX LINE RATE SCHEDULE FOR TRINITY CENTER EXCHANGE						
Number of Centrex Lines	Monthly	12 Months	24 Months	36 Months	48 Months	60 Months
2*	43.80	42.70	41.70	40.60	39.60	38.50
3-5	33.30	32.20	31.20	30.10	29.10	28.00
6-15	22.80	21.70	20.70	19.60	18.60	17.50
16-25	15.80	14.70	13.70	12.60	11.60	10.50
26-50	14.00	13.00	11.90	10.90	9.80	8.80
51-100	13.00	11.90	10.90	9.80	8.80	7.70
100+	11.60	10.50	9.50	8.40	7.40	6.30

* Rate also applies to single-line off-premise extensions to primary-site Centrex group. The Flat Rate Exchange Service rate is included in the above rates.

See Schedule No. A-35 for the discount for qualifying schools and libraries.

(a) Simulated Facility Group Arrangements:

	<u>Rate per Month</u>	<u>Non- Recurring Charge</u>
1. Each Simulated Facility (INWATS)	See Schedule No. B-8	
2. Rearrangements and changes to Simulated Facilities and routing patterns		\$15.00

SPECIAL CONDITIONS

1. A Centrex customer must have a minimum of two Centrex lines terminating to a primary customer site.
2. The minimum charge period for services provided under this tariff shall be for one month except when the provision of the service requires the construction of additional facilities and/or equipment. The customer will be required to pay all or a portion of the construction and installation charges and/or contract for service beyond the minimum service period in an arrangement agreeable to both the Utility and the customer.

(N)

CENTREX SERVICE
(Continued)

SPECIAL CONDITIONS - (Continued)

3. Centrex is offered subject to the availability of outside plant and/or Central Office facilities. Individual feature availability may differ by exchange.
4. One directory listing is provided without charge for each Centrex line.
5. The customer may choose to pay for the service on a month-to-month basis or under a service contract plan. A month-to-month customer may, at any time, convert to a service contract plan by paying the applicable service period plan rate currently in effect.
6. The monthly rate for customers choosing the service period plan is guaranteed against Utility initiated changes during the selected service contract period.
7. Subsequent line additions/deletions to the original service contract period are stipulated as follows:
 - a. Subsequent additions will be rated under a new contract or added to an existing contract, based upon the remaining period of the initial contract. If the line addition causes the customer's total Centrex line count at the primary customer location to exceed the threshold of the line count previously contracted, all lines will be billed at the rate for the larger line count.
 - b. Subsequent line deletions, resulting in reductions equal to or exceeding 30% of the initial quantity of lines under contract, will be considered a termination liability and treated as specified in paragraph 8. following. If the reduction causes the total number of lines to fall into a different line size group, all remaining lines will be billed at rates for the smaller line size group.

(N)

CENTREX SERVICE
(Continued)

SPECIAL CONDITIONS - (Continued)

8. Termination Liabilities shall be treated as follows:
- a. If the service is canceled by the customer after installation of the service, but prior to the completion of the service period, the customer shall be obligated to pay a termination liability charge. The charge is calculated by multiplying the monthly rate by the remaining months in the contract period times fifty percent.
 - b. A customer who reduces the quantity of Centrex lines under contract has the following options for the duration of the contract period:
 - (1) Continue to pay an amount equal to the monthly rate for the number of Centrex station lines that are disconnected under contract, or
 - (2) Pay termination charges as described in a. above on the number of Centrex station lines disconnected.
9. When used with Call Forwarding or Call Transfer, the Centrex customer is responsible for the payment of the applicable toll charge for each billable call connected over the public network between the Centrex station and the station at which the call is answered. The charge is applicable to each call answered, including the Call Forwarding set-up call. It also applies to collect and person-to-person calls, which may be refused at the answering station.
10. This tariffed Centrex Service does not include terminal equipment on the customer's premises.
11. Unless specifically exempted, Centrex Service shall be subject to all general regulations applicable to the provision of service by the Utility as stated in the general tariff.
12. It is at the Utility's discretion to offer temporary suspension of Centrex Service.

13. DEFINITIONS

The following definition section defines all standard and optional features which either are or may be provided as a part of the Centrex Service.

a. The following are standard, non-chargeable individual station features which are included with the Centrex line rate at no charge:

(1) Business Group Automatic Identified Outward Dialing

Business Group Automatic Identified Outward Dialing provides identification of the calling line or the Centrex Group billing/pilot number on billable calls directed to the public network.

(2) Call Park Features:

(a) Call Park - Directed

Call Park - Directed allows a Centrex user to park (or store) a call against any directory number within the business group and unpark (or retrieve) the call from any other directory number within the business group.

(b) Call Park - Local

Call Park - Local allows a Centrex user to park (or store) a call against his/her directory number within the business group and unpark (or retrieve) the call from any other directory number within the business group.

(3) Call Pick-Up Features:

(a) Call Pick-Up

Call Pick-Up enables a station user to answer a call that is ringing at another station within the Centrex Group by dialing an access code.

(b) Call Pick-Up - Directed

Call Pick-Up - Directed enables a station user to answer a call that is ringing at another station within the Centrex Group by dialing an access code and the ringing station number.

(Continued)

SPECIAL CONDITIONS - (Continued)

13. DEFINITIONS - (Continued)

a. The following are standard, non-chargeable individual station features which are included with the Centrex line rate at no charge: (Continued)

(4) Call Transfer - Internal Only

Call Transfer - Internal Only allows a station user to transfer calls to another station within the Centrex Group by flashing the switchhook and dialing the transfer-to number.

(5) Centrex Repeat Dialing - Internal Only

Centrex Repeat Dialing - Internal Only allows the customer to automatically redial the last intercom number dialed. When the recalled telephone number is busy, the Utility's equipment will make repeated attempts to establish the call for a 30 minute period beginning with the customer's activation.

(6) Direct Inward Dialing

Direct Inward Dialing allows Centrex station users to directly receive incoming calls without the assistance of an attendant.

(7) Direct Outward Dialing

Direct Outward Dialing enables Centrex station user to call outside the Centrex Group directly without the assistance of an attendant.

(8) Distinctive Ringing/Call Waiting Indication

Distinctive Ringing/Call Waiting Indication allows a Centrex station user to listen to the cadence of the ringing pattern or Call Waiting tone to determine whether a call is coming from within the business or from outside the business. Distinctive Ringing and Call Waiting tones are applied under the following conditions:

- (a) Pattern A: (normal ringing and Call Waiting tones) is used with intercom calls. These are internal calls that originate within the business;
- (b) Pattern B: (two short rings or Call Waiting tones) is used with Direct Inward Dialing calls. These are incoming calls that originate outside the business. Pattern B is also used for calls completed by way of the attendant;
- (c) Pattern C: (short-short-long ringing or three short Call Waiting tones) is used with Dial Call Waiting, Call Waiting-Originating, and Night Service calls.

CENTREX SERVICE
(Continued)

SPECIAL CONDITIONS - (Continued)

13. DEFINITIONS - (Continued)

a. The following are standard, non-chargeable individual station features which are included with the Centrex line rate at no charge: (Continued)

(9) Do Not Disturb

Do Not Disturb allows a station user to prevent incoming calls from ringing at his/her station by diverting them to a tone or recorded announcement. This feature can be offered with a Personal Identification Number (PIN) override option that selected callers can dial to override Do Not Disturb.

(10) Intercom Dialing

Intercom Dialing allows Centrex station users to call other stations within their Centrex Groups by dialing abbreviated codes.

(11) 3-Way Calling

3-Way Calling allows a station user to add a third party to an existing call, and thus enables a simultaneous conference between parties at multiple locations.

(12) Touchtone

Where Central Office facilities are available, a type of high-speed address signaling (dialing) in which buttons in a bank of twelve can be depressed to give one of a group of audio tone pairs for signaling directly over the circuit.

(13) Voice/Data Protection

Voice/Data Protection allows a station user to inhibit intrusion features such as Call Waiting and Operator Verification which are directed to that line when it is busy.

SPECIAL CONDITIONS - (Continued)

13. DEFINITIONS - (Continued)

- b. The following are optional, non-chargeable individual station features which may be added to a Centrex line at no charge:

(1) Call Forwarding Features:

- (a) **Call Forwarding - All Calls (Variable)**
Call Forwarding - All Calls (Variable) enables a station user to divert all incoming calls to another directory number. Activation, deactivation and the forward-to destination are controlled by the station user.
- (b) **Call Forwarding - Busy Line**
Call Forwarding - Busy Line causes all calls to be redirected to an alternate station when the called station is busy.
- (c) **Call Forwarding - Don't Answer**
Call Forward - Don't Answer allows all calls that terminate to a user's station to be redirected to an alternate station after a predetermined number of rings.
- (d) **Call Forwarding - Incoming Only (Add-on to Call Forwarding)**
Call Forwarding - Incoming Only is an option that can be used with any of the Call Forwarding features (Call Forwarding - All Calls (Variable), Busy, and Don't Answer) and allows only incoming calls (calls that originate outside the Centrex Group) to be forwarded. Calls from within the group or a private facility are not forwarded.
- (e) **Call Forwarding - Within Group Only (Add-on to Call Forwarding)**
Call Forwarding - Within Group Only is an option that can be used with any of the Call Forwarding features (Call Forwarding Variable, Don't Answer, and Busy Line) and restricts call forwarding to only directory numbers within the same Centrex group, thus preventing the station user from forwarding calls outside the Centrex group.

CENTREX SERVICE
(Continued)

SPECIAL CONDITIONS - (Continued)

13. DEFINITIONS - (Continued)

b. The following are optional, non-chargeable individual station features which may be added to a Centrex line at no charge: (Continued)

(2) Call Hold

Call Hold allows a station user to place a call on hold in order to initiate a second call, answer a waiting call, consult privately with another party, or return to the previously held call.

(3) Caller Identification-Number - Internal Only

Caller Identification-Number - Internal Only allows for the display of the calling party's telephone number (intercom number) on calls made within the Centrex Group. This feature requires a special customer-provided display device which may be either attached to the telephone or built into the telephone.

(4) Caller Identification-Basic - External

Caller Identification-Basic - External allows calls from outside the Centrex Group.

(5) Call Transfer - Attendant

Call Transfer - Attendant allows members of a customer group, who do not have station-controlled call transfer capability, to transfer calls with the aid of the attendant. During a call incoming to the customer group via direct distance dialing, the called party can reach the attendant to request the transfer by flashing and dialing the access code to the attendant. The attendant can only transfer the incoming call to another station within the customer group.

(6) Call Waiting Features:

(a) Call Waiting (Terminating)

Call Waiting provides a burst of tone to inform a station user with a call already in progress that another call is waiting to be answered. The station user may answer the waiting call by hanging up or flashing the switchhook. **This feature may include Cancel Call Waiting.**

(b) Call Waiting - Incoming Only

Call Waiting - Incoming Only gives the Centrex user a call waiting tone only for calls incoming to his/her group from outside the business. All other calls receive busy tone, and no call waiting tone is provided to the called party. **This feature may include Cancel Call Waiting.**

(N)

CENTREX SERVICE
(Continued)

SPECIAL CONDITIONS - (Continued)

13. DEFINITIONS - (Continued)

b. The following are optional, non-chargeable individual station features which may be added to a Centrex line at no charge: (Continued)

(7) Class of Service Restrictions:

(a) Fully-Restricted Line

A Fully-Restricted Line is prevented from making calls to and/or receiving calls from stations outside the Centrex Group. It is also prevented from making calls to and/or receiving calls from the attendant, thereby denying it indirect access to/from outside the Centrex Group. Blocked calls may be routed to reorder tone or a recorded announcement.

(b) Semi-Restricted Line

A Semi-Restricted Line is prevented from making calls to and/or receiving calls from stations outside the Centrex Group. It may, however, make and/or receive outside calls indirectly via the attendant, Call Forwarding, Call Transfer, and Call Pick-Up features. Blocked calls may be routed to reorder tone or a recorded announcement.

(8) Off-Premises Stations

Off-Premises Stations enable a secondary business location to access the same Centrex features and services as the main business location. The secondary locations must be served by the same Digital Central Office as the primary location. Appropriate Centrex line rates will be applied to Off-Premises Stations.

(9) Single-Digit Dialing

Single-Digit Dialing permits a Centrex station user to reach a line or facility, or to access a feature by dialing a single-digit code. The Single-Digit Dialing codes are shared by all users in a Centrex Group and are preprogrammed by the Utility.

(10) Speed Calling 8-Code (Customer Changeable)

Speed Calling 8-Code enables a station user to call a list of up to 8 preselected directory numbers by dialing one-digit codes instead of the directory numbers. This list may be programmed from the Centrex user's telephone set.

13. DEFINITIONS - (Continued)

c. The following are optional, chargeable individual station features which may be provisioned on any Centrex line at established tariff rates:

(1) Advanced Calling Services

Advanced Calling Services are offered as optional, chargeable features, and are outlined in the Advanced Calling Services' section of this Utility's tariff. Advanced Calling Services are a group of features which allow customers to efficiently manage the call flow generated over exchange access lines. The rates for Advanced Calling Services for Centrex users are defined in this Centrex tariff.

(2) Attendant Camp-On

Attendant Camp-On allows an attendant attempting to transfer a call to a busy station within the Centrex Group to place the call in waiting until the station becomes available. The busy station receives a special call waiting indication and may either flash the switchhook or hang up to answer the camped-on call.

(3) Call Forwarding - Remote Activation

Call Forwarding - Remote Activation allows the Centrex user to activate and deactivate Call Forwarding from any location.

(4) Call Transfer - Individual - All Calls

Call Transfer - Individual - All Calls allows the Centrex user to transfer any established call to another person. Calls may be transferred to other parties both within and outside the business. The Centrex user may transfer a call by flashing the switchhook and dialing the station to which the call is to be transferred. When the Centrex user hangs up, the call will be transferred.

(N)

CENTREX SERVICE
(Continued)

SPECIAL CONDITIONS - (Continued)

13. DEFINITIONS - (Continued)

c. The following are optional, chargeable individual station features which may be provisioned on any Centrex line at established tariff rates: (Continued)

(5) Call Waiting Features:

(a) Call Waiting - Dial

Call Waiting - Dial allows the Centrex user to dial a special code prior to calling another station in the Centrex Group and cause a Call Waiting tone to be applied to the station if it is busy (regardless of whether it has Call Waiting). Once alerted, the station called can either flash the switchhook or hang up to answer the waiting call.

(b) Call Waiting - Originating

Call Waiting - Originating allows the Centrex user to automatically apply Call Waiting tones whenever he/she calls another station in the Centrex Group and the line is busy, even if the station called does not have the Call Waiting feature. Once alerted, the station called can either flash the switchhook or hang up to answer the waiting call. In contrast to Dial Call Waiting, this feature does not require the Centrex user to dial an access code prior to making the call.

(6) Class of Service Restrictions:

(a) Toll Restriction

Toll Restriction blocks the completion of calls that are directed to the outside operator or to numbers outside the local calling area. Blocked calls may be routed to reorder tone, a recorded announcement or to a designated station (e.g. the attendant).

(b) Code Restriction & Diversion

Code Restriction blocks the completion of calls that are directed to customer specified area codes (NPAs) and/or central office codes (NXXs). Blocked calls may be routed to reorder tone, a recorded announcement or to a designated station (e.g. the attendant).

CENTREX SERVICE
(Continued)

SPECIAL CONDITIONS - (Continued)

13. DEFINITIONS - (Continued)

c. The following are optional, chargeable individual station features which may be provisioned on any Centrex line at established tariff rates: (Continued)

(6) Class of Service Restrictions: (Continued)

(c) Outgoing Call Screening

Outgoing Call Screening blocks the completion of calls to specific directory numbers (3, 6, 7, or 10 digit basis). Blocked calls may be routed to reorder tone, a recorded announcement or to a designated station (e.g. the attendant).

(7) Conference - Attendant

Conference - Attendant allows an attendant to initiate a conference call of up to six parties (including the attendant). The selection of a special Conference Attendant can be done from any subscribing station within the same customer group by dialing a specific access code.

(8) Direct Connect Service (a/k/a Hot Line)

Direct Connect Service allows a station user to automatically place a call to a preselected directory number by lifting the receiver off the switchhook. No dialing is required for the calling party to reach the specified destination.

(9) Manual Line Service

Manual Line Service automatically places a call to the operator when the station user lifts the receiver off the switchhook.

(10) Night Service

Night Service allows calls directed to the attendant to be re-routed to predesignated station lines within the same Centrex Group when the attendant position is not staffed (i.e., evening hours, weekends).

(11) 6-Way Calling

6-Way Calling allows the Centrex user to sequentially call up to five other people and add them together to make up a six-way call. The Centrex user must first dial an access code to implement this feature.

SPECIAL CONDITIONS - (Continued)

13. DEFINITIONS - (Continued)

c. The following are optional, chargeable individual station features which may be provisioned on any Centrex line at established tariff rates: (Continued)

(12) Speed Calling 30-Code (Customer Changeable)

Speed Calling 30-Code enables a station user to call a list of up to 30 preselected directory numbers by dialing one-digit codes instead of the directory numbers. This list may be programmed from the Centrex user's telephone set. In addition, Speed Calling 30 lists may be shared by multiple users within a Centrex Group. When the list is shared, only one user is allowed to change the list.

(13) Warm Line

Warm Line provides a time-out option with either Direct Connect Service or Manual Line Service. The time-out interval may be set at 1 to 14 seconds. During the time-out interval, a station user will receive normal dial tone and can originate calls. However, after the time-out interval expires, a call is automatically set up and routed to the specified destination.

CENTREX SERVICE
(Continued)

SPECIAL CONDITIONS - (Continued)

13. DEFINITIONS - (Continued)

d. The following are optional, chargeable features/services which may be provisioned on Centrex Groups of lines or Centrex Systems at established tariff rates:

(1) Account Codes

Account Codes allow the Centrex user to add an account code for allocating charges. These charges can be printed out on a report or made part of the monthly phone bill.

(2) Authorization Codes

Authorization Codes allow the Centrex user to dial a special code prior to making a call and override the dialing restrictions at a particular station.

(3) Automatic Route Selection Features:

(a) Automatic Route Selection

Automatic Route Selection provides a list of route choices (OutWATS, public carriers, and direct distance dialing) for each outgoing call. The routes on the list are searched sequentially and automatically for idle facilities until an idle facility is found or all route selections are determined unavailable.

(b) Time-of-Day/Day-of-Week Routing Control

Time-of-Day/Day-of-Week Routing Control allows the list of facility groups over which the Automatic Route Selection feature hunts to complete a given call to be manually altered based on Time-of-Day and/or Day-of-Week considerations.

(c) Expensive Route Warning Tone

Expensive Route Warning Tone provides a per-call method of cost control by giving the Centrex user a tone when a call is being routed over the most expensive facility in the group.

13. DEFINITIONS - (Continued)

d. The following are optional, chargeable features/services which may be provisioned on Centrex Groups of lines or Centrex Systems at established tariff rates: (Continued)

(3) Automatic Route Selection Features: (Continued)

(d) Outgoing Queuing

Outgoing Queuing allows outgoing calls to be placed into a queue and wait for an available facility when all allowed/available facilities are in use. When a facility becomes idle, the call can be made. This feature allows callers to automatically be placed in waiting for an outgoing facility on either an on-hook or off-hook basis.

(4) Business Group Dialing Plan

A Business Group Dialing Plan enables a Centrex Group to have a unique dialing scheme which includes Intercom Dialing; access to an attendant, private network and/or special facilities using 1 to 5 digit codes; Single-Digit Dialing; and customized feature activation/deactivation codes. Each Centrex Group may use either a standardized or a customized Business Group Dialing Plan.

(5) Centralized Attendant Service

Centralized Attendant Service provides a centralized attendant group for the business which is distributed over geographically separate switching systems. Attendants are normally located at one location and all calls requiring attendant assistance (for all locations) are routed to the attendant location.

(6) Centrex Complex

Centrex Complex allows the association of multiple Centrex Groups in a single system. All Centrex Groups within the Complex share intercom calling privileges, but may have separate private facility groups or separate dialing plans.

(7) Customer Control

Customer Control allows for the ability to change the operation of certain features via the attendant console. The features which may be changed are Time-of-Day/Day-of-Week Routing Control, Outgoing Queuing and Authorization Codes.

d. The following are optional, chargeable features/services which may be provisioned on Centrex Groups of lines or Centrex Systems at established tariff rates: (Continued)

(8) Main Satellite Service

Main Satellite Service allows the Centrex user to tie together several business locations which may be serviced from different central office switches. All attendant services are normally provided from the "main" location, and this location is the only one with a listed directory number.

(9) Music/Message on Hold

Music/Message on Hold provides music/message for calls put on call hold (or parked) by Centrex customers. The music/message and audio source may be Utility-provided or customer-provided.

(a) Standard Music Audio - Standard Music and audio source is provided by the Utility. Music is only available for Standard.

(b) Custom Music/Message Audio (audio source resides at Utility)- The production of the Custom Music/Message is provided by the customer. The Utility reserves the right to refuse any audio source equipment in or on the Utility's premises due to physical size, electronic emissions, safety concerns, etc.

(c) Custom Music/Message Audio (audio source resides at customer premises) - The production of the Custom Music/Message is provided by the customer. The audio is located at the customer's premises and the rates in Schedule Nos. A-1 and/or A-6 will apply and be necessary to supply the Music/Message to the Utility.

(10) INWATS:

INWATS

INWATS service provides the ability to receive calls which would be dialed as 800-type numbers. This allows individuals calling a business to do so without incurring toll charges. Simulated Facility Groups may be used to control the number of simultaneous INWATS calls that can be made to the business.

13. DEFINITIONS - (Continued)

- d. The following are optional, chargeable features/services which may be provisioned on Centrex Groups of lines or Centrex Systems at established tariff rates: (Continued)

(11) Special Customer Premises Equipment (CPE) Interface Circuits:

Special CPE Interface Circuits provide access to special customer-owned equipment, such as paging equipment, code calling equipment, dictation and radio paging equipment by dialing an intercom or access code. Depending upon the customer-owned equipment used, either an access line, PBX trunk, or circuit will be required:

(a) Code Calling

Code Calling allows for dial access via an access code to connect to a customer-provided signaling device using a bell or some other audible signal. During the time that the user is on the line to the device, the person called can pick up any line within the Centrex Group and dial a code to automatically connect to the user.

(b) Improved Radio Paging

Improved Radio Paging allows attendants and other users to page other people in the business using radio paging equipment. Anyone receiving a page can establish a connection by dialing a code from a Centrex phone.

- d. The following are optional, chargeable features/services which may be provisioned on Centrex Groups of lines or Centrex Systems at established tariff rates: (Continued)

(11) Special Customer Premises Equipment (CPE) Interface Circuits: (Continued)

(c) Loudspeaker Paging

Loudspeaker Paging allows dial access via an access code to page someone on the business' premises. The user can use this feature when someone is on hold, but the person on hold cannot be transferred to the paging device.

(d) Paging Access

Paging Access allows selected stations to have dial access to customer-provided loudspeaker paging equipment.

(e) Recorded Telephone Dictation

Recorded Telephone Dictation allows the Centrex user to connect a telephone dictation machine so that users can dial an access code and dictate information.

(12) Special Intercept Announcement

A Special Intercept Announcement may optionally be used to address the following conditions:

- (a) If a Centrex station user dials a code which is not defined or assigned in the Business Group Dialing Plan, or
(b) If the call is restricted due to various restriction arrangements (i.e., Semi-Restricted, etc.).

(13) Station Message Detail Recording (SMDR)

SMDR provides detailed call information on billable and non-billable calls made from the Centrex Group. This feature requires special equipment which must be located on the customer's premises.

CENTREX SERVICE
(Continued)

SPECIAL CONDITIONS - (Continued)

13. DEFINITIONS - (Continued)

- d. The following are optional, chargeable hunting features which may be provisioned with Centrex Service at established tariff rates: - (Continued)

(14) Hunting Arrangements:

(a) Circle Hunting

Circle Hunting allows calls directed to busy stations in the middle of the hunt group to search through to the end of the hunt group and then return to the beginning of the hunt list in search of an idle station. The caller is connected to the first idle station encountered.

(b) Preferential Hunting

Preferential Hunting allows any station in a Hunt Group to have its own (preferential) hunting list. If a call is made to a station with a Preferential Hunting list assigned to it, and that station is busy, the preferential list is first hunted until an idle station is found. If an idle station is not found on the preferential list, the hunt will proceed to the entire hunt group.

(c) Regular Hunting

Regular Hunting or Linear Hunting is performed in a sequential fashion across all members of a Multiline Hunt Group. The search for an idle station starts with the pilot number. If the first station is busy, the group is sequentially hunted until an idle station is found. If there are no idle stations available, the caller receives a busy signal.

(d) Series Completion

Series Completion is a hunting arrangement in which individual stations always have their own directory numbers and classes of service. Two different hunting arrangements can be selected with Series Completion: linear or circle.

13. DEFINITIONS - (Continued)

- d. The following are optional, chargeable hunting features which may be provisioned with Centrex Service at established tariff rates: - (Continued)

(14) Hunting Arrangements: - (Continued)

(e) Uniform Call Distribution

Uniform Call Distribution is intended to distribute calls evenly among the stations in a Hunt Group. When a caller is connected to an idle station, the location of the next station is marked as the starting point for hunting when the next incoming call is received. Once hunting begins, it proceeds in a circular manner until an idle station is found.

(15) Delay Announcements for Queued Calls

Delay Announcements can optionally be used to inform a caller that his or her call has been placed in a queue. The delay announcement can be repeated at regular intervals until an idle station becomes available.

(16) Make Busy Features:

(a) Make Busy

Make Busy can be used to temporarily make a particular station in a Hunt Group appear busy to incoming callers. Make Busy causes the hunt to skip over a station during the search for an idle station.

(b) Group Make Busy

Make Busy can be used to temporarily make a group of stations or an entire Hunt Group appear busy to incoming callers. Make Busy causes the hunt to skip over a group of stations during the search for an idle station and is operated via a physical switch.

(17) Queuing for Hunt Groups

Queuing may optionally be used when all stations in a Hunt Group are busy. When this occurs, a call is placed into a queue. The call remains in the queue until an idle station is located. Up to ten calls can be in queue for a Multiline Hunt Group. Queuing cannot be provided for Preferential Hunt Groups or Series Completion Groups.

(18) Stop Hunt

Stop Hunt allows a station user to stop the normal hunting process at a predetermined point. Activating this feature at a particular station in a Hunt Group will cause the search for an idle line to stop there.

Date Filed NOV 05 1996
 Effective DEC 20 1996

Decision No. _____

Resolution No. _____

(N)

CENTREX SERVICE AGREEMENT

(N)

TERMS AND CONDITIONS OF TDS TELECOM CENTREX SERVICE AGREEMENT

1. Centrex is a central office based business communications service which provides capabilities similar to those offered on a private branch exchange, but without requiring switching equipment on the customer's premises. Centrex integrates all of a business customer's lines into a single telecommunications system. All Centrex stations lines will be equipped with standard features. Additional optional features may also be selected which may have an additional charge.

2. TDS will provide you (the "Customer") with Centrex pursuant to the rates, terms and conditions in TDS TELECOM's general and special tariffs filed with the local state public service commission as modified from time to time. It is expressly understood and agreed that the Centrex services which are subject of this Agreement are provided pursuant to and under the terms and conditions of such tariffs which may be in effect from time to time and supplemented by the terms of this Agreement. In the event of a conflict between the terms of any applicable tariff and this Agreement, the terms of the tariff will control. In the event the services provided under this Agreement are de-tariffed, the terms and conditions of the tariff on their last effective date shall continue in effect, except in the case of a conflict between any such tariff and this Agreement in which case this Agreement shall control until such time as the parties can agree to new terms and conditions for the provision of the services described herein.

3. Subsequent line additions/deletions to this Agreement will be as follows:

- a. Subsequent additions will be rated under a new agreement or added to the existing Agreement, based upon the remaining period of the initial Agreement. If the line addition causes the Customer's total Centrex line count to exceed the Monthly Line Rate previously contracted, all lines will be billed at the rate for the larger line count.
- b. Subsequent line deletions, resulting in reductions equal to or exceeding 30% of the initial quantity of lines under the initial Agreement will be considered a termination liability and treated as specified in paragraph 4B below. If the reduction causes the total number of lines to fall into a different Monthly Line Rate, all remaining lines will be billed at rates for the smaller line count.

4. Compensation to be paid by Customer to TDS TELECOM for Centrex service provided under this Agreement shall be established at the rate and the terms provided in the tariff. Please note that under the terms of the tariff, a Customer's termination liability is as follows:

- A. If Centrex service is canceled by the Customer after installation of the service, but prior to the completion of the term of Agreement or service period indicated above, the Customer shall be obligated to pay a termination liability charge. This charge is calculated by multiplying the applicable monthly rate by the remaining months in the Agreement (i.e. the service period) multiplied by fifty percent.
- B. A Customer who reduces the number of Centrex lines ordered under this Agreement has the following options for the remaining term of the service period:
 - (1) Continue to pay an amount equal to the monthly rate for the number of Centrex station lines that are disconnected under the Agreement; or
 - (2) Pay the termination charges described in (A) above on the number of Centrex station lines disconnected.

Unless specifically exempted, Centrex service shall be subject to all general regulations applicable to the provision of service by TDS TELECOM and stated in its general tariff including late payment charges and related expenses. Please note that this tariffed Centrex service does not include termination equipment on the Customer's premises which may be covered under a separate tariff, agreement or maybe provided by the Customer.

5. Customer agrees to pay TDS TELECOM the applicable tariff rates and charges and to cooperate and assist TDS TELECOM in complying with all reasonable requests regarding implementing and maintaining various aspects of Centrex service.

6. Neither TDS TELECOM nor the Customer shall be liable to the other for any special, incidental or consequential damages of any nature or for any reason, even if advised of the possibility of such damages. The maximum amount of liability of TDS TELECOM to the Customer shall be the amount the Customer has paid TDS TELECOM for the Service.

7. To the extent not prohibited by law, and except as otherwise provided herein, each party shall indemnify and hold harmless the other party from and against any loss, cost, claim, injury or liability brought by a person not a party hereto or an affiliate under this Agreement which relates to or arises out of the negligent or intentional acts or omissions in connection with the actions taken under this Agreement or breaches of the terms of this Agreement by the indemnifying party or its employees, agents or independent contractors.

8. Each party warrants and represents to the other that (1) it has the right, power and authority to enter into and perform its obligations hereunder; (2) it has taken all the requisite legal action to approve the execution, delivery and performance of this Agreement; (3) this Agreement constitutes a binding obligation enforceable against such party in accordance with its terms; and (4) the individual executing this Agreement is a duly appointed officer or agent of such party with the authority to execute this Agreement on behalf of the party.

9. A. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the state where the TDS TELECOM office administering this Agreement is located.

B. Force Majeure. The obligations of the parties are subject to force majeure and neither party shall be in default under this Agreement if any failure or delay in performance is caused by strike, accidents, acts of God, fire, flood, adverse weather, lack of transportation, condemnation or exercise of rights of eminent domain, war or civil disorder, or any other cause beyond the reasonable control of the non-performing party.

C. Assignment. Any assignment, in whole or in part, by Customer of any right or obligation or of any interest hereunder without the written consent of TDS TELECOM shall be void. Customer acknowledges certain duties and obligations of TDS TELECOM under this Agreement may be performed by certain subsidiaries or affiliates of TDS TELECOM and TDS TELECOM reserve the right to direct Customer to pay the charges due under this Agreement to such subsidiaries directly.

D. Survivability. Notwithstanding expiration or termination of this Agreement, the provisions of the Agreement which by their nature or context are required or intended to survive shall survive and remain in full force and effect.

E. Notice and Demands. Except as otherwise provided under this Agreement, all notices, demands or requests which may be given by any party to the other party shall be in writing and shall be deemed to have been duly given on the date delivered in person or via express service or on the date deposited, postage prepaid in the United States mail via Certified Mail, return receipt requested, to the respective parties at the address set forth above. If personal delivery is selected as the method of giving notice under this Section, a receipt of such delivery shall be obtained. The address to which such notices, demands, requests, elections or other communications is to be given by either party may be changed by written notice given by such party to the other party pursuant to this Agreement.

F. Applicable Law. Both Parties agree that they will comply with the provisions of all applicable federal, state and local laws ordinances, regulations and codes with which they are obligated to comply in their performance hereunder.

G. Independent Contractors. The parties to this Agreement are independent contractors. Neither party is an agent, representative, or partner of the other party. Neither party shall have any right, power or authority to enter into any agreement for or on behalf of, or incur any obligation or liability of, or to otherwise bind the other party. This Agreement shall not be interpreted or construed to create an association, joint venture or partnership between the parties or to impose any partnership obligation or liability upon either party.

H. Entire Agreement. This Agreement sets forth the entire agreement, and supersedes any and all prior agreements between the parties with respect to the transactions set forth herein.

I. Amendment. No change, amendment or modification of any provisions of this Agreement shall be valid unless set forth in a written instrument signed by both parties to this Agreement.

Thank you for choosing TDS TELECOM. Please do not hesitate to contact us to discuss any of your other telecommunications needs.
