

Schedule No. B-4

CUSTOMER-PROVIDED RESIDENCE INTERIOR WIRING

Effective January 1, 1987, in accordance with the order of the FCC in Docket (N) 79105, interior wiring, as defined below, will become the responsibility of the customer. The customer will be responsible for the installation and maintaining of interior wiring, jacks, and plugs.

Interior Wiring: Wire or cable within a building, from the point of entering the building served (where it connects with the service connection facility) extending to and between instrumentalities, equipment or connecting arrangements. Interior wiring includes the associated protective apparatus; terminal chambers, connecting blocks and frames; and the wire or cable between premises of an applicant or customer in separate buildings on a continuous property.
