

Schedule No. A-26

(N)

INTRABUILDING NETWORK CABLE

APPLICABILITY

Applicable to the consultation, design, installation, rearrangement, repair, and maintenance of Intrabuilding Network Cable (INC).

TERRITORY

Within the exchange areas, as said areas are defined on maps filed as part of the tariff schedules.

RATES

	<u>Labor Charge*</u>		
	<u>Schedule 1</u>	<u>Schedule 2</u>	<u>Schedule 3</u>
(1) Intrabuilding Network Cable (INC):			
a. Initial premises work charge to dispatch employee, locate trouble, complete repair, install, or rearrange:			
First 15 minutes or fraction thereof	\$ 35.00	\$ 40.00	\$ 45.00
b. Additional premises work to locate trouble, complete repair, install, or rearrange:			
Each additional quarter hour or fraction thereof	15.00	15.00	15.00
c. Utility-Provided Material Prices	Include but not limited to cost of material, taxes, freight charges.		

Schedule 1 is applicable to work performed Monday through Friday, between 8:00 a.m. and 4:30 p.m., except holidays.

Schedule 2 is applicable to work performed Monday through Friday at hours other than Schedule 1 and all day Saturday, except holidays.

Schedule 3 is applicable to work performed on Sundays and holidays observed by the Utility.

The above labor charge begins upon arrival at or on the customer's premises.

* If a professional engineer is consulted, then the Utility will include those charges in addition to the labor and/or material charges.

INTRABUILDING NETWORK CABLE

(Continued)

SPECIAL CONDITIONS

A. GENERAL

1. Design, installation, and maintenance of Intrabuilding Network Cable (INC) is available for all types of buildings. The customer under this portion of the tariff would be the property owner/landlord/agent who is not necessarily the customer to any particular Utility network service.
2. The Utility shall charge for installing and rearranging intrabuilding riser and lateral cable. The Utility will provide estimates of charges to the applicants.
3. If the customer cancels the order after work has begun, the Utility will charge the customer for any costs or expenses incurred prior to the receipt of the cancellation notice, not to exceed the estimated charge.
4. Arranging for installation and repair of INC cable is the responsibility of the property owner. A property owner may choose a source for installation and repair other than the Utility.
5. The Utility shall charge for repair of Non-Utility-owned riser and lateral cable. The Utility is not responsible for the repair of any customer provided riser or lateral cables which do not meet industry standards as specified in Special Condition A.12 below.
6. Where the property owner chooses not to install or maintain INC, the Utility will install INC as the "vendor of last resort," provided the property owner pays rates and charges specified in this tariff and such installation is in accordance with the tariff provisions.
7. The Utility guarantees INC cable and its associated facilities against defects for a period of one year. This warranty excludes any utility provided supporting structure which is part of and associated with such facilities. During the warranty period the Utility will replace defective parts and equipment at no additional charge.

INTRABUILDING NETWORK CABLE

(Continued)

SPECIAL CONDITIONS - (Continued)

A. GENERAL (Continued):

- 8. The property owner is responsible for placing all conduit for wire and cable placement.
- 9. Network access lines of the customers who receive installation, maintenance, or repair of intrabuilding network cable (INC) may be disconnected for nonpayment of applicable rates and charges. Property owners who are not also customers will be subject to all legal remedies for non-payment including reasonable attorney fees and court costs.
- 10. INC cable products shall be manufactured to, and used in accordance with, industry standards as identified in Special Condition A.12 below and shall be installed in accordance with local building codes and shall have the minimum industry rating for the application.
- 11. If a customer requests, the Utility will, where possible, repair or replace substandard cable to meet the established standards and needs of the requested service. The charges for labor and material will be paid by the customer.
- 12. The Utility will not be required to provision its services over INC that does not meet national, state, and local industry minimum safety, transmission, installation and material quality standards. INC shall meet the technical specifications and standards outlined by the following industry groups:

American National Standards Institute (ANSI)
 American Society for Testing and Materials (ASTM)
 Building Industry Consulting Service International (BICSI)
 Electronic Industries Association (EIA)/Telecommunications
 Industries Association (TIA)
 Institute of Electronics and Electrical Engineers (IEEE)
 Insulated Cable Engineering Association (IECA)
 National Electric Code (NEC)
 National Electrical Manufacturer's Association (NEMA)
 National Electrical Safety Code (NESC)
 National Recognized Testing Laboratories (NRTL)
 Underwriter's Laboratories (UL)

INTRABUILDING NETWORK CABLE
(Continued)

SPECIAL CONDITIONS - (Continued)

A. GENERAL (Continued)

13. The Utility is granted the right of access to the customer-owned/provided intrabuilding network cable (INC) and the right to use pairs in such cable without charge to enable the Utility to provide and maintain the Utility's network services. The Utility will provide verbal notice to property owner(s) to arrange for access to the facility.
14. If the property owner does not allow the Utility the right to use sufficient pairs in customer-owned/provided cable without charge, or does not request that the Utility install the necessary cable to serve the Utility's customers, the Utility is not required to provide network services to reach such customers.
15. Where a customer is so located that it is necessary to use private right of way to furnish a service on continuous property, the customer shall be required to pay the entire cost involved in securing and retaining such right of way.
16. Demarcation locations will not be established on floating boat slips, piers, or docks where the water line does not maintain a constant water level.
17. For safety reasons, orders for service at hazardous locations will be treated on an individual basis and demarcation points negotiated accordingly. Hazardous locations include power substations and mines. (Certain fault conditions at a power substation can develop hazardous voltages at significant distances from the source and mines always have a potential for explosive or poisonous atmospheres.)

INTRABUILDING NETWORK CABLE
(Continued)

SPECIAL CONDITIONS - (Continued)

B. IN PLACE INTRABUILDING NETWORK CABLE (INC)

1. In place INC is INC installed prior to August 8, 1993.
2. As of August 8, 1993, the responsibility for maintenance of INC is transferred to the property owner together with its associated protective apparatus, terminal chambers, connecting blocks, and frames in "as is" condition without any representation as to quality or fitness. Further, the "as is" condition is without express or implied warranties as to merchantability; fitness for a particular purpose; permanence of right of way, easement or locations; or any other matter whatsoever. The Utility's liability will be as shown in Rule No. 24.
3. Ownership of facilities not detailed in the preceding paragraph, such as poles and conduit structure, shall remain with the Utility. Where no longer required by the Utility, these facilities may be priced for sale on an individual case basis.
4. All property owner requested rearrangements, changes and removals required to separate the relinquished facilities from the Utility's network shall be performed by the Utility. Charges for installation and rearrangement of INC are applicable and shall be paid by the customer.
5. The Utility may further recover any extraordinary costs incurred during any special removal procedures requested by the customer. Costs shall be recovered based on current labor and material prices.

C. JOINT TRENCHES

1. For jointly-used trenches, the demarcation point will be located at the building, rather than at the edge of the property. Customers who request a demarcation point at the property line will be required to retrench the INC, as required by the energy utility.
