SCHEDULE NO. B-5, ACCESS SERVICE

(T)

(D)

|

(D)

SPECIAL CONDITIONS

- 1. Applicable to service provided under RATES (1) above:
 - a. Channels are furnished for specified purposes and are arranged in such manner as the Utility may elect. A channel, circuit, or facility furnished at the above rates may be used only for the specific purpose, primarily intended, and may not be used for a combination of services, nor may a service be superimposed on one of a different kind.
 - b. Mileage Measurement

The airline measurement for local channels in RATES (1) is the airline distance between the stations or terminals of the private line.
 - c. Half duplex allows communication between terminals, one direction at a time.

Resolution No:

Schedule No. G-1

INTRALATA LEASED LINE AND PRIVATE LINE TELEPHONE SERVICE
(Continued)

SPECIAL CONDITIONS - (Continued)

1. Applicable to service provided under RATES (1) above: (Continued)

d. The above rates for private lines, circuits, or channels are applicable when used in connection with local or interexchange intraLATA private line telephone, telegraph, private line teletypewriter, program transmission, sound recording, loudspeaker, speech networks and signaling services. The rates apply to each physical, nonphysical, metallic, or grounded circuit or channel. (T)

e. Where unusual conditions are encountered in arranging for the service, such as loading, balancing, or special arrangements, additional charges may be applied, based on the costs thereof, subsequent to review thereof by the California Public Utilities Commission.

f. Private lines may terminate on a switchboard, but may not be interconnected through the switchboard to the exchange or toll network. Private lines may not be directly connected to exchange or toll service.

g. The minimum charge for private line or leased line service is one month's charges determined in accordance with the above rates.

h. Local Area Data Channels: (N)

(1) Local Area Data Channels (LADC) are private line channels for limited distance data transmission. They provide full duplex, 2- or 4-wire data transmission between two points within the same serving wire center.

(2) LADC are offered only where non-loaded metallic cable pairs are available. The Utility has no obligation to provide this service if adequate facilities are not available. (N)

INTRALATA LEASED LINE AND PRIVATE LINE TELEPHONE SERVICE
(Continued)

SPECIAL CONDITIONS - (Continued)

2. For Contributions in Aid of Construction for special construction that have been made taxable to the Utility by the Tax Reform Act of 1986, the Utility will bill an additional fee that has resulted from the taxable income for payments that aid our cost of construction, other contributions, and the fair market value of contributions received in aid of construction, and the prior nonrecurring rates that will remain in effect.

The Utility will use Method 2 as described in Decision No. 87-09-026. The Utility's Federal Income Tax and California Corporate Franchise Tax rates for the year of the contribution will apply. The contribution is grossed up for the full amount of the taxes and billed to the contributor.

All collections in excess of the gross-up collected is subject to refund with interest computed at the average three month commercial paper rate.
