Schedule No. A-1
EXCHANGE SERVICES
(Continued)

APPROVED

SPECIAL CONDITIONS – (Continued)

2. Extension and off-premises extension stations located on noncontinuous property will be applied mileage rates as set forth in Schedule No. A-2. The Utility will install the necessary wiring from the Utility's side of the SNI/PCA of the primary station to an extension or off-premises SNI/PCA.
3. The access line is furnished with touch calling service as the standard signaling arrangement.
4. Hunting service involves two or more central office lines. The access lines are arranged so that a call for the first line is completed to a succeeding line in the group when the first line is in use.
5. Hunting service is offered in connection with individual access line and C.O. trunk services, and will be provided subject to the availability and physical limitations of central office switching equipment.
6. For discounts on qualifying schools and libraries, please see Schedule No. A-29 of this tariff.
7. It is the customer's responsibility to provide, and update if necessary, accurate Automatic Number Identification (ANI) and Automatic Location Identification (ALI) sub-address information to the 911 database administrator. Once the customer provides ANI and ALI sub-address information to the 911 database administrator, it is the responsibility of the Company to provide the location of the pilot number to the PSAP for 911 calls, and where technically and operationally feasible the Company will deliver ANI to the PSAP at a station level behind a Multi-line Telephone System.

It is the customer's responsibility to arrange for the above capability for its Multi-line Telephone System.
