### M.4 DIRECT INWARD DIALING (DID) SERVICE (Continued)

#### M.4.3. Conditions (Continued)

- c. The rates herein contemplate the use of standard Telephone Company equipment and serving arrangements and are in addition to rates and charges for the service with which it is furnished. When equipment or service of a special type is requested and provided, rates and charges are related to the costs involved to meet the individual requirements of each case.
- d. Operational characteristics of interface signals between the Telephone Company-provided connecting arrangements and the customer-provided equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards of service.
- e. The Telephone Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Telephone Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alternation of such equipment or system or otherwise affect its use or performance.
- f. Directory listings will be provided in accordance with the regulations of the "Directory Listings" section of this Tariff. DID numbers furnished herein are not entitled to free directory listings.
- g. Customer-provided equipment must be arranged by the customer to provide for the intercepting of assigned but unused station numbers.
- h. The customer being provided DID service will be responsible for all toll calls billed to the DID numbers.
- i. DID numbers will be sold in conjunction with DID service only.
- k. The assignment of telephone numbers and the sequence of numbers assigned to a DID service is determined by the Company based on the rules established in FCC order 00-104. The customer may request a sequential block of numbers to be placed into service at a later date. Non-Recurring Charges for DID numbers may apply to recover the cost of reserving the numbers. Reserved numbers can only be held for a maximum of six months. After six months, the reserved numbers must be placed in service for that specific customer or the numbers will be categorized as available for use by other customers.

M.8 CUSTOMIZED 911 (C911)

A General

Customized 911 (C911) is an optional service that allows a PBX customer to provide specific information for their PBX station telephone numbers or business lines in addition to the primary number information for 911 call records. The information is sent to the Company. The Company processes the information using the standard 911 process for each county.

B Conditions

- 1 The customer shall provide the Company with accurate, specific address and location information for each number enrolled in C911 in the required format that the Company uses in submitting information to the PSAP.
- 2 The customer is responsible for ensuring their PBX system is able to recognize the 911 digits as a complete dialing code when the station user dials it.
- 3 The customer is responsible for ensuring the ANI associated with the individual station line is passed.
- 4 The customer is responsible for notifying the Company of any changes or additions made to the numbers within 48 hours of the changes being made. This includes adding new numbers. If the customer fails to provide any changes or additions to the Company within 48 hours of the change, and the Company receives a "No Record Found" report from the 911 database provider/administrator, a charge will be assessed, as listed in the Rates Section below, for the Company's time and expenses associated with correcting the information. If the Company receives 3 of these "No Record Found" reports within 1 year, the service will be terminated with the customer. At that time, the customer is responsible for providing 911 via the primary number.
- 5 Except where caused by the willful misconduct or gross negligence of TDS Telecom, the customer agrees to release, indemnify, defend and save harmless the Company from claims, suits, actions, damages, costs, judgments and actions of any nature or from any person related to the C911 Service provided.
- 6 The customer agrees to indemnify and hold harmless TDS Telecom for any infringement or invasion of the right to privacy of person or persons, caused or claimed to be caused by acts or omissions of the Customer and their operation or use of C911 Service.

M.10 CUSTOM CALLING SERVICES

M.10.1 General

Custom Calling Services are optional services offered in addition to regular exchange service to those customers served by central offices arranged to provide such services. The number of Custom Calling Services available depends upon the exchange central office providing the service and is subject to the availability of its facilities.

M.10.2 Service Descriptions

a. Call Forwarding

This service redirects incoming calls to another telephone number. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use Call Forwarding will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

b. Call Forward-Busy (Customer Programmable)

This service routes incoming calls to another telephone number when the customer's dedicated number is busy. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - Busy, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

This service redirects incoming calls not answered after a predetermined number of rings to another telephone number. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - No Answer, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

(N)

(N)

d. Call Forward-Remote Access

This service is an additive to the Call Forwarding service and allows the customer to activate and deactivate Call Forwarding from a telephone in another location. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

(M) (T)

(M)

e. Call Hold

This service allows a customer to place a current caller on hold, which frees the line so the customer can initiate another call. To activate Call Hold, the customer depresses the switchhook to receive a dial tone and then dials a specific code. Only one call per access line can be placed on hold at a time. The held call cannot be added to another call, however, the customer can toggle between each call.

i. Call Waiting/Cancel Call Waiting

This service alerts a customer who is on the phone that another local or long distance caller wants to get through the line. The customer will receive a tone signal to indicate another incoming call and the caller will receive the usual ringing tone. To place the first call on hold and answer the incoming call, the customer depresses the switchhook once. The customer can then toggle between both calls by depressing the switchhook. If the customer hangs up when a call is still on hold, the customer's line will automatically ring back.

Cancel Call Waiting allows a Call Waiting customer to deactivate the Call Waiting service by dialing a code. When this service is activated, the customer will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal. Call Waiting will remain disabled for the rest of the call, but will be automatically restored upon call termination.

l. Personal Ringing (T)

This service allows the customer to have up to three distinct telephone numbers on a single line. The second and third numbers will have a distinctive ringing pattern so the customer can identify which number has been called. If a customer also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a customer also subscribes to Call Forward, the main directory number or all three numbers can be forwarded.

m. Speed Call 8 (T)

This service allows the customer to keep a list of eight specified telephone numbers which can be dialed by using a one-digit (2 through 9) access code.

n. Speed Call 30 (T)

This service allows the customer to keep a list of 30 specified telephone numbers which can be dialed by using a two-digit (20 through 49) access code.

o. Do-Not-Disturb (T)

This service prevents incoming calls from ringing at the customer's premises. Callers will reach a recording which states that the number they have dialed is not accepting calls at this time and to try again later. A personal identification number (PIN) is available to allow selected callers the ability to override this service in order to reach the customer.

p. Toll Restriction

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. When a restricted call is attempted from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

q. Toll Restriction with PIN Override

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. In addition, the customer will have the ability to override the restriction on a per call basis by using a Personal Identification Number (PIN). To activate the override, the customer dials a code, the PIN, waits for a dial tone and then dials the toll number. When a restricted call is attempted without the PIN, from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

M.10.3 Limitations

1. Custom Calling Services require special central office equipment and will be provided only where facilities are available.
2. Custom Calling Services are only available on single-line party service.

### M.13 ADVANCED CALLING SERVICE

#### M.13.1 GENERAL

Advanced Calling Services (ACS) are optional services, offered in addition to regular exchanges service, which allow customers to efficiently manage the call flow generated over their Exchange Access Line(s). Customers will be able to screen, redirect, or return selected calls. These services offer subscribers convenience, time savings, and a greater degree of control over the use of their telephones. Advanced Calling Services are available to residence and business customers where facilities are available. Individual feature availability may differ by exchange.

#### M.13.2 SERVICE DESCRIPTION

**1. ANONYMOUS CALL REJECTION [Feature #003429]**

This service enables a subscriber to reject incoming calls from which a privacy indicator is received. The service is activated by dialing a unique code. When the service is active, the Telephone Company ("Company") will not complete calls to its customer when the calling party has activated Caller ID blocking services. Such calls will be routed to a Company recorded announcement. Anonymous Call Rejection is included with Caller ID at no charge.

**2. CALL REJECTION [Feature #003399]**

This service enables a subscriber to reject up to a maximum of six (6) preselected incoming telephone numbers from which he/she does not wish to receive calls. To select a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. To add an unknown telephone number to the list, a subscriber can activate a code immediately after receiving an unwanted incoming call. The Company's equipment will screen incoming calls against the subscriber's list and reject those on the list. Callers whose numbers are rejected are directed to a Company recorded announcement. If facilities are unavailable to provide incoming call screening via the subscriber's list, standard call completion will occur.

**3. CALL RETURN [Feature #003319]**

This service enables the subscriber to automatically redial the telephone number of the most recent incoming call. The Company's equipment will make repeated attempts to establish the call form approximately a thirty (30) minute period, Beginning with the subscriber's activation of Call Return if the most recent incoming call is busy. If the most recent incoming call is blocked, the subscriber will get a Company recorded announcement indicating the number is a private number and the call can not be returned. The service cannot be activated for calls originating from a line that is forwarded or from a line not associated with a telephone number, e.g., multiline hunting groups.

Call Return is available on a flat monthly rate and a pay-per-use basis. Pay-per-use Call Return will have a per activation rate and a monthly price cap. After the monthly price cap has been reached each activation thereafter will be at no charge.

4.. **PREFERRED CALL FORWARDING** (Feature #003389)

This service enables the subscriber to forward up to a maximum of six (6) preselected incoming telephone numbers to another telephone number. To forward a telephone number, the subscriber dials an activation code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and forward only those telephone numbers on the list. Calls forwarded by this service are subject to all applicable local and long distance charges. These calls are also subject to transmission limitations.

5. **PRIORITY RINGING** (Feature #003359)

This service allows the subscriber to provide up to a maximum of six (6) preselected incoming telephone numbers with a distinctive alerting signal or ring (or a distinctive Call Waiting tone if the subscriber has subscribed to Call Waiting), when the dials a unique code and then constructs or modifies a telephone number screening list. The company's equipment will screen incoming calls against the subscriber's list and provide the Priority Ringing service for the preselected telephone numbers on the subscriber's list.

6. **REPEAT DIALING** (Feature #003309)

This service enables the subscriber to automatically redial the last outgoing telephone number dialed from that line. When the recalled telephone number is busy, the Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation.

7. **SPECIAL CALL ACCEPTANCE** (Feature #003379)

This service enables a subscriber to allow up to a maximum of six (6) preselected incoming telephone numbers to be accepted. To select a telephone number to be accepted, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and allow only those calls to be completed. Calls from all other numbers will be routed to a Company recorded announcement.

M.13 ADVANCED CALLING SERVICES

M.13.2 SERVICE DESCRIPTION *(continued)*

8. CALLER ID

Caller ID - Basic (Number only) and Caller ID-Deluxe (Name and Number) are the available services.

a) **Caller ID - Basic [Feature #003329]**

This service utilizes specific network capabilities to transmit and display the number associated with an incoming call to the called party's access line. The number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID subscribers must provide, and connect, their own compatible premises equipment in order to process and display the number transmission. The Company will forward all telephone numbers where technically feasible.

If a calling party has activated blocking, the number will not be transmitted to the display equipment of a Caller ID subscriber. Instead, the Caller ID subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID subscriber that the calling party chose to block number delivery. Anonymous Call Rejection is included with Caller ID at no charge.

b) **Caller ID - Deluxe [Name is feature #003419]**

This service utilizes specific network capabilities, where technically feasible, to transmit the Name and Number associated with an incoming call to the called party's access line. The name and number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID - Deluxe subscribers must provide, and connect, their own compatible premises equipment in order to process the name and number transmission. The Company will forward all telephone numbers and names where technically feasible.

If a calling party has activated blocking, the name and number will not be transmitted to the display equipment of a Caller ID - Deluxe subscriber. Instead, the Caller ID - Deluxe subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID - Deluxe subscriber that the calling party chose to block name and number delivery. Anonymous Call Rejection is included with Caller ID at no charge.

9. CALLER ID BLOCKING *[Feature #003339]*

Caller ID Blocking allows the caller to prevent the delivery of his/her calling data to a Caller ID subscriber on a per call basis (Caller ID Blocking - Per Call) or per line basis (Caller ID Blocking - Per Line).

a) **Caller ID Blocking - Per Call**

This service will block the delivery of the caller's data to a Caller ID subscriber for one call only and may be activated from all single party access lines by dialing \*67 (1167 from a rotary phone) prior to placing the call.

**PER THE FCC CALLER ID ORDER, EFFECTIVE 12/1/95, CALLER ID BLOCKING - PER CALL IS PROVIDED TO ALL CUSTOMERS AT NO CHARGE.**

As of 1/1/97, per FCC Docket 91-281, per call blocking will be provided on calls originating from public, semi-public or other paystations used by the general public and party lines.

b) **Caller ID Blocking - Per Line**

This service will automatically block the delivery of the caller's data to a Caller ID subscriber on all calls and will be made available or offered, at no charge, to all customers, including law enforcement agencies and domestic violence programs. Per line blocking can be deactivated by dialing \*67 (1167 from a rotary phone) prior to placing the call.

### M.13 ADVANCED CALLING SERVICES (Continued)

#### M.13.2 Service Descriptions (Continued)

##### 10. Call Trace

This service enables the customer to initiate a trace of the last incoming call completed by dialing an activation code immediately after terminating the call. A Call Trace is considered successful when the Company's equipment is able to record the incoming call detail (not the conversation). Incoming call detail includes: the calling number, the time the trace was activated, and in some locations, the time the traced call was received. The results of the trace are never provided to the customer directly. Call Trace information will only be given to appropriate law enforcement agencies. For further action to be taken, the customer is required to contact the Telephone Company Business Office during normal business hours, which will refer the customer to appropriate law enforcement agencies, or contact the law enforcement agency directly. Call Trace detail will be retained by the company and made available to the local law enforcement for ten business days after the trace has been initiated.

Call Trace may not capture incoming telephone numbers marked "private" or "out of area".

Only calls from locations with compatible signaling services are traceable using Call Trace.

#### M.13.3 Special Conditions and Limitations

- 1) An originating caller's data may not be displayed to the called party under the following conditions:
  - The called party must be on-hook to receive the caller's data unless they also subscribe to Call Waiting. If a customer subscribes to both Call Waiting and Caller ID, and is on an existing call, the second incoming call information will be displayed.
  - The caller's data will not be displayed if the called party answers the incoming call during the first ring interval.
  - Caller ID services cannot be provided with any distinctive ringing lines having a maximum silent interval duration that is not long enough to allow transmission of the date message.

- Identification of names, specific stations or extensions served by a PBX or Key System is not possible. The main directory number or name and number (if available) of the PBX or Key System will be displayed.
- Caller ID services cannot be provided if the calling party is from a multi-party line. The called party will receive an "Unavailable" display.
- The caller's data will be unavailable if it is from another office that is not linked by appropriate facilities with the called party's office.
- The calling party has activated blocking.
- Caller ID services do not display a directory number or name and number (if available) for operator assisted calls, calls marked private by the originator or calls originating from pay and party line stations.

**b) The following special conditions apply to Caller ID services based on the FCC Caller ID Order effective 12/1/95:**

- If a customer dials a "1-800" or other Automatic Number Identification (ANI) Service number, the telephone number that they are calling from will be revealed to the called party through ANI technology. Even if the customer has per line blocking or has activated per call blocking, the 800 number party has the right to obtain this information through ANI.
- ANI information may not be reused or resold for other purposes without a caller's consent, even where the called party has paid for the call.
- Caller ID services are available on all long distance calls where technically feasible.
- All calling data will be displayed to E911 through ANI technology, even if the customer has per line blocking or has activated per call blocking.
- All calling data will be passed, even for customers who do not subscribe to Caller ID.
- Per Call Blocking will be available to all customers. (The FCC Order overrules all state PUC/PSC decisions on Per Call blocking.)

M.17 N11 SERVICES

A. General

In compliance with FCC Order 00-256 in CC Docket 92-105 and subsequent orders, N11 Service ("N11") establishes a three-digit local dialing arrangement in the Central Office that automatically transfers "N11" calls to another pre-programmed telephone number (point-to number) determined by the N11 Subscriber.

B. Definitions

The Federal Communications Commission (FCC) administers the N11 codes, and has nationally assigned 211, 311, 511, 711, and 811 to the following special services.

"211" (Not Available)

211 is assigned for community information and referral services.

"311" (Not Available)

311 is assigned for non-emergency police and other governmental information.

"511"

511 is assigned for traffic and transportation information.

(C)

"711"

711 is assigned for access to Telecommunications Relay Service (TRS).

"811"

811 is assigned for state One Call Services for providing advance notice of excavation activities to underground facility operators.

C. Conditions and Limitations

1. Requests for utilization of the N11 dialing code must be submitted in writing to the state regulatory authority, consistent with applicable state law for the assignment of the N11 code.
2. N11 service is provided subject to the availability of the N11 code and where facilities permit.
3. Only one 7 digit or 10 digit or 800 toll-free number may be used as the lead number per basic local calling area.
4. Directory listings may be provided for N11 under the terms, conditions, and rates specified in section F of this Tariff. Directory listings may be provided for 711 Service at no charge.

  - 1+
  - 0+, 0-(credit card, third-party billing, collect calls)
  - 101XXXXIn addition, operator assisted calls to the N11 Subscriber will not be completed.
6. Suspension of N11 Service is not allowed.
7. The N11 Subscriber will subscribe to adequate telephone facilities initially and subsequently as may be required to adequately handle calls to N11 without impairing the Company's general telephone service or telephone plant.
8. The Company will provide both oral and written notification when a N11 Subscriber's service unreasonably interferes with or impairs other services rendered to the public by the Company or by other Subscribers of N11. The Company reserves the right once notification is made to institute protective measures up to and including termination at any time and without further notice. The Company may take protective measures when the N11 Subscriber make no modification or is unwilling to accept modification in method of operation, or continues to cause service impairments.
9. Calls to N11 will be delivered over existing facilities. If the N11 Subscriber requires different facilities or services; the terms, conditions, and rates for those services found elsewhere in this tariff will apply.
10. N11 Service does not provide calling number information in real time to the N11 Subscriber. If the N11 Subscriber needs this type of information, the Subscriber must subscribe to a compatible Caller Identification Service as specified elsewhere.
11. The Company will provision the Subscriber's order within a reasonable time, given the complexity of the order. The N11 Subscriber will be billed the charges when the service is provisioned by the Company.

If the N11 Subscriber cancels the order or decides to discontinue service, the N11 code will be recalled and the number will be considered available for reassignment. Any non-recurring charges associated with the establishment of service may not be refunded or waived.

## MISCELLANEOUS SERVICE ARRANGEMENTS

### M.19 RELOCATION FORWARDING SERVICE (RFS)

APPROVED

(T)

#### A. General

1. Relocation Forwarding Service (RFS) is a voice only business service which accepts calls to special telephone numbers in ESS central offices programmed for this service and automatically forwards them to a customer's terminating premises equipment. RFS is available as an optional reversed charge toll service with calls forwarded to an exchange outside the local calling area of the call forwarding location. RFS is also available as a local remote call forwarding arrangement. On local RFS, both the call forwarding location and the terminating premises equipment location must be within the same exchange. (C)  
(C)
2. RFS service is offered subject to availability of suitable facilities. (C)
3. RFS service is not offered where the terminating station is a coin telephone. (C)
4. RFS is provided on the condition that the Telephone Company's facilities are able to adequately handle calls to the RFS customer without interfering with or impairing any services offered by the Telephone Company. If in the opinion of the Telephone Company, the facilities are inadequate to handle the calls to the RFS customer, the customer will be required to pay for the cost of additional services and facilities. (C)  
(C)
5. One listing in the white and yellow page directories, covering the exchange in which the call forwarding central office is located, is provided without additional charge.
6. Only one call will be forwarded at one time. Another call will not be sent through until the previous call is completed. (C)  
(C)
7. Customers subscribing to this service are responsible for any toll call charges between the call forwarding location and terminating point. (C)
8. Service is not available on ported numbers or to Internet Service Providers. (C)

#### B. Rates and Charges

1. The following RFS rate is charged to the subscriber in addition to local charges specified elsewhere in the tariff.

2. Message Charges

The message charges applicable to remotely forwarded calls shall be comprised of two separate charges; (i) a charge for that portion of the call from the originating station to the call forwarding location, and (ii) a toll charge for that portion of the call from the call forwarding location to the terminating premises equipment. The respective charge for each such portion shall be as follows:

a. Between the originating station and call forwarding location.

The charge between the originating station and the call forwarding telephone number location shall be the charge specified in applicable tariffs for the type of call involved chargeable to the originating station with the exception of collect toll calls which shall be billed to the RFS customer.

(C)

b. Between the call forwarding location and the terminating premises equipment.

The RFS customer is responsible for the customer-dialed station-to-station toll charges specified in applicable tariffs. The above charge applies to all calls answered at the terminating premises equipment, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

#### A. Total Choice-Home

Any residential customer who has switched their local service from Blue Ridge Telephone Company to another provider and then switches their local service back to Blue Ridge Telephone Company by purchasing the Total Choice-Home package will receive 50% off the billed Total Choice-Home rate for a period of 6 months. After the 6 month period, customers will be required to pay the full rate for the bundled package. In order to receive this discount, customers must retain service for a period of 12 months.

#### B. Total Choice-Pro

Any business customer who has switched their local service from Blue Ridge Telephone Company to another provider and then switches their local service back to Blue Ridge Telephone Company by purchasing the Total Choice Pro package will receive 50% off the billed Total Choice Pro rate for a period of 3 months. After the 3 month period, customers will be required to pay the full rate for the bundled package. In order to receive this discount, customers subscribing to the Month-to-Month package will be required to retain service for a period of 6 months. Customers subscribing to one of the term plans, must retain service for the length of their contract.

#### C. Restrictions and Liability Criteria

1. The number or line on which the service qualifying for this promotion will be provisioned must have local service within Blue Ridge territory from another provider. The customer must switch this local service to Blue Ridge Telephone Company.
2. Customers must request service at the same address and in the same name, unless the customer is planning an imminent move from one address in Blue Ridge territory to another address in Blue Ridge territory within 30 days of switching their service to Blue Ridge Telephone Company. In the case of an imminent move, the Blue Ridge representative can offer this discount to the customer and place the order at the new address.
3. This offer is valid for only one (1) service line at the intended local service address.
4. If the customer cancels or discontinues one or more of the services included in the bundle, they will be ineligible for the discount.
5. Blue Ridge Telephone Company reserves the right to terminate this program at any time.

1. Rules, regulations, and limitations as specified elsewhere in the Company's tariffs for each individual service will apply as part of this Package.
2. STAR Package customers may terminate their Package at any time upon notice to the company.
3. Unless terminated by the STAR Package customer or the Company, a customer will remain enrolled in the Package, as amended from time-to-time, with any applicable changes in rate, for as long as the Plan continues to be offered by the Company.
4. Service Charges will not apply when the STAR Package replaces existing Local Exchange Service or if the customer requests a change from the STAR Package back to Local Exchange Service.

New Customers that subscribe to one of the STAR Packages will receive a waiver of all installation charges.

5. STAR Package customers are not eligible for discounts or promotional offerings outside of this Package, unless specifically provided for in a promotional offering.
6. The Package may not be combined with any other optional toll calling plan service, except for those specified in this offering.
7. Customers may upgrade their Voice Mail Service package for an additional fee.
8. Customers who fail to pay the entire Package rate per month will have all STAR Package optional features removed. The customer will then be converted to the tariffed Basic Local service rate. Service Charges will not apply for converting services back to tariff rates. Such customers will not be permitted to re-enroll in this any of the Packages until such time as all associated unpaid balances are satisfactorily paid in full.

M.30 OPERATOR SERVICES

(N)

1 General Description

Operator Services allow customers to complete calls within the local calling area with the assistance of an operator. The Customer dials "0" or "0+ NXX LINE" to get the operator. Charges include a per-call rate as well as a per-minute rate.

2 Definition of Calls

A. Billed to Third Number

When the Customer dialing the Operator requests the call to be billed to a third-party. The third party will need to accept the charges before the caller and the called party can be connected.

B. Collect Calls

When the Customer dialing the Operator requests the call to be billed to the called number.

C. Person-to-Person

When the Customer requests the Operator to complete the call to a specific telephone number and in addition requests to speak to a specific person, department, extension of an office, etc. Once the requested person, department, extension, etc. joins the call, the Operator will connect the call.

D. Station-to-Station

When the Customer requests the Operator to complete the call to a specific telephone number and is willing to speak to whoever answers the called number.

E. Call Completion

When the Customer requests the Operator to complete the call to a called number. This charge is in addition to other charges that may be assessed.

3. Terms and Conditions

A. Operator Services are available 24 hours, 7 days a week. Rates apply to any time of the day and any day of the week

B. Qualified customers with disabilities will not be assessed the charges.

C. This service is not available on payphones.

4. Rates

A. The rates will be assessed on a per call basis.
