MISCELLANEOUS SERVICES

APPROVED

M.1 CUSTOM CALLING SERVICES

A. General

Custom Calling Service are optional services offered in addition to regular exchange service to those customers served by central offices arranged to provide such services. The number of Custom Calling Services available depends upon the exchange central office providing the service and is subject to the availability of its facilities.

B. Service Descriptions

1. Call Forwarding

This service redirects incoming calls to another telephone number. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use Call Forwarding will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

2. Call Forwarding-Busy (Customer Programmable)

This service routes incoming calls to another telephone number when the customer's dedicated number is busy. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - Busy, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

MISCELLANEOUS SERVICES

APPROVED

M.1 CUSTOM CALLING SERVICES (Continued)

B. Service Descriptions (Continued)

3. Call Forward-No Answer (Customer Programmable)

This service redirects incoming calls not answered after a predetermined number of rings to another telephone number. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - No Answer, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

(N)

4. Call Hold

This service allows a customer to place a current caller on hold, which frees the line so the customer can initiate another call. To activate Call Hold, the customer depresses the switchhook to receive a dial tone and then dials a specific code. Only one call per access line can be placed on hold at a time. The held call cannot be added to another call, however, the customer can toggle between each call.

(N)

5. 3-Way Calling

This service allows a customer to add a third party to an existing telephone call. To add a third party, the customer depresses the switchhook once to place the current party on hold, receives a dial tone, dials the third party's number, and then depresses the switchhook again to establish the three-way connection. All 3-way calls are subject to transmission limitations and all applicable local and long distance charges.

(M)

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use 3-Way Calling will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

Georgia

Section M  
Fifth Revised Sheet 3  
Cancels Fourth Revised Sheet 3

MISCELLANEOUS SERVICES

APPROVED

M.1 CUSTOM CALLING SERVICES (Continued)

B. Service Descriptions (Continued)

6. 6-Way Calling

This service allows a customer to call up to five parties and establish a six-way conference call. To activate this service, the customer dials an access code, dials the desired telephone number (calling party must answer), depresses the switchhook to add the calling party to the line, then depresses the switchhook again to receive a new dial tone. If the called party line is busy or there is no answer, the customer must dial a special access code to drop the line. This process needs to be repeated until all parties (up to five) have been connected to the customer's line. All 6-Way Calls are subject to transmission limitations and all applicable local and long distance charges.

(N)

7. Call Transfer

This service allows the customer to hold and transfer incoming, out-going and intragroup calls. If the customer has established a three way call, this service will allow the customer to hang up while the other two parties remain connected. Any applicable long distance charges will apply for the duration of the call, even if the customer drops off the call.

(N)

8. Call Waiting/Cancel Call Waiting

This service alerts a customer who is on the phone that another local or long distance caller wants to get through the line. The customer will receive a tone signal to indicate another incoming call and the caller will receive the usual ringing tone. To place the first call on hold and answer the incoming call, the customer depresses the switchhook once. The customer can then toggle between both calls by depressing the switchhook. If the customer hangs up when a call is still on hold, the customer's line will automatically ring back.

(M)

Cancel Call Waiting allows a Call Waiting customer to deactivate the Call Waiting service by dialing a code. When this service is activated, the customer will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal. Call Waiting will remain disabled for the rest of the call, but will be automatically restored upon call termination.

M.1 CUSTOM CALLING SERVICES (Continued)

B. Service Descriptions (Continued)

9. Home Intercom-Basic

This service allows customers to redial their own directory number in order to talk to another party at a different extension. To activate this service, customers redial their own directory number and then hang-up. After a short interval, the phone will ring back. Once both parties pick-up the phone, they will be able to have a two-way conversation. This service is also known as Revertive Ringing.

10. Home Intercom-Enhanced

This service allows customers to establish a talking path between two or more of their extensions. To activate this service, the customer dials one of the access code numbers predetermined by the Company, receives an announcement, and then hangs up the phone. The phone will ring back in one of the distinctive patterns, depending on the access code dialed. Also included in this package is dialable hold, where one extension can transfer an outside call to another extension.

MISCELLANEOUS SERVICES

M.1 CUSTOM CALLING SERVICES (Continued)

B. Service Descriptions (Continued)

13. Personal Ringing

This service allows the customer to have up to three distinct telephone numbers on a single line. The second and third number will each have a distinctive ringing pattern so the customer can identify which number has been called. If a customer also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a customer also subscribes to Call Forward, the main directory number or all three telephone numbers can be forwarded.

14. Speed Call 8

This service allows the customer to keep a list of eight specified telephone numbers which can be dialed by using a one-digit (2 through 9) access code.

15. Speed Call 30

This service allows the customer to keep a list of 30 specified telephone numbers which can be dialed by using a two-digit (20 through 49) access code.

16. Call Reminder

This service allows a customer to program a time at which a reminder call is desired. At the programmed time, the customer will receive a call placed by the Central Office Equipment. When the call is answered, the customer will hear a tone or a Company recorded announcement.

M.1 CUSTOM CALLING SERVICES (Continued)

B. Service Descriptions (Continued)

17. Toll Restriction (T)

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. When a restricted call is attempted from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

18. Toll Restriction with PIN override (T)

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. In addition, the customer will have the ability to override the restriction on a per call basis by using a Personal Identification Number (PIN). To activate the override, the customer dials a code, the PIN, waits for a dial tone and then dials the toll number. When a restricted call is attempted without the PIN, from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

M.1 CUSTOM CALLING SERVICES (Continued)

C. Limitations

1. Custom Calling Services require special central office equipment and will be provided only where facilities are available.
2. Custom Calling Services are only available on single-line party service.
3. Custom Calling Services will not be provided in connection with Paystation Service (except for the business line extension), Private Branch Exchange Trunk Line Service, or Centrex Service.

D. Provision of Service for Rotary Hunt Groups

Custom Calling Service as itemized in M.1.E through M.1.G following are offered for use with Rotary Hunt Group Service subject to the following limitations:

1. May be provided when compatible with the equipment configuration at the customer's premises.
2. Available only in certain types of central offices.
3. Not available with Direct Inward Dial type trunks.
4. Call Waiting is only offered for use in conjunction with the last line of Rotary Hunt Group Service.

M.3 ACCOUNT RETENTION

A. General

This service allows a customer to retain their current phone number and associated services when they temporarily disconnect service. When the customer reconnects service they will receive the same phone number and associated services as when they previously held service.

B. Conditions

1. Customers may retain their current phone number for a minimum of one (1) month.
2. The customer must furnish a forwarding address for billing purposes.
3. The customer may purchase in advance the retention of the phone number if a forwarding billing address cannot be furnished.
4. Account Retention is available on all one-party residence lines and up to three one-party business lines subject to the availability of facilities.
5. The customer must have at least one month of regular telephone service paid prior to the establishment of Account Retention.
6. Account Retention may begin and terminate on any day of the month, provided notice is given sufficiently in advance for arrangements to be made.
7. The Company will not provide installations, moves, changes, or maintenance during the period when the customer is billed at the reduced rate.

RELOCATION FORWARDING SERVICE

APPROVED

(N)

A. GENERAL

Relocation Forwarding Service (RFS) is a voice only application service which allows calls sent to a telephone number programmed in the central office to automatically forward to a customer's terminating premises equipment or voice mail box. The customers premise equipment or voice mail box may be located in the same or different exchange from the call forwarding location.

B. CONDITIONS AND LIMITATIONS

1. RFS service is offered subject to availability of suitable facilities.
2. RFS is provided on the condition that the Telephone Company's facilities are able to adequately handle calls to the RFS customer without interfering with or impairing any services offered by the Telephone Company. If in the opinion of the Telephone Company, the facilities are inadequate to handle the calls to the RFS customer, the customer will be required to pay for the cost of additional services and facilities.
3. Only one call will be forwarded at one time. Another call will not be sent through until the previous call is completed.
4. Customers subscribing to this service are responsible for any toll call charges between the call forwarding location and the terminating point.
5. One listing in the white and yellow page directories, covering the exchange in which the call forwarding central office is located, is provided without additional charge.
6. The minimum service period is one month.
7. RFS service is not offered where the terminating station is a coin telephone.
8. Service is not available on ported numbers or to Internet Service Providers.

C. RATES AND CHARGES

Section M  
Original Sheet 12

## MISCELLANEOUS SERVICES

APPROVED

### M.8 ADVANCED CALLING SERVICES

#### M.8.1 GENERAL

Advanced Calling Services (ACS) are optional services, offered in addition to regular exchange service, which allow customers to efficiently manage the call flow generated over their Exchange Access Line(s). Customers will be able to screen, redirect, or return selected calls. These services offer subscribers convenience, time savings, and a greater degree of control over the use of their telephones. Advanced Calling Services are available to residence and business customers where facilities are available. Individual feature availability may differ by exchange.

#### M.8.2 SERVICE DESCRIPTION

1. **ANONYMOUS CALL REJECTION [Feature #99-5E-1275]**

This service enables a subscriber to reject incoming calls from which a privacy indicator is received. The service is activated by dialing a unique code. When the service is active, the Telephone Company ("Company") will not complete calls to its customer when the calling party has activated Caller ID blocking services. Such calls will be routed to a Company recorded announcement. Anonymous Call Rejection is included with Caller ID at no charge.

2. **CALL REJECTION [Feature #99-5E-0592]**

This service enables a subscriber to reject up to a maximum of six (6) preselected incoming telephone numbers from which he/she does not wish to receive calls. To select a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. To add an unknown telephone number to the list, a subscriber can activate a code immediately after receiving an unwanted incoming call. The Company's equipment will screen incoming calls against the subscriber's list and reject those on the list. Callers whose numbers are rejected are directed to a Company recorded announcement. If facilities are unavailable to provide incoming call screening via the subscriber's list, standard call completion will occur.

ISSUED: September 30, 1996

EFFECTIVE: October 30, 1996

Section M  
Original Sheet 13

MISCELLANEOUS SERVICES

APPROVED

M.8 ADVANCED CALLING SERVICES

M.8.2 SERVICE DESCRIPTION *(continued)*

3. **CALL RETURN [Feature #99-5E-0526]**

This service enables the subscriber to automatically redial the telephone number of the most recent incoming call. The Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation of Call Return if the most recent incoming call is busy. If the most recent incoming call is blocked, the subscriber will get a Company recorded announcement indicating the number is a private number and the call can not be returned. The service cannot be activated for calls originating from a line that is forwarded or from a line not associated with a telephone number, e.g., multiline hunting groups.

Call Return is available on a per usage or flat rate basis. This service will have a per activation rate and a specified number of chargeable activations. After the specified number of chargeable activations, each activation thereafter will be at no charge.

4. **PREFERRED CALL FORWARDING [Feature #99-5E-0595]**

This service enables the subscriber to forward up to a maximum of six (6) preselected incoming telephone numbers to another telephone number. To forward a telephone number, the subscriber dials an activation code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and forward only those telephone numbers on the list. Calls forwarded by this service are subject to all applicable local and long distance charges. These calls are also subject to transmission limitations.

5. **PRIORITY RINGING [Feature #99-5E-0596]**

This service allows the subscriber to provide up to a maximum of six (6) preselected incoming telephone numbers with a distinctive alerting signal or ring (or a distinctive Call Waiting tone if the subscriber has subscribed to Call Waiting), when the subscriber receives calls from them. To program a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and provide the Priority Ringing service for the preselected telephone numbers on the subscriber's list.

7. **SPECIAL CALL ACCEPTANCE [Feature #99-5E-0593]**

This service enables a subscriber to allow up to a maximum of six (6) preselected incoming telephone numbers to be accepted. To select a telephone number to be accepted, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and allow only those calls to be completed. Calls from all other numbers will be routed to a Company recorded announcement.
8. **CALLER ID**

Caller ID - Basic (Number only) and Caller ID-Deluxe (Name and Number) are the available services.

  - a) **Caller ID - Basic [Feature #99-5E-0528]**

This service utilizes specific network capabilities to transmit and display the number associated with an incoming call to the called party's access line. The number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID subscribers must provide, and connect, their own compatible premises equipment in order to process and display the number transmission. The Company will forward all telephone numbers where technically feasible.

8. CALLER ID *(continued)*

a) Caller ID - Basic [*Feature #99-5E-0528*] *(continued)*

If a calling party has activated blocking, the number will not be transmitted to the display equipment of a Caller ID subscriber. Instead, the Caller ID subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID subscriber that the calling party chose to block number delivery. Anonymous Call Rejection is included with Caller ID at no charge.

b) Caller ID - Deluxe

This service utilizes specific network capabilities, where technically feasible, to transmit the Name and Number associated with an incoming call to the called party's access line. The name and number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID - Deluxe subscribers must provide, and connect, their own compatible premises equipment in order to process the name and number transmission. The Company will forward all telephone numbers and names where technically feasible.

If a calling party has activated blocking, the name and number will not be transmitted to the display equipment of a Caller ID - Deluxe subscriber. Instead, the Caller ID - Deluxe subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID - Deluxe subscriber that the calling party chose to block name and number delivery.

9. CALLER ID BLOCKING

Caller ID Blocking allows the caller to prevent the delivery of his/her calling data to a Caller ID subscriber on a per call basis (Caller ID Blocking - Per Call) or per line basis (Caller ID Blocking - Per Line).

a) **Caller ID Blocking - Per Call**

This service will block the delivery of the caller's data to a Caller ID subscriber for one call only and may be activated from all single party access lines by dialing \*67 (1167 from a rotary phone) prior to placing the call. **PER THE FCC CALLER ID ORDER, EFFECTIVE 12/1/95, CALLER ID BLOCKING - PER CALL IS PROVIDED TO ALL CUSTOMERS AT NO CHARGE.**

As of 1/1/97, per FCC Docket 91-281, per call blocking will be provided on calls originating from public, semi-public or other paystations used by the general public and party lines.

b) **Caller ID Blocking - Per Line**

This service will automatically block the delivery of the caller's data to a Caller ID subscriber on all calls and will be made available or offered, at no charge, to all customers, including law enforcement agencies and domestic violence programs. Per line blocking can be deactivated by dialing \*82 (1182 from a rotary phone) prior to placing the call.

M.8.2 SERVICE DESCRIPTION *(continued)*

10. **CALL TRACE [Feature #99-5E-0527]**

This service enables the customer to initiate a trace of the last incoming call completed by dialing an activation code immediately after terminating the call. A Call Trace is considered successful when the Company's equipment is able to record the incoming call detail (not the conversation). Incoming call detail includes: the calling number, the time the trace was activated, and in some locations, the time the traced call was received. Upon completion of a successful trace, the customer will be assessed a Call Trace fee that will appear on the customer's next bill. The results of the trace are never provided to the customer directly. Call Trace information will only be given to appropriate law enforcement agencies. For further action to be taken, the customer is required to contact the Telephone Company Business Office during normal business hours, which will refer the customer to appropriate law enforcement agencies, or contact the law enforcement agency directly. Call Trace detail will be retained by the company and made available to the local law enforcement for ten business days after the trace has been initiated.

Call Trace may not capture incoming telephone numbers marked "private" or "out of area".

Only calls from locations with compatible signaling services are traceable using Call Trace.

- 1) **Special Conditions for Caller ID:**
  - a) An originating caller's data may not be displayed to the called party under the following conditions:
    - The caller's data will not be displayed if the called party is off-hook. The called party must be on-hook to receive the caller's data. If the customer subscribes to both Call Waiting and Caller ID, and is on an existing call, the second incoming call information will not be displayed. Instead, the called party will receive the usual Call Waiting tone.
    - The caller's data will not be displayed if the called party answers the incoming call during the first ring interval.
    - Caller ID services cannot be provided with any distinctive ringing lines having a maximum silent interval duration that is not long enough to allow transmission of the date message.
    - Identification of names, specific stations or extensions served by a PBX or Key System is not possible. The main directory number or name and number (if available) of the PBX or Key System will be displayed.
    - Caller ID services cannot be provided if the calling party is from a multi-party line. The called party will receive an "Unavailable" display.
    - The caller's data will be unavailable if it is from another office that is not linked by appropriate facilities with the called party's office.
    - The calling party has activated blocking.
    - Caller ID services do not display a directory number or name and number (if available) for operator assisted calls, calls marked private by the originator or calls originating from pay and party line stations.

M.8.3 SPECIAL CONDITIONS AND LIMITATIONS *(continued)*

2) **Limitations of Advanced Calling Services:**

The management of these services is possible only:

- Where the calling party's data can be forwarded from the central office originating the call to the terminating central office serving the called party;
- When both the originating customer and the call terminating customer are served from the same central office;
- When both the call originating customer and the call terminating customer are served from different central offices equipped for ACS and are linked by appropriate facilities;
- If offering Caller ID - Deluxe, the Calling Name will be displayed only where appropriate facilities are available to provide a match of Calling Name to Calling Number.

The Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failures, or malfunctions of ACS Services or equipment. Such damages of services after the Company has been notified, and has had reasonable time for repair, shall in no event exceed an amount equivalent to the rates charged for the service affected from the time the customer gives notice until service is restored.

It shall be the responsibility of the Customer to provide customer premise equipment (CPE) compatible with ACS.

MISCELLANEOUS SERVICE ARRANGEMENTS

M.11 N11 SERVICES

APPROVED

A. General

In compliance with FCC Order 00-256 in CC Docket 92-105 and subsequent orders, N11 Service ("N11") establishes a three-digit local dialing arrangement in the Central Office that automatically transfers "N11" calls to another pre-programmed telephone number (point-to number) determined by the N11 Subscriber.

B. Definitions

The Federal Communications Commission (FCC) administers the N11 codes, and has nationally assigned 211, 311, 511, 711, and 811 to the following special services.

"211" (Not Available)

211 is assigned for community information and referral services.

"311" (Not Available)

311 is assigned for non-emergency police and other governmental information.

"511"

511 is assigned for traffic and transportation information.

(C)

"711"

711 is assigned for access to Telecommunications Relay Service (TRS).

"811"

811 is assigned for state One Call Services for providing advance notice of excavation activities to underground facility operators.

C. Conditions and Limitations

1. Requests for utilization of the N11 dialing code must be submitted in writing to the state regulatory authority, consistent with applicable state law for the assignment of the N11 code.
2. N11 service is provided subject to the availability of the N11 code and where facilities permit.
3. Only one 7 digit or 10 digit or 800 toll-free number may be used as the lead number per basic local calling area.
4. Directory listings may be provided for N11 under the terms, conditions, and rates specified in section F of this Tariff. Directory Listings may be provided for 711 Service at no charge.

ISSUED: February 12, 2007

EFFECTIVE: March 15, 2007

M.11 N11 SERVICES (Continued)

(C)

C. Conditions and Limitations (Continued)

5. Access to N11 is not available to the following classes of service:
- 1+
  - 0+, 0-(credit card, third-party billing, collect calls)
  - 101XXXX

In addition, operator assisted calls to the N11 Subscriber will not be completed.

6. Suspension of N11 Service is not allowed.
7. The N11 Subscriber will subscribe to adequate telephone facilities initially and subsequently as may be required to adequately handle calls to N11 without impairing the Company's general telephone service or telephone plant.
8. The Company will provide both oral and written notification when a N11 Subscriber's service unreasonably interferes with or impairs other services rendered to the public by the Company or by other Subscribers of N11. The Company reserves the right once notification is made to institute protective measures up to and including termination at any time and without further notice. The Company may take protective measures when the N11 Subscriber make no modification or is unwilling to accept modification in method of operation, or continues to cause service impairments.
9. Calls to N11 will be delivered over existing facilities. If the N11 Subscriber requires different facilities or services; the terms, conditions, and rates for those services found elsewhere in this tariff will apply.
10. N11 Service does not provide calling number information in real time to the N11 Subscriber. If the N11 Subscriber needs this type of information, the Subscriber must subscribe to a compatible Caller Identification Service as specified elsewhere.
11. The Company will provision the Subscriber's order within a reasonable time, given the complexity of the order. The N11 Subscriber will be billed the charges when the service is provisioned by the Company.

If the N11 Subscriber cancels the order or decides to discontinue service, the N11 code will be recalled and the number will be considered available for reassignment. Any non-recurring charges associated with the establishment of service may not be refunded or waived.

MISCELLANEOUS SERVICE ARRANGEMENTS

APPROVED

M.11 N11 SERVICES (Continued)

C. Conditions and Limitations (Continued)

12. If the point-to number provided by the N11 Subscriber is disconnected, the Company will route the N11 call to a pre-recorded announcement for 60 days. The announcement will advise the N11 caller that the service is not available.
13. The Company only provides N11 dialing to its own customers. The N11 Subscriber should work separately with other providers of telecommunication services for the arrangement of N11 to their customers.
14. The N11 Subscriber is responsible for obtaining all necessary permission, licenses, written consents, waivers and releases, and all other rights from all persons whose work, statements or performances are used in connection with the service, and from all holders of copyrights, trademarks, and patents used in connection with said service.
15. The N11 Subscriber is restricted from selling or transferring the N11 code to an unaffiliated entity, either directly or indirectly.
16. The N11 Subscriber shall abide by all terms and conditions, which may be identified by the FCC in CC Docket 92-105 or subsequent dockets regarding the use and return of the N11 dialing code. The N11 Subscriber will be required to migrate to any access arrangement offered in the Company's tariff within the required notice period. If a recall is ordered, the company will work with the N11 Subscriber affected by such recall to transfer their service arrangements within the required notice period. The N11 Subscriber will be charged the appropriate tariff rates for the establishment of the new access arrangement.
17. The N11 Subscriber, will be liable for, and will indemnify, protect, defend and save harmless the Company against all suits, actions, claims, demands and judgments, and of all costs, expenses and counsel fees incurred on account thereof, arising out of and resulting directly or indirectly from the service or in connection therewith, including but not limited to, any loss, damage, expense or liability resulting from any infringement or claim of infringement, or any patent, trademark, copyright, or resulting from any claim of liable and slander.
18. The Company is not responsible for any and all complaints lodged with any regulatory authority against any service provided via N11.

M.11 N11 SERVICES (Continued)

(C)

C. Conditions and Limitations (Continued)

- 19. The Company may take all legal and practical steps to disassociate itself from N11 Subscribers whose business and/or public conduct (whether demonstrated or proposed) is of a type that in the Company's discretion generates unacceptable levels of complaints by end users.
- 20. The Company will not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties in Company facilities and equipment or on equipment owned or leased by the Subscriber.
- 21. The Company, its employees, or its agents are not liable to any person for civil damages resulting from or caused by any act or omission in the development, design, installation, operation, maintenance, performance or provision of N11 service, except for willful or wanton misconduct.
- 22. This service will also be subject to the general regulations of the Company as listed in Section B of this tariff.

D. Rates and Charges<sup>2</sup>

N11 Subscribers will pay the normal tariffed charges for the local exchange access arrangements used for transporting and terminating messages at the N11 Subscriber's designated premises.

	Nonrecurring <u>Charge</u>
1. Service Order Charge, per point-to number	(1)
2. Central Office Switch Activation Charge, Per Central Office Switch Translated or Changed	\$500.00
3. Change point-to number per Subscriber request Per central office	\$13.50

(1) Service Order Charges as specified in Section D will apply.

M.15 OPERATOR SERVICES

1 General Description

Operator Services allow customers to complete calls within the local calling area with the assistance of an operator. The Customer dials "0" or "0+ NXX LINE" to get the operator. Charges include a per-call rate as well as a per-minute rate.

2 Definition of Calls

A. Billed to Third Number

When the Customer dialing the Operator requests the call to be billed to a third-party. The third party will need to accept the charges before the caller and the called party can be connected.

B. Collect Calls

When the Customer dialing the Operator requests the call to be billed to the called number.

C. Person-to-Person

When the Customer requests the Operator to complete the call to a specific telephone number and in addition requests to speak to a specific person, department, extension of an office, etc. Once the requested person, department, extension, etc. joins the call, the Operator will connect the call.

D. Station-to-Station

When the Customer requests the Operator to complete the call to a specific telephone number and is willing to speak to whoever answers the called number.

E. Call Completion

When the Customer requests the Operator to complete the call to a called number. This charge is in addition to other charges that may be assessed.

3. Terms and Conditions

A. Operator Services are available 24 hours, 7 days a week. Rates apply to any time of the day and any day of the week

B. Qualified customers with disabilities will not be assessed the charges.

C. This service is not available on payphones.

4. Rates

A. The rates will be assessed on a per call basis.

	<u>Rate</u>
1) Operator Assisted Call, per call	\$1.20
2) Call Completion, per minute	\$0.20

M.17 SAFETY LINE SERVICE <sup>3</sup>

A. GENERAL

Safety Line Service is a bundle for residential customers who have their main telecommunications service with a wireless provider but require a basic access line for back-up and high speed data.

The bundle includes a Residential One-Party Line and 1.5 Mbps high speed data.

B. TERMS AND CONDITIONS

1. Safety Line Service will be provisioned where facilities are available.
2. Rules, regulations, and limitations as specified elsewhere in the Company's tariffs will apply to this bundle.
3. No other optional services or features are allowed with this bundle, except Toll Restriction, Toll Restriction PIN Override, Non-Published Numbers and Non-Listed Numbers. These four services will be allowed at the rate listed elsewhere in the tariff.
4. Customers must subscribe to this service for 1 year. Cancellation of the bundle prior to the one year timeframe will cause an early termination fee of \$99 to apply.
5. Customers must subscribe to TDS Long Distance Corporation as their long distance provider.
6. Any toll calls will be billed at TDS Long Distance toll rates.
7. Service Connection Charges will not apply.
8. Optional Call plans are not available with this bundle.
9. Seasonal Service is not available with this bundle.

C. RATES AND CHARGES

	<u>Monthly Rate</u>		
Bundle Base Rate- DSL Market A	\$58.20 <sup>1,4</sup>	(T)	(I)
Bundle Base Rate – DSL Market B	\$58.20 <sup>1,4</sup>	(T)	(I)

- <sup>1</sup> Other data speeds may be available for an additional charge.
- <sup>3</sup> This service is grandfathered to existing customers effective August 1, 2012. This service will not be available to new customers as of this date.
- <sup>4</sup> These increases are effective on the Company's March bill cycle date. (C)

M.18 STAR PACKAGES <sup>3</sup>

(C)

A. General

1. The STAR Packages are optional service bundles. Each package permits a customer to receive services and features for a flat monthly rate, for each STAR Package subscriber line provided. The STAR Package options include the following services:

- a) 3 STAR Standard Package  
Includes: Residential One-Party Line, Caller ID Deluxe, Call Waiting/Cancel Call Waiting, Call Forwarding and Preferred Call Forwarding. <sup>2</sup>

The 3 STAR Package can be upgraded to include Anonymous Call Rejection, Three-Way Calling, Priority Ringing, Special Call Acceptance, and Personal Voicemail. The charge for this upgrade is set forth in C.2 following.

- b) 4 STAR Standard Package  
Includes: Residential One-Party Line, Caller ID Deluxe, Call Waiting/Cancel Call Waiting, Call Forwarding, Preferred Call Forwarding, Anonymous Call Rejection, and 300 Minutes of Long Distance<sup>1</sup> calling

The 4 STAR Package can be upgraded to include Three-Way Calling, Priority Ringing, Special Call Acceptance and Personal Voicemail. The charge for this upgrade is set forth in C.2 following.

- c) 5 STAR Standard Package  
Includes: Residential One-Party Line,, Caller ID Deluxe, Call Waiting/Cancel Call Waiting, Call Forwarding, 3-Way Calling, Anonymous Call Rejection, Priority Ringing, Special Call Acceptance, Preferred Call Forwarding, Personal Voice Mail, and Unlimited Long Distance<sup>1</sup> calling

1 Customers must also subscribe to the corresponding TDS Long Distance STAR Plan.  
 2 Customers subscribing to TDS Long Distance STAR Plan will receive 30 minutes of calling at no charge.  
 3 This service is grandfathered to existing customers effective March 15, 2023. The service will not be available to new customers after this date.

M.18 **STAR PACKAGES** <sup>1</sup> (Continued)

(C)

B. Conditions and Limitations

1. Rules, regulations, and limitations as specified elsewhere in the Company's tariffs for each individual service will apply as part of this Package.
2. STAR Package customers may terminate their Package at any time upon notice to the company.
3. Unless terminated by the STAR Package customer or the Company, a customer will remain enrolled in the Package, as amended from time-to-time, with any applicable changes in rate, for as long as the Plan continues to be offered by the Company.
4. Service Charges as described in Section D of this tariff, apply to requests for new and additional STAR Package lines, and moves of existing lines. Service Charges will not apply when the STAR Package replaces existing Local Exchange Service or if the customer requests a change from the STAR Package back to Local Exchange Service.
5. STAR Package customers are not eligible for discounts or promotional offerings outside of this Package, unless specifically provided for in a promotional offering.
6. The Package may not be combined with any other optional toll calling plan service, except for those specified in this offering.
7. Customers may upgrade their Voice Mail Service package for an additional fee.
8. Customers who fail to pay the entire Package rate per month will have all STAR Package optional features removed. The customer will then be converted to the tariffed Basic Local service rate. Service Charges will not apply for converting services back to tariff rates. Such customers will not be permitted to re-enroll in this any of the Packages until such time as all associated unpaid balances are satisfactorily paid in full.

C. Rates

1.	Recurring Charge	<u>Rate Per Month</u>	
	a) 3 STAR Standard Package, per line	\$30.49 <sup>2</sup>	(I)

M.19 CUSTOMIZED 911 (C911)

(N)

A. General

Customized 911 (C911) is an optional service that allows a PBX customer to provide specific information for their PBX station telephone numbers or business lines in addition to the primary number information for 911 call records. The information is sent to the Company. The Company processes the information using the standard 911 process for each county.

B. Conditions

1. The customer shall provide the Company with accurate, specific address and location information for each number enrolled in C911 in the required format that the Company uses in submitting information to the PSAP.
2. The customer is responsible for ensuring their PBX system is able to recognize the 911 digits as a complete dialing code when the station user dials it.
3. The customer is responsible for ensuring the ANI associated with the individual station line is passed.
4. The customer is responsible for notifying the Company of any changes or additions made to the numbers within 48 hours of the changes being made. This includes adding new numbers. If the customer fails to provide any changes or additions to the Company within 48 hours of the change, and the Company receives a "No Record Found" report from the 911 database provider/administrator, a charge will be assessed, as listed in the Rates Section below, for the Company's time and expenses associated with correcting the information. If the Company receives 3 of these "No Record Found" reports within 1 year, the service will be terminated with the customer. At that time, the customer is responsible for providing 911 via the primary number.
5. Except where caused by the willful misconduct or gross negligence of TDS Telecom, the customer agrees to release, indemnify, defend and save harmless the Company from claims, suits, actions, damages, costs, judgments and actions of any nature or from any person related to the C911 Service provided.
6. The customer agrees to indemnify and hold harmless TDS Telecom for any infringement or invasion of the right to privacy of person or persons, caused or claimed to be caused by acts or omissions of the Customer and their operation or use of C911 Service.
