DESCRIPTION OF SERVICES, RATES, AND CHARGES

4.2 INBOUND TOLL FREE NUMBER SERVICE

APPROVED

4.2.1 General Description

Inbound Toll-Free Number Service is an 8XX number service available for Customer use twenty-four (24) hours a day, seven (7) days a week. Service is terminated over standard Customer-provided switched access lines or in conjunction with Managed IP stations or trunks.

(N)

Intrastate service is offered in conjunction with Interstate service.

The Carrier will make every effort to reserve toll-free vanity numbers on behalf of Customers, but makes no guarantee or warranty that the requested toll-free number(s) will be available or assigned to the Customer requesting the number.

If a Customer accumulates undisputed delinquent charges, the Carrier reserves the right not to honor that Customer's request for a change in service until such charges are paid in full.

The Customer does not retain rights in toll-free numbers, which are shared with other Customers of the Carrier. Shared toll-free numbers are not portable. Toll free directory listing will not be provided.

These plans are available only to customers who are enrolled in TDS Long Distance's Interstate Toll Free Service Plans.

Individual contract terms and conditions for Managed IP service shall also apply and such terms and conditions will supersede tariff or price list if inconsistent.

4.4.2 Dedicated MPLS-VPN Service

A. General

Dedicated MPLS-VPN Service is a packet-switched network that provides a point-to-point or multi-point service arrangement for customers requiring special high bandwidth data applications. This service is offered with various transport speeds ranging from 1.5 Mbps to 1 Gbps from one customer premise location to another customer premise location or multiple locations within the state.

B. Conditions and Limitations

1. The service is offered subject to the availability of central office equipment and appropriate outside plant facilities. The service may not be available to all customers and/or at all speeds due to loop length, line conditioning and/or facility availability.
2. Customers must subscribe to this service for a minimum of twelve months.
3. Rates are based on term agreements. The rates are in effect from the time the service is installed until the end of the term agreement period. Upon expiration of the term agreement period, the customer may keep the same term agreement period or select a new term agreement period. Whichever term agreement the customer chooses, the rates for that term agreement will be at the rates in effect at that time.
4. Rates will not be increased by the Company until the term agreement period expires.
5. If the service is canceled by the customer prior to the completion of the term agreement period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the term agreement period times the monthly rate provided under the term agreement. Termination charges will not apply, if the customer replaces the service with comparable service and a term length that is equal to or greater than the original term agreement period.
6. If the applicant requests a different type of construction, equipment or facilities other than what is normally provided, the applicant may be assessed the costs of such arrangement.

4.8 ACCOUNT CODES

APPROVED

(N)

A. General

An Account Code is a feature added to a business line that requires a customer to input a code before making a long distance call. The Account Codes are recorded along with the long distance call, so reports can be produced at cycle time with the call detail and the Account Codes. These reports are used to track long distance usage by employee, client or project. Reports can also be used to minimize unauthorized toll calls.

B. Definitions

1. Unvalidated Codes - The switch validates the number of account code digits prior to allowing the call to complete, but does not verify the content.

C. Terms and Conditions

1. Account Codes are available to business customers only.
2. Account Codes are only available where local switch facilities are equipped to set-up such service.
3. Account Codes can be used with any current Business LD Plan.
4. Account Codes only track 1+ domestic, international toll, and interlata Directory Assistance calls. Tracking of local, 800, calling card & OSDA usage is not available.
5. Customers subscribing to blocks of Long Distance minutes will see minutes on the report, but will not see a per minute rate.
6. Customers are allowed to make one (1) change request to their account code set-up per month at no charge. Customers will be assessed an Account Code Change Charge for any subsequent change requests.
