DESCRIPTION OF SERVICES AND RATES AND CHARGES

4.6 PRIVATE LINE SERVICES

Private Line Service provides dedicated circuits which connect distant locations on the Carrier's network. These are non-switched point-to-point services over fully dedicated lines at fixed monthly rates. Facilities are offered in numerous configurations to meet the particular transmission needs of the subscriber.

4.6.1 Dedicated MPLS-VPN Service

A. General

Dedicated MPLS-VPN Service is a packet-switched network that provides a point-to-point or multi-point service arrangement for customers requiring special high bandwidth data applications. This service is offered with various transport speeds ranging from 1.5 Mbps to 1 Gbps from one customer premise location to another customer premise location or multiple locations within the state.

B. Conditions and Limitations

1. The service is offered subject to the availability of central office equipment and appropriate outside plant facilities. The service may not be available to all customers and/or at all speeds due to loop length, line conditioning and/or facility availability.
2. Customers must subscribe to this service for a minimum of twelve months.
3. Rates are based on term agreements. The rates are in effect from the time the service is installed until the end of the term agreement period. Upon expiration of the term agreement period, the customer may keep the same term agreement period or select a new term agreement period. Whichever term agreement the customer chooses, the rates for that term agreement will be at the rates in effect at that time.
4. Rates will not be increased by the Company until the term agreement period expires.

B. Conditions and Limitations (Continued)

5. If the service is canceled by the customer prior to the completion of the term agreement period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the term agreement period times the monthly rate provided under the term agreement. Termination charges will not apply, if the customer replaces the service with comparable service and a term length that is equal to or greater than the original term agreement period.
6. If the applicant requests a different type of construction, equipment or facilities other than what is normally provided, the applicant may be assessed the costs of such arrangement.

4. Burstable Bandwidth Charges

Burstable Bandwidth allows the customer to temporarily exceed the fixed capacity availability during periods of high demand.

- a. Burstable Bandwidth is available to fractional DS3 and OC3 customers.
- b. The minimum fixed usage for a fractional DS3 is 13 Mbps with a maximum burst to 45 Mbps.
- c. The minimum fixed usage for a fractional OC3 is 46 Mbps with a maximum burst to 155 Mbps.
- d. Additional usage based bandwidth for fractional DS3's and OC3's will be assessed per Mbps.
