

GENERAL SUBSCRIBER SERVICES TARIFF

LESLIE COUNTY TELEPHONE CO., INC.

Exchange(s): All
PSC: 2
Section: IV
Original Sheet: 16

MISCELLANEOUS SERVICE ARRANGEMENTS

A. GENERAL

Advanced Calling Services (ACS) are optional services, offered in addition to regular exchange service, which allow customers to efficiently manage the call flow generated over their Exchange Access Line(s). Customers will be able to screen, redirect, or return selected calls. These services offer subscribers convenience, time savings, and a greater degree of control over the use of their telephones. Advanced Calling Services are available to residence and business customers where facilities are available. Individual feature availability may differ by exchange.

B. SERVICE DESCRIPTION

1. ANONYMOUS CALL REJECTION [Feature #003429]

This service enables a subscriber to reject incoming calls from which a privacy indicator is received. The service is activated by dialing a unique code. When the service is active, the Telephone Company ("Company") will not complete calls to its customer when the calling party has activated Caller ID blocking. Such calls will be routed to a Company recorded announcement. Anonymous Call Rejection is included with Caller ID at no charge.

2. CALL REJECTION [Feature #003399]

This service enables a subscriber to reject up to a maximum of six (6) preselected incoming telephone numbers which he/she does not wish to receive calls. To program a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. To add an unknown telephone number to the list, a subscriber can activate a code immediately after receiving an unwanted incoming call. The Company's equipment will screen incoming calls against the subscriber's list and reject those on the list. Callers whose numbers are rejected are directed to a Company recorded announcement. If facilities are unavailable to provide incoming call screening via the subscriber's list, standard call completion will occur.

3. CALL RETURN [Feature #003319]

This service enables the subscriber to automatically redial the telephone number of the most recent incoming call. The Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation of Call Return if the most recent incoming call is busy. If the most recent incoming call is blocked, the subscriber will get a Company recorded announcement indicating the number is a private number and the call can not be returned. The service cannot be activated for calls originating from a line that is forwarded or from a line not associated with a telephone number, e.g., multiline hunting groups.

4. PREFERRED CALL FORWARDING [Feature #003389]

This service enables the subscriber to forward up to a maximum of six (6) preselected incoming telephone numbers to another telephone number. To forward a telephone number, the subscriber dials an activation code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and forward only those telephone numbers on the list. Calls

B. SERVICE DESCRIPTION (continued)

4. PREFERRED CALL FORWARDING (continued)

forwarded by this service are subject to all applicable local and long distance charges. These calls are also subject to transmission limitations.

5. PRIORITY RINGING [Feature #003359]

This service allows the subscriber to provide up to a maximum of six (6) preselected incoming telephone numbers with a distinctive alerting signal or ring (or a distinctive Call Waiting tone if the subscriber has subscribed to Call Waiting), when the subscriber receives calls from them. To select a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and provide the Priority Ringing service for the preselected telephone numbers on the subscriber's list.

6. REPEAT DIALING [Feature #003309]

This service enables the subscriber to automatically redial the last outgoing telephone number dialed from that line. When the recalled telephone number is busy, the Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation.

7. SPECIAL CALL ACCEPTANCE [Feature #003379]

This service enables a subscriber to allow up to a maximum of six (6) preselected incoming telephone numbers to be accepted. To select a telephone number to be accepted, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and allow only those calls to be completed. Calls from all other numbers will be routed to a Company recorded announcement.

8. CALLER ID

Caller ID - Basic (Number only) and Caller ID - Deluxe (Name and Number) are the available services. Caller ID - Basic and Caller ID - Deluxe include Anonymous Call Rejection (ACR) at no charge.

a) Caller ID - Basic [Number is feature #003329]

This service utilizes specific network capabilities to transmit and display the number associated with an incoming call to the called party's access line. The number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID subscribers must provide, and connect, their own compatible premises equipment in order to process and display the number transmission. The Company will forward all telephone numbers where technically feasible.

LESLIE COUNTY TELEPHONE CO., INC.

Exchange(s): All
PSC: 2
Section: IV
Original Sheet: 18

MISCELLANEOUS SERVICE ARRANGEMENTS

B. SERVICE DESCRIPTION (continued)

8. CALLER ID (continued)

a) Caller ID - Basic (continued)

The customer originating the call may prevent the display of their number. If a calling party has activated blocking, the number will not be transmitted to the display equipment of a Caller ID subscriber. Instead, the Caller ID subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID subscriber that the calling party chose to block number delivery. At this time, blocking may or may not be provided on calls originating from public, semi-public or other services used by the general public. This depends on feature availability.

b) Caller ID - Deluxe [Name is feature #003419]

This service utilizes specific network capabilities, where technically feasible, to transmit the Name and Number associated with an incoming call to the called party's access line. The name and number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID - Deluxe subscribers must provide, and connect, their own compatible premises equipment in order to process the name and number transmission.

A customer may prevent the display of their name and number by using blocking services. If a calling party has activated blocking, the name and number will not be transmitted to the display equipment of a Caller ID - Deluxe subscriber. Instead, the Caller ID - Deluxe subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID - Deluxe subscriber that the calling party chose to block name and number delivery. The Company will forward all telephone numbers where technically feasible.

At this time, name and number blocking may not be provided on all calls originating from public, semi-public or other services used by the general public. This depends on feature availability.

9. CALLER ID BLOCKING [Feature #003339]

Caller ID Blocking allows the subscriber to prevent the delivery of their number, or name and number (Caller ID - Deluxe) to a Caller ID subscriber on a per call basis (Caller ID Blocking - Per Call) or per line basis (Caller ID Blocking - Per Line).

Caller ID Blocking - Per Call will block the delivery of the subscriber's number, or name and number (Caller ID - Deluxe) to a Caller ID subscriber for one call only and may be activated from all single party access lines by dialing *67 (1167 from a rotary phone) prior to placing the call, Caller ID Blocking - per call is provided to all customers at no charge.

Caller ID Blocking - Per Line will automatically block the delivery of the subscriber's number, or name and number to a Caller ID subscriber.

B. SERVICE DESCRIPTION (continued)

9. CALLER ID BLOCKING (continued)

number (Caller ID - Deluxe) to a Caller ID subscriber on all calls and will be made available or offered, at no charge, to law enforcement agencies and domestic violence programs and Non-Published Residential customers.

10. CALL TRACE [Feature #003349]

This service enables the customer to initiate a trace of the last incoming call completed by dialing an activation code immediately after terminating the call. A Call Trace is considered successful when the Company's equipment is able to record the incoming call detail (not the conversation). Incoming call detail includes: the calling number, the time the trace was activated, and in some locations, the time the traced call was received. The results of the trace are never provided to the customer directly. Call Trace information will only be given to appropriate law enforcement agencies. For further action to be taken, the customer is required to contact the Telephone Company Business Office during normal business hours, which will refer the customer to appropriate law enforcement agencies, or contact the law enforcement agency directly. Call Trace detail will be retained by the company and made available to the local law enforcement for ten business days after the trace has been initiated.

(C)
(C)

Call Trace may capture incoming telephone numbers marked "private" or "out of area".

Only calls from ACS-compatible locations with compatible signaling services are traceable using Call Trace.

C. SPECIAL CONDITIONS AND LIMITATIONS

1. Special Conditions for Caller ID:

An originating caller's number, or name and number may not be displayed at the called party under the following conditions:

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

NOV 28 1996

PURSUANT TO KRS 139.011
SECTION 10 (1)

a. The calling number, or name and number will not be displayed if the called party is off-hook. The called party must be on-hook to receive the caller's data. If the customer subscribes to both Call Waiting and Caller ID, and is on an existing call, a second incoming call will not be displayed. Instead, the called party will receive a Call Waiting tone.

b. The number, or name and number will not be displayed if the called party answers the incoming call during the first ring interval.

MISCELLANEOUS SERVICE ARRANGEMENTS

C. SPECIAL CONDITIONS AND LIMITATIONS (continued)

1. Special Conditions for Caller ID: (continued)

- c. Caller ID - Basic and Caller ID - Deluxe cannot be provided with any distinctive ringing lines having a maximum silent interval duration that is not long enough to allow transmission of the data message.
d. Identification of names, specific stations or extensions served by a PBX or Key System is not possible. The main directory number of the PBX or Key System will be displayed.
e. Caller ID - Basic and Caller ID - Deluxe cannot be provided if the calling party is from a multi-party line. The called party will receive an "Unavailable" display.
f. The calling number, or name and number will be unavailable if it is from another office that is not linked by appropriate facilities with the called party's office.
g. The calling party has activated blocking.
h. Caller ID Services do not display a directory number for operator assisted calls, calls marked private by the originator or calls originating from coin and party line stations.
i. If a customer dials a "1-800" or other Automatic Number Identification service number, the telephone number that they are calling from will be revealed to the called party, even if the customer has per line blocking or has activated per call blocking.
j. Caller ID is available on all long distance calls where technically feasible.
k. All calling numbers will be displayed to E911, even if the customer has per-line blocking or has activated per-call blocking.
l. All calling numbers, or name and numbers will be passed, even for customers who do not subscribe to Caller ID.
m. Per Call Blocking will be available to all customers. (The FCC Order overrules all state PUC/PSC decisions on Per Call blocking.)

2. Limitations for Advanced Calling Services:

- a. Where the calling party's telephone number, or name and number can be forwarded from the central office originating the call to the terminating central office serving the called party;
b. When both the originating customer and the terminating customer are served from the same central office;

2. Limitations for Advanced Calling Services: *(continued)*

- c. When both the call originating customer and the call terminating customer are served from different central offices equipped for ACS and are linked by appropriate facilities;
- d. If offering Caller ID - Deluxe, the Calling Name will be displayed only where appropriate facilities are available to provide a match of Calling Name to Calling Number.

The Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure, or malfunctions of ACS Services or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of the services after the Company has been notified, and has reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service affected for the period following notice from the customer until service is restored.

It shall be the responsibility of the Customer to provide Customer Premises Equipment (CPE) compatible with ACS.

BUSINESS RELOCATION FORWARDING

(N)

A. General

1. Business Relocation Forwarding is a service whereby a call placed from a station (the originating station) to a Business Relocation Forwarding telephone number in one exchange (the call forwarding location) is automatically forwarded by Company central office equipment to another station designated by the Business Relocation Forwarding customer (the terminating station). This service is offered subject to the availability of suitable facilities. Where the call forwarding location is in a multi-office exchange, the Company will determine the serving central office.
2. Business Relocation Forwarding is provided on the condition that the customer subscribe to sufficient Business Relocation Forwarding features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Company.
3. Business Relocation Forwarding is available to BUSINESS customers only.

B. Rates and Charges

TOLL RESTRICTION SERVICE

(T)

A. Description

1. Toll Restriction

This service restricts the completion of calls to 0+ and 1+ area codes. When a subscriber tries to dial a number with the restricted area code, either a dial tone or a telephone company recorded announcement is received.

(T)

2. Toll Restriction Override

This service allows a subscriber to override the restriction (call blocking) on calls to 0+ and 1+ area codes on a per call basis by using an authorization code. To activate the override, the subscriber dials an activation code and a Personal Identification Number (PIN), waits for a dial tone and then dials the toll number. When a restricted call is attempted without the PIN, from a line/trunk equipped with this service, a dial tone or company recorded announcement will be heard by the caller.

(N)

(N)

B. Regulations

1. Toll Restriction Override Service will be offered where facilities and conditions permit.

(N)

2. Toll Restriction Override Service is available on single party residence and business lines.

3. Toll Restriction Override Service may be canceled at any time without charge.

4. Customers subscribing to Toll Restriction Override Service may be required to sign an agreement indemnifying the Company for any liability resulting from such toll restriction.

(N)

5. In some instances, Toll Restriction Service will necessitate a change in the customer's existing telephone number.

(M)

6. The Company makes no guarantee and assumes no liability for the accuracy to Toll Restriction Service. The customer agrees fully and completely to indemnify and save harmless the Company, its successors and assigns, from and against any and every claim, loss, damage, suit or liability arising from the restriction of telephone calls made from the customer's access line.

C. Rates and Charges

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

Toll Restriction Service rates and charges are in addition to any applicable rates and charges already provided for in other sections of this tariff.

N. DIRECT INWARD DIALING (DID) SERVICE (Continued)

3. Conditions (Continued)

- b. The service includes central office switching equipment for in-dialing from the exchange and toll network directly to stations associated with customer premises equipment.
- c. The service must be provided on a minimum of 10 lines in a trunk group arranged for inward service.
- d. The rates herein contemplate the use of standard Telephone Company equipment and serving arrangements and are in addition to rates and charges for the service with which it is furnished. When equipment or service of a special type is requested and provided, rates and charges are related to the costs involved to meet the individual requirements of each case.
- e. Operational characteristics of interface signals between the Telephone Company-provided connecting arrangements and the customer-provided equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards of service.
- f. The Telephone Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Telephone Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alternation of such equipment or system or otherwise affect its use or performance.
- g. Directory listings will be provided in accordance with the regulations of the "Directory Listings" section of this Tariff. DID numbers furnished herein are not entitled to free directory listings.
- h. Customer-provided equipment must be arranged by the customer to provide for the intercepting of assigned but unused station numbers.
- i. The customer being provided DID service will be responsible for all toll calls billed to the DID numbers.
- j. DID numbers will be sold in conjunction with DID service only.
- k. The assignment of the telephone numbers and the sequence of numbers assigned to a DID service is determined by the Company based on the rules established in FCC order 00-104. The customer may request a sequential block of numbers to be placed into service at a later date. Non-Recurring Charges for DID numbers may apply to recover the cost of reserving the numbers. Reserved numbers can only be held for a maximum of six months. After six months, the reserved numbers must be placed into service for that specific customer or the numbers will be categorized as available for use by other customers.

O. DEDICATED DS1 SERVICE⁽¹⁾

(C)

1. General

Dedicated DS1 Service is a point-to-point intraexchange service that provides for simultaneous two-way transmission at 1.544 Megabits per second (Mbps). This service only transmits digital signals and uses only digital transmission facilities. Dedicated DS1 service and its features are offered subject to the availability of central office equipment and appropriate outside plant facilities. This service is specifically designed for customers that require dedicated DS1 facilities from a TDS TELECOM Central Office to their location.

2. Definitions

Clear Channel Capability - An optional feature of DTS that allows a customer to transport 1.536 Mbps on a 1.544 Mbps line with no constraint on quantity or bit sequence.

DS1 - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

Digital Local Channel - A transmission path for Dedicated DS1 Service furnished from the Central Office to the demarcation point on the customer's premises.

3. Regulations

- a. Dedicated DS1 Service is available for a minimum service period of one month.
- b. Dedicated DS1 Service is available on a month-to-month basis or under variable rate periods, with rates based on lengths of 12 months, 36 months and 60 months.
- c. Rates for Dedicated DS1 under contract will not be increased by Company initiative until the contract period expires. Rates in effect at the time the service is installed will be applicable until the contract expires. Upon expiration of the customer's current payment period option, the customer may select a new payment period option at current rates or revert to current rates on a month-to-month basis.
- d. For channelization of Dedicated DS1 Service, please see Digital Transport Service in Section IV.

(1) This Service will be grandfathered to existing customers effective May 1, 2018. This service will not be available to new customers after this date.

O. DEDICATED DS1 SERVICE ⁽¹⁾(Continued)

(C)

3. Regulations (Continued)

- e. If the service is canceled by the customer prior to the completion of the service period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the contract times the monthly rate provided under the contract. Termination charges will not apply, however, if the customer replaces the service with comparable service and a contract length that is equal to or greater than the original contract period.
- f. The rates listed in Paragraph 4., following, assume the provision of a digital quality facility that uses existing exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for Dedicated DS1 Service.
- g. The two types of non-recurring charges associated with Dedicated DS1 Service include a Design Order Charge and an Installation Charge. The Design Order Charge applies once per order while the Installation Charge will apply for each Digital Local Channel installed.
- h. The Installation Charge and Design Order Charge will not apply for the establishment of Dedicated DS1 Service when the customer signs an agreement to subscribe to the service for a minimum of 3 years. If the customer discontinues service prior to the conclusion of the 3 year agreement, the customer will incur a disconnection charge equal to the Design Order Charge and applicable Installation Charges. The disconnection charge will not apply if the customer purchases other services from the Company which replace Dedicated DS1 Service.

(1) This Service will be grandfathered to existing customers effective May 1, 2018. This service will not be available to new customers after this date.

Q. CUSTOMIZED 911 (C911)

1. General

Customized 911 (C911) allows a customer to provide 911 Dispatch Centers (PSAP) with specific information for their PBX station telephone numbers or business lines.

2. Conditions

- a. There is no charge for requesting updates to information at the PSAP.
- b. A No Record Found (NRF) Charge applies when the Company receives an NRF report from the local authorities when a 911 call is placed and no 911 information was in the database. If a customer receives 3 of these, C911 will be terminated. The customer is required to provide 911 via one (1) ANI with one (1) address, per PRI T1; or via Analog line.
- c. The Report Request charge applies when a customer requests a list of their E911 information from the E911 database.
- d. Except where caused by the willful misconduct or gross negligence of TDS Telecom, the customer agrees to release, indemnify, defend and save harmless the Company from claims, suits, actions, damages, costs, judgments and actions of any nature or from any person related to the C911 Service provided.
- e. The C911 customer agrees to indemnify and hold harmless TDS Telecom for any infringement or invasion of the right to privacy of person or persons, caused or claimed to be caused by acts or omissions of the Customer and their operation or use of C911 Service.

3. Rates

	<u>Monthly Charge</u>	<u>Non-Recurring Charge</u>
a. Initial Set-Up (per number) (not to exceed \$500)		\$1.00
b. Per Number Charge	\$0.05	
c. No Record Found Charge (per number)		\$50.00
d. Report Requests Charge		Variable

R. TELEPHONE NUMBER REFERRAL SERVICE

(N)

1. General

- A. When customers move to a new location outside the Telephone Company's service territory, the Company provides, without a recurring charge, a message that informs the caller to a disconnected number that the number has been disconnected or changed, and that the caller should consult the directory or call the operator.
- B. Telephone Number Referral Service will provide a service to customers whose telephone service is being disconnected and are moving to a new location outside the Company's service territory. Dialing the customer's former number results in a prerecorded message which announces the new number.
- C. The non-recurring charge applies to a 90-day increment of service and can be continued for an additional 90-day period at the customer's request.
- D. Customers moving to a new location outside the Company's service area will be billed in advance for this service.

2. Rates

	<u>Transaction Code</u>	<u>Non-recurring Charge</u>
A. Non-recurring charge per telephone number, per 90 days of service	TNRS	\$20.00

3. Conditions

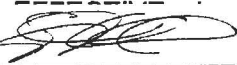

- A. Telephone Number Referral Service will be offered where facilities and conditions permit.
- B. Telephone Number Referral Service may be canceled by the customer at any time during the 90-day period.
