PRIVATE LINE SERVICE

T.1 CONCURRENCE

T.1.1 Lewisport Telephone Company, hereinafter called the concurring utility, except as specifically stated herein, assents to, adopts and concurs in the Private Line Service Tariff filed with Kentucky Public Service Commission by South Central Bell Telephone Company, hereinafter called the issuing utility as such Tariff, now exists, or as it may be revised, added to or supplemented by superseding sheets or issues, for Private line Service furnished by the issuing utility and concurring utility (including such service as is also participated in by one or more utilities), and hereby makes itself a party thereto and obligates itself to observe each and every provision thereof.

T.2 EXCEPTIONS

T.2.1 Customer provided terminal equipment on customer provided communication systems attached or connected to the facilities of the concurring utility and permitted to be used under this Tariff, may not be used for local exchange service of this concurring utility, unless there is compliance with provisions of the Tariff of this concurring utility.

T.2.2 Lewisport Telephone Company concurrence with the issuing utility is limited to private line circuits, that connect with the issuing utility or other connecting companies.

PRIVATE LINE SERVICE

T.2 EXCEPTIONS (CONTINUED)

T.2.3 When private line circuits are provided solely on the facilities of Lewisport Telephone Company, the charges specified in paragraph T.3, will apply. These charges are based on a single pair of wire. In cases where one circuit requires multiple pairs, the charges in paragraph T.3 will apply to each pair of wires used in the circuit.

T.2.4 Lewisport Telephone Company will also charge a termination fee at the rate specified in paragraph T.3. A termination is defined as each premise appearance of the cable pair. Where multiple pairs are provided to provide one circuit, a termination charge will be applied to each premise appearance of each pair of wire.

T.2.5 The minimum service period on private line service is six months. A termination agreement will be required concerning the cost of installation of the service. This termination agreement will apply to private line services served solely by Lewisport Telephone Company and those served jointly with connecting companies. Service will not be initiated until the termination agreement is in the possession of the company.

T.3 MONTHLY CHARGES

T.3.1 Each pair will be charged at the rate of \$3.50 for the first half mile, and \$1.00 for each quarter mile or fraction of a quarter mile thereafter. The measurement of distance will be made in route mileage.

T.3 MONTHLY CHARGES (CONTINUED)

T.3.2 Each termination of each pair will be charged at the rate of \$1.75 per termination.

T.4 DEFINITION AND LIMITATION OF SERVICE

T.4.1 A private line circuit is defined as a pair or pairs of wire provided by the Company, for the private use of its customers. These circuits function without connection to local exchanges switching equipment of the Company.

T.4.2 Examples of circuits used for this purpose and provided by the Company are:

- a. Circuits used for the transmission of data information.
- b. Circuits used by banks and others for alarm purposes.
- c. Circuits used for voice transmission between two or more points, which function separate from local exchange equipment.
- d. Circuits provided as a vehicle to transmit radio signals, e.g., to connect city and county police and fire stations.
- e. Circuits used to monitor power company substations or water company pump stations.

PRIVATE LINE SERVICE

T.5 DEDICATED DS1 SERVICE ⁽¹⁾

(C)

T.5.1 General

Dedicated DS1 Service is a point-to-point intraexchange service that provides for simultaneous two-way transmission at 1.544 Megabits per second (Mbps). This service only transmits digital signals and uses only digital transmission facilities. Dedicated DS1 service and its features are offered subject to the availability of central office equipment and appropriate outside plant facilities. This service is specifically designed for customers that require dedicated DS1 facilities from a TDS TELECOM Central Office to their location.

T.5.2 Definitions

Clear Channel Capability - An optional feature of DTS that allows a customer to transport 1.536 Mbps on a 1.544 Mbps line with no constraint on quantity or bit sequence.

DS1 - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

Digital Local Channel - A transmission path for Dedicated DS1 Service furnished from the Central Office to the demarcation point on the customer's premises.

T.5.3 Regulations

1. Dedicated DS1 Service is available for a minimum service period of one month.
2. Dedicated DS1 Service is available on a month-to month basis or under variable rate periods, with rates based on lengths of 12 months, 36 months and 60 months.
3. Rates for Dedicated DS1 under contract will not be increased by Company initiative until the contract period expires. Rates in effect at the time the service is installed will be applicable until the contract expires. Upon expiration of the customer's current payment period option, the customer may select a new payment period option at current rates or revert to current rates on a month-to-month basis.
4. For channelization of Dedicated DS1 Service, please see Digital Transport Service in Section Mc.

(1) This service is grandfathered to existing customers effective March 26, 2020. This service will not be available to new customers after this date.

PRIVATE LINE SERVICE

T.5 DEDICATED DS1 SERVICE ⁽¹⁾ (Continued)

(C)

T.5.3 Regulations (Continued)

5. If the service is canceled by the customer prior to the completion of the service period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the contract times the monthly rate provided under the contract. Termination charges will not apply, however, if the customer replaces the service with comparable service and a contract length that is equal to or greater than the original contract period.
6. The rates listed in Paragraph D., following, assume the provision of a digital quality facility that uses existing exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for Dedicated DS1 Service.
7. The two types of non-recurring charges associated with Dedicated DS1 Service include a Design Order Charge and an Installation Charge. The Design Order Charge applies once per order while the Installation Charge will apply for each Digital Local Channel installed.
8. The Installation Charge and Design Order Charge will not apply for the establishment of Dedicated DS1 Service when the customer signs an agreement to subscribe to the service for a minimum of 3 years. If the customer discontinues service prior to the conclusion of the 3 year agreement, the customer will incur a disconnection charge equal to the Design Order Charge and applicable Installation Charges. The disconnection charge will not apply if the customer purchases other services from the Company which replace Dedicated DS1 Service.

(1) This service is grandfathered to existing customers effective March 26, 2020. This service will not be available to new customers after this date.
