J.1 Conditions

J.1.1 All telephones associated with a key telephone installation, normally are located in the same building, except that intercommunications between main and extension station may involve different buildings. A telephone system or multi-button telephones may be provided in different buildings whenever, in the judgement of the company, satisfactory service can be furnished.

J.1.2 Station bells, individual or common, within ringer limitation, required for the satisfactory operation of a key telephone system are provided without additional charge. Extension bells are provided at the rates applicable for such equipment.

J.1.3 Keyless telephones may be bridged to any line of a Key Telephone System. The number of telephones which may be connected to a line either directly or by key operation is limited to such number as in the judgement of the company will not interfere with efficient telephone service.

J.1.4 Suitable commercial power including outlets, which may be required for the operation of the power equipment associated with key telephone system, shall be furnished by the subscriber.

J.1.5 When a customer requests service features other than those regularly available, additional charges based on costs incurred will apply.

J.1.6 All installation charges quoted in this section of the tariff are in addition to service connection charges in Section D.

J.1.7 Monthly charges for key telephone sets in this section of the tariff take the place of extension charges in Section M.

J.2 Moves and Changes

J.2.1 Any rearrangement of station features that do not require changing or relocating the key system instrument will be charged at rates applicable in Section D of the tariff.

J.2.2 Any moves or rearrangements which involved changing or relocation of the key system instrument, but does not involve calling will be charged at rates applicable in Section D, except that move and change charges on this section will apply in place of equipment work charges impressed in Section D.

J.2.3 Any moves or rearrangements which involve changing or relocation of the key system instrument and do involve additions ~~EFFECTIVE~~
