FACILITY SPACE ATTACHMENT

A. GENERAL

1. Facilities owned by other businesses or individuals (hereinafter called Licensee), may occupy space on Telephone Company poles or in Telephone Company conduits, if in the judgment of the Telephone Company, it will interfere with the Telephone Company's present or future service requirements and it would be satisfactory from a safety standpoint.
2. The permit to contact poles or occupy space in conduits is also conditioned on the terms of all existing Telephone Company permits, licenses, easements, or consents from property owners and governmental authorities having jurisdiction.
3. All of the Licensee's cables, wires, and associated equipment shall be erected and maintained in accordance with the requirements and specifications of Michigan Public Service Commission Order No. 1679, as amended, other applicable rules or orders of the Michigan Public Service Commission, and other authorities having jurisdiction.
4. All of the licensee's cables, wires, and associated equipment shall be erected and maintained by properly trained, skilled workmen who are fully qualified to perform such work in proximity to communications and electric lines and equipment.
5. The Telephone Company may specify the location on its pole or poles at which attachments are to be made. In the event an attachment at the location specified by the Telephone Company would violate any applicable law, rule, regulation, ordinance, or order of any governmental authority or regulatory body, including the Michigan Public Service Commission, the Licensee shall so advise the Telephone Company and obtain its authorization to make such attachment at a location which does not violate any such law, rule, regulation, ordinance, or order. It shall be the sole responsibility of the Licensee to determine if the making or maintaining of attachments at the specified location or locations will violate any such law, rule, regulations, ordinance, or order. No attachment shall be made or maintained at a location that violates any such law, rule, regulation, ordinance, or order.
6. No use, however extended, of Telephone Company poles or conduits or payment of any fees or charges of this Tariff should create or vest in Licensees any ownership or property rights in said poles or conduit.
