7.1. INTRALATA PRESUBSCRIPTION

Presubscription is an arrangement in which an end user customer may select and designate to the Company an interexchange carrier (IC) to access, without an access code, for intrastate intraLATA calls. This IC is referred to as the end user's IntraLATA Primary Interexchange Carrier (PIC)

7.1.1. New end users who are served by end offices equipped with Feature Group D will be asked to presubscribe to an IC at the time they place an order with the Company for Telephone Exchange Service. They may select either of the following options. There is no charge for the initial selection.

- Designate an IC as a IntraLATA Primary Interexchange Carrier
- Designate that they do not want to be presubscribed to any IC and choose to dial 101XXXX for all calls to all ICs.

Only one IC may be selected for each individual line, or lines terminating in the same hunt group.

7.1.2. Subsequent to the installation of Telephone Exchange Service and after the end user's initial selection of its IntraLATA Primary Interexchange Carrier, for any change in selection, a nonrecurring charge will apply. This charge may be billed to the end user which is the subscriber to the Telephone Exchange Service, or upon request by the designated IC, billed to the IC on behalf of the end user.

7.1.3. If an IC elects to change or discontinue use of a Carrier Identification Code (CIC) for any reason, the IC will identify to the Company any affected end users and advise the Company of the new CIC to be assigned to these end users. If the CIC change involves a change of carrier for any end user, the IC will notify the affected end user of the change. The Company will change the predesignated carrier code of each end user identified by the IC to the new CIC and bill the IC the nonrecurring charge for each end user line or trunk that is changed.

7.2. UNAUTHORIZED INTRALATA PIC CHANGE

If an IC requests an IntraLATA Primary Interexchange Carrier (PIC) change on behalf of a billed party (e.g., an end user), and the billed party subsequently denies requesting the change, and the IC is unable to substantiate the change with a letter of authorization signed by the billed party; then:

- The billed party will be reassigned to their previously selected IC. No charge will apply to the billed party for this reassignment.
- The Unauthorized Presubscription Change Charge as set forth herein will apply to the IC that requested the unauthorized PIC change. This charge is applied in addition to the PIC Change charge.

7.3. BILLING NAME AND ADDRESS

7.3.1. General Description

Billing Name and Address (BNA) Service provides the billing name and address of an end user who has an Automatic Number Identification recorded by the Customer (interexchange carriers, operator service providers, enhanced service providers and any other provider of intrastate telecommunications services) for telecommunications services rendered for the Customer to its end user. The receipt of this information will allow the Customer to provide its own billing to end users who may not have established a formal relationship with the Customer.

BNA Service is provided for the sole purposes of allowing Customers to bill their end users for telecommunications services provided by the Customer, order entry and customer service information, fraud prevention, identification of End Users who have moved to a new address, any purpose associated with equal access requirement, and information associated with collect calls and third party calls. BNA information may not be resold or used for any other purpose including, but not limited to, marketing or merchandising activities.

BNA information associated with listed/published telephone numbers will be provided. For calling card calls and collect and third party billed calls, the Company's BNA Service is not available with respect to accounts of nonpublished/unlisted End Users who, by request to the Company (which request may be submitted at any time), have specified that such information not be released.

7.3.2. Undertaking of the Company

- A. Standard formats for the receipt of BNA requests and the provision of BNA information will be established by the Company.
- B. The BNA information will be provided for the calling number furnished to the extent a billing named and address exists in the Company's records. BNA information will not be provided for those end users who have requested that their BNA not be disclosed for collect and bill to third party calls.
- C. The Company will make every effort to provide accurate and complete BNA data. The Company makes no warranties, expressed or implied, as to the accuracy or completeness of this information.

MISCELLANEOUS SERVICES

APPROVED

7.3. **BILLING NAME AND ADDRESS** (Continued)

7.3.3. Obligations of the Customer

- A. Each request for BNA information must identify both the Customer's authorized representative and the address to which the information is to be sent.
- B. The Customer shall institute adequate internal procedures to insure that BNA information, including that related to "confidential" non-published and non-listed telephone numbers, is used only for the purpose set forth in this tariff and that BNA information is only available to those Customer personnel or agents with a need to know the information.
- C. The Customer shall not publicize or represent to others that the Company jointly participated with the Customer in the development of the Customer's end user records, accounts, data bases or market data, records files and data bases or other systems it assembles through the use of BNA Service.

7.3.4. Rate Regulation

- A. For each order for BNA information received by the Company, a BNA Order Charge will be assessed.
- B. In addition, Billing Name and Address (BNA) will be assessed a per record rate for each BNA Record requested. This rate is billed to the Customer on a monthly basis. The BNA per record rate applies regardless of whether the requested telephone number is available in the Company's information data base.
