1.2 INBOUND TOLL FREE NUMBER SERVICE

APPROVED

1.2.1 General Description

Inbound Toll-Free Number Service is an 8XX number that allows callers to originate direct dialed calls to the 8XX number without incurring a toll charge. The charge for using a toll free number is paid by the called party instead of the calling party. The service is available for use twenty-four (24) hours a day, seven (7) days a week. Service is terminated over standard Customer-provided switched access lines or in conjunction with Managed IP stations or trunks.

(T)
(T)

Intrastate service is offered in conjunction with Interstate service.

The Carrier will make every effort to reserve toll-free vanity numbers on behalf of Customers, but makes no guarantee or warranty that the requested toll-free number(s) will be available or assigned to the Customer requesting the number.

If a Customer accumulates undisputed delinquent charges, the Carrier reserves the right not to honor that Customer's request for a change in service until such charges are paid in full.

The Customer does not retain rights in toll-free numbers, which are shared with other Customers of the Carrier. Shared toll-free numbers are not portable. Toll free directory listing will not be provided.

These plans are available only to customers who are enrolled in TDS Long Distance's Interstate Toll Free Service Plans.

Individual contract terms and conditions for Managed IP Service shall also apply and such terms and conditions will supersede the tariff or price list if inconsistent.

1.5.2 **Dedicated MPLS-VPN Service**

(T)

A. General

Dedicated MPLS-VPN Service is a packet-switched network that provides a point-to-point or multi-point service arrangement for customers requiring special high bandwidth data applications. This service is offered with various transport speeds ranging from 1.5 Mbps to 1 Gbps from one customer premise location to another customer premise location or multiple locations within the state.

B. Conditions and Limitations

1. The service is offered subject to the availability of central office equipment and appropriate outside plant facilities. The service may not be available to all customers and/or at all speeds due to loop length, line conditioning and/or facility availability.
2. Customers must subscribe to this service for a minimum of twelve months.
3. Rates are based on term agreements. The rates are in effect from the time the service is installed until the end of the term agreement period. Upon expiration of the term agreement period, the customer may keep the same term agreement period or select a new term agreement period. Whichever term agreement the customer chooses, the rates for that term agreement will be at the rates in effect at that time.
4. Rates will not be increased by the Company until the term agreement period expires.
5. If the service is canceled by the customer prior to the completion of the term agreement period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the term agreement period times the monthly rate provided under the term agreement. Termination charges will not apply, if the customer replaces the service with comparable service and a term length that is equal to or greater than the original term agreement period.
6. If the applicant requests a different type of construction, equipment or facilities other than what is normally provided, the applicant may be assessed the costs of such arrangement.
