This responsibility includes payment for calls or services that originate at the Customer's number(s), that are accepted at the Customer's number(s) (e.g., collect calls), that are billed to the Customer number(s) via Third Number Billing if the Customer is found to be responsible for such call or service, the use of a Calling Card, or the use of a Company-assigned Special Billing Number and incurred at the specific request of the Customer.

**TOLL BLOCKING FOR NON-PAYMENT OF TOLL CHARGES**

TDS Long Distance Corporation may cause to have blocked, access to all toll providers for nonpayment of regulated toll charges, so long as the blocked customer is not denied the right to select, through a presubscribed interexchange change (PIC) mechanism, any other 1+ presubscribed toll service provider who is obligated to provide such service under the terms of the Selective Access Policy.

Under the terms of the Selective Access Policy, TDS Long Distance Corporation may not deny establishment of 1+ presubscribed toll service on the grounds that the customer has failed to establish creditworthiness, if:

- (A) The customer is able to establish creditworthiness using one of the means for doing so available under the Public Utilities Commission of Ohio's (PUCO) rules, or
- (B) TDS Long Distance Corporation, exercising its own discretion, does not require the customer to establish creditworthiness (through any of the means available for doing so under the PUCO's rules), or
- (C) TDS Long Distance Corporation attempts to require the customer to establish creditworthiness using credit to establish procedures which do not comport with the PUCO's credit establishment policies and/or are not set forth within a PUCO approved Catalog.

When a prospective customer, who has previously been universally blocked for nonpayment of toll charges by another carrier, seeks to select TDS Long Distance Corporation as his or her 1+ carrier of choice, TDS Long Distance Corporation may, subject to our Cataloged toll deposit policies and the Commission's rules on establishment of service (See Rules 4901:1-5 and 4901:1-5, Ohio Administrative Code, [O.A.C.]), require a deposit for toll service. This deposit shall be in accordance with Rule 4901:1-5, O.A.C., but TDS Long Distance Corporation may negotiate a lower deposit.

TDS Long Distance Corporation may furnish credit information, acquired from TDS Long Distance Corporation's own experiences with the customer, to consumer reporting agencies within the meaning of the Federal Fair Credit Reporting Act. TDS Long Distance Corporation will follow all requirements that consumer reporting agencies must follow in issuing credit reports within the meaning of the Federal Credit Reporting Act.

Upon payment by the customer of all past due toll debt to TDS Long Distance Corporation, TDS Long Distance Corporation will notify the customer's local carrier that the block can be lifted and all 1+ dialing capabilities, including 10-XXX, will be restored.

In addition to the above language, all references to dePICing must be removed.

B. DEDICATED MPLS-VPN SERVICE

1. General

Dedicated MPLS-VPN Service is a packet-switched network that provides a point-to-point or multi-point service arrangement for customers requiring special high bandwidth data applications. This service is offered with various transport speeds ranging from 1.5 Mbps to 1 Gbps from one customer premise location to another customer premise location or multiple locations within the state.

2. Conditions and Limitations

- a. The service is offered subject to the availability of central office equipment and appropriate outside plant facilities. The service may not be available to all customers and/or at all speeds due to loop length, line conditioning and/or facility availability.
- b. Customers must subscribe to this service for a minimum of twelve months.
- c. Rates are based on term agreements. The rates are in effect from the time the service is installed until the end of the term agreement period. Upon expiration of the term agreement period, the customer may keep the same term agreement period or select a new term agreement period. Whichever term agreement the customer chooses, the rates for that term agreement will be at the rates in effect at that time.
- d. Rates will not be increased by the Company until the term agreement period expires.
- e. If the service is canceled by the customer prior to the completion of the term agreement period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the term agreement period times the monthly rate provided under the term agreement. Termination charges will not apply, if the customer replaces the service with comparable service and a term length that is equal to or greater than the original term agreement period.
- f. If the applicant requests a different type of construction, equipment or facilities other than what is normally provided, the applicant may be assessed the costs of such arrangement.
