LOCAL EXCHANGE ACCESS LINE SERVICE

PAYSTATION SERVICE

(T)

A. GENERAL

Paystation Service provides telephone service to a customer-leased or owned paystation with or without coin collecting devices. A Paystation Access Line permits providers of such service to provide pay telephone service to the public.

B. DEFINITIONS

Coin Supervision - Provides signaling capability from the central office for paystations that do not have signaling capability within the telephone. This signaling capability provides operators and/or operator systems coin control.

Customer - For the purposes of this tariff, the customer is the Paystation Service Provider.

Network Interface Device - A company-provided jack or its equivalent. It is the point of connection between the Company owned wiring and wiring owned by the customer. For the purposes of this tariff, the network interface device will be installed at a location mutually agreed upon by the customer and the Company.

Originating Line Screening (OLS) - Enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned paystations, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available.

Paystation Access Line - A basic coin transmission dial tone line. It is a line side connection from the local exchange switch to the point of demarcation at the customer premises.

Selective Class of Call Screening - Enables the customer to restrict outgoing operator-handled calls, placed over the Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card. Selective Class of Call Screening will be provided at the customer's option, where such facilities are available.

C. RULES AND REGULATIONS

1. Paystation Service will be considered a business service for the purpose of applying the terms, rates and conditions found elsewhere in this tariff.
2. Only one paystation instrument may be connected to each Paystation Access Line. Off-Premise Extensions are not permitted.
3. The customer shall be responsible for the installation, operation and maintenance of any paystation instrument used in connection with this service.
4. Requests to Directory Assistance Service originated from paystations will be charged the applicable rate of the Directory Assistance Service Provider.
5. Directory listings may be provided under the regulations that govern the furnishing of listings for business customers.
6. Coin-free operator and emergency 911 access must be available from all paystations.
7. One directory will be distributed to the customer without charge for each paystation business exchange line.
8. The customer is responsible for the provision of booths, shelves, directories and all other ancillary equipment.
9. The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any Directory Assistance Calls. The Company shall not be liable for shortages of coins collected and deposited at the customer's paystation instrument.
10. The Company reserves the right to disconnect service when the customer does not comply with the F.C.C. and state rules and regulations related to paystation service and equipment.
11. The Multiline Business Subscriber Line Charge, found in the interstate access tariff, is applicable to all paystation access lines.

LOCAL EXCHANGE ACCESS LINE SERVICE

UNIVERSAL EMERGENCY NUMBER SERVICE - BASIC AND ENHANCED "911"

APPROVED

(C)

A. DESCRIPTION

Nine-One-One (9-1-1) is a nationwide emergency three-digit telephone number that provides citizens access to emergency police, fire, and medical assistance where technically feasible. This special number, when dialed, will automatically be sent to the Public Safety Answering Point (PSAP), which will obtain the necessary information to aid in assistance and/or dispatch the appropriate emergency assistance person/agency.

Basic 9-1-1 automatically sends the call to the appropriate PSAP. Once the call is received at the PSAP, the necessary information will be collected from the caller, and the PSAP will send the appropriate response person/agency.

Enhanced 9-1-1 attaches the caller's number and automatically sends the call to the appropriate PSAP. Once the call is received at the PSAP, the caller's name, telephone number, address and the appropriate emergency person/agency serving the location of the caller will be automatically displayed at the PSAP.

B. DEFINITIONS

Automatic Location Identification (ALI)

The automatic display at the PSAP of the calling party's telephone number, the address for the telephone line and the emergency service providers for the address.

Automatic Number Identification (ANI)

A software function at the Company that collects the telephone number of the caller and automatically displays the number at the PSAP.

Code Recognition

Enables a Central Office to accept 9-1-1 calls and direct them to a 9-1-1 Transport

Customer

A government unit or other entity responsible for payment of the Company's 9-1-1 service.

Data Base

A collection of information organized in a computer to facilitate rapid search and retrieval. Databases which are located at the PSAP include ALI, Master Street Address Guide (MSAG), Emergency Service Number (ESN), and subscriber line data.

Data Management System (DMS)

The combination of manual procedures and computer programs used by the PSAP to create, store, manipulate, and update data required to provide Selective Routing and ALI.

(C)

LOCAL EXCHANGE ACCESS LINE SERVICE

UNIVERSAL EMERGENCY NUMBER SERVICE - BASIC AND ENHANCED "911" (Cont'd)

(C)

B. DEFINITIONS (Cont'd)

APPROVED

Default Routing

A software function at the LEC serving the PSAP that has the capability to route a 9-I-I call to a designated (default) PSAP when the incoming 9-I-I call cannot be selectively routed due to an ANI failure, unreadable digits or other cause.

Diverse Routing

The practice of routing calls through different circuit paths in an effort to prevent total loss of the 9-I-I Service in the event an individual circuit is disabled

Emergency Service Number (ESN)

A number used in the DMS to designate the public safety agencies responsible for service to the location of each telephone number in a 9-I-I Service area, for the purpose of determining call routing.

Exchange

A defined area served by the Company's central office, where the Company furnishes services.

Local Location Identification (LLI)

Local Location Identification is an upgrade to Basic 9-I-I that includes ANI and works similar to ALI. When ANI is sent to the PSAP, the PSAP attendant enters the number into an independent database. This type of enhanced 9-I-I system is usually used in smaller counties or when the PSAP is at the sheriffs office.

Master Street Address Guide (MSAG)

A database at the PSAP of street names and address ranges within their associated postal communities defining 9-I -1 Service Areas.

Non-Selective Routing

A software function at the LEC serving the PSAP that has the capability of routing 9-I-I calls by the use of the NXX or trunk group.

P.01 Grade of Service

A measure of emergency telephone service in which no more than one call in 100 attempts will receive a busy signal during the average busiest hour.

PSAP Attendant

A person responsible for answering incoming 9-I-I calls at a PSAP, determining the action to be taken, and executing the PSAP's procedures in the disposition of such calls.

B. DEFINITIONS (Cont'd)

APPROVED

Public Safety Answering Point (PSAP)

A facility equipped and staffed to receive 9-1-1 calls. A primary PSAP receives the calls directly. A secondary PSAP receives the 9-1-1 calls that are relayed or transferred from the primary PSAP.

Selective Routing

A software function at the LEC serving the PSAP that has the capability of routing a 9-1-1 call to the designated PSAP based upon the location stored in a selective routing table based upon information stored in the ALI record.

Subscriber Line Data

The telephone number, service address for a telephone line, and supplementary information for a subscriber for development and maintenance of ALI and MSAG.

Transport Mileage, 9-1-1

A dedicated circuit between central offices or between the Company's CO and the facilities of another LEC servicing the PSAP for the provision of 9-1-1 Service.

Transport Termination, 9-1-1

A connection at each end of the 9-1-1 Transport.

C. REGULATIONS

1. The Company does not answer and/or forward 9-1-1 calls. The Company furnishes the use of its facilities to enable the transport of a 9-1-1 call from a caller to connection with the facilities of the LEC transporting the 9-1-1 call to the PSAP.
2. If the customer desires dedicated facilities from its PSAP to a response agency (Police, Fire, Emergency Medical, etc.) located in the Company's service territory, the customer must purchase those facilities out of the Company's special access tariff.
3. The Company does not have a Central Office that serves a PSAP directly. As a result, the Company does not provide Default Routing or Selective Routing.
4. The Company shall not be required to provide 9-1-1 Service to less than an entire Central Office servicing area.

5. The Company shall not provide more than one type of 9-1-1 Service per Central Office at any one time, either Basic or Enhanced, but not both.
6. There will be no charge to the calling party by the Company for originating a 9-1-1 call.
7. The calling party forfeits any privacy rights afforded by a non-published or non-listed service when placing a 9-1-1 call.
8. If a 9-1-1 call is originated via a telecommunications company other than the Company, or by any other Non-Company source such as an alternative operator provider, or shared service provider, or by a cellular provider or any other radio based source (whether provided by the Company or not) the completeness and accuracy of the ANI and ALI/LLI information forwarded cannot be and will not be assured.
9. Rates charged for 9-1-1 Service include normal monitoring of 9-1-1 dedicated facilities to discover errors, defects and malfunctions in the network, but do not include any additional monitoring, if available, the Company may provide additional inspection and monitoring of facilities for an additional charge upon customer request.
10. The Company will build and maintain the MSAG file in concert with customer utilizing standard service addresses (i.e. house numbers, street names, and postal communities).
11. The rates and charges for 9-1-1 Service elements are based upon utilizing standard service addresses (i.e. house number, street names, and postal communities) in populating the DMS (Data Management System). The use of addressing that is not in this format will be at a price established on an Individual Case Basis (ICB).
12. The Company will provide a range of Emergency Service Numbers (ESN) that are available for assignment by the PSAP. Customer or PSAP requested changes to the ESN will be charged to the customer at actual cost.

MISCELLANEOUS SERVICE ARRANGEMENTS

APPROVED

1. SUSPENSION OF SERVICE

A. GENERAL

Suspension of Service allows local exchange service to be temporarily suspended by request of the customer. This service is provided to customers whose requirements for telephone service is less than the normal 12-month period within a year.

B. CONDITIONS

- 1) Service can be temporarily suspended for a minimum of one (1) month and a maximum of ten (10) months.
- 2) Suspension of Service is available on all one-party residence lines and up to three one-party business lines subject to the availability of facilities.
- 3) The customer must have at least one month of regular telephone service paid prior to the establishment of Suspension of Service.
- 4) The Company reserves the right to bill charges for the total number of suspended months requested prior to establishment of Suspension of Service.
- 5) Suspension of Service may begin and terminate on any day of the month, provided notice is given sufficiently in advance for arrangements to be made.
- 6) The Company will not provide installations, moves, changes, or maintenance during the period when the customer is billed at the reduced rate.
- 7) Only two suspension periods will be allowed and shall not exceed ten months in any one calendar year nor exceed ten continuous months at any time regardless of the year.

LOW INCOME ASSISTANCE PROGRAMS

Low-Income Assistance Programs consist of two programs, Lifeline Assistance and the Oregon Telephone Assistance Program (OTAP). These programs were developed to reduce rates for low income customers. The Company participates in these programs to increase the availability of telecommunications services to all consumers in its serving areas.

A. Lifeline Assistance

The Company shall provide Lifeline Service as defined in FCC 47 C.F.R. 54.401 (a) on a non-discriminatory basis to all qualifying low-income customers. The Company's Lifeline service offering shall comply with all applicable federal laws (including but not limited to, the FCC's Lifeline Reform Order (Report and Order released February 6, 2012, WC Docket No. 11-42, et. al.), and the FCC's Lifeline Modernization Order (Third Report and Order released on April 27, 2016, WC Docket No. 11-42, FCC 16-38, et. al.)).

B. Oregon Telephone Assistance Program (OTAP)

1. General

OTAP provides for additional state benefits against the recurring monthly rates for the provision of local residential service for eligible residential subscribers.

2. Eligibility Requirements

a) Customers qualifying for the State Assistance Program must meet the eligibility requirements for OTAP as defined in OAR 860-033-0030.

- 2) OTAP/Lifeline customers are eligible to receive Toll Restriction Service at no charge. This service will only be provided at the customer's request.
- 3) Local service deposit requirements will be waived for OTAP/Lifeline customers who voluntarily receive Toll Restriction Service.
- 4) OTAP/Lifeline customers shall not be disconnected from Local Service for non-payment of toll charges. In addition, the Company will not deny re-establishment of local service to customers who are eligible for OTAP/Lifeline and have previously been disconnected for non-payment of toll charges.
- 5) Partial payments that are received from OTAP/Lifeline customers will first be applied to local service charges and then to any outstanding toll charges.
- 6) Billing will reflect that the OTAP/Lifeline credit or discount became effective on the date specified by the Public Utility Commission of Oregon for each approved customer.
- 7) OTAP/Lifeline customer may not be charged the federal universal service fund fee or the monthly number-portability charge as part of their local residential service plan that includes voice telephony service.
- 8) OTAP/Lifeline customers may not be charged the Access Recovery Charge or its equivalent.
- 9) The Residential Service Protection Fund surcharge must be charged to OTAP/Lifeline customers.

STAR PACKAGES⁽³⁾ (Continued)

B. Conditions and Limitations

1. Rules, regulations, and limitations as specified elsewhere in the Company's tariffs for each individual service will apply as part of this Package.
2. STAR Package customers may terminate their Package at any time upon notice to the company.
3. Unless terminated by the STAR Package customer or the Company, a customer will remain enrolled in the Package, as amended from time-to-time, with any applicable changes in rate, for as long as the Plan continues to be offered by the Company.
4. Service Charges, as described in Section VI of this tariff, apply to requests for new and additional STAR Package lines, and moves of existing lines. Service Charges will not apply when the STAR Package replaces existing Local Exchange Service or if the customer requests a change from the STAR Package back to Local Exchange Service.
5. STAR Package customers are not eligible for discounts or promotional offerings outside of this Package, unless specifically provided for in a promotional offering.
6. The Package may not be combined with any other optional toll calling plan service, except for those specified in this offering.
7. Customers may upgrade their Voice Mail Service package for an additional fee.
8. Customers who fail to pay the entire Package rate per month will have all STAR Package optional features removed. The customer will then be converted to the tariffed Basic Local service rate. Service Charges will not apply for converting services back to tariff rates. Such customers will not be permitted to re-enroll in this any of the Packages until such time as all associated unpaid balances are satisfactorily paid in full.
