A. General

In compliance with FCC Order 00-256 in CC Docket 92-105 and subsequent orders, N11 Service ("N11") establishes a three-digit local dialing arrangement in the Central Office that automatically transfers "N11" calls to another pre-programmed telephone number (point-to number) determined by the N11 Subscriber.

B. Definitions

The Federal Communications Commission (FCC) administers the N11 codes, and has nationally assigned 211, 311, 511, 711 and 811 to the following special services.

"211"

211 is assigned for community information and referral services.

"311"

311 is assigned for non-emergency police and other governmental information.

"511"

511 is assigned for traffic and transportation information.

"711"

711 is assigned for access to Telecommunications Relay Service (TRS).

"811"

811 is assigned for state One Call Services for providing advance notice of excavation activities to underground facility operators.

C. Conditions and Limitations

1. Requests for utilization of the N11 dialing code must be submitted in writing to the state regulatory authority, consistent with applicable state law for the assignment of the N11 code.
2. N11 service is provided subject to the availability of the N11 code and where facilities permit.
3. Only one 7 digit or 10 digit or 800 toll-free number may be used as the lead number per basic local calling area.
4. Directory listings may be provided for N11 under the terms, conditions and rates specified in Section V of this Tariff.

The Company may take protective measures when the N11 Subscriber make no modification or is unwilling to accept modification in method of operation, or continues to cause service impairments.

If the N11 Subscriber cancels the order or decides to discontinue service, the N11 code will be recalled and the number will be considered available for reassignment. Any non-recurring charges associated with the establishment of service may not be refunded or waived.
