**OFF PREMISES EXTENSION <sup>(1)</sup>**

(C)

A. General

Off-Premise Extension (OPX) is a telephone line that connects a station located in a separate building to the main station at the Network Interface Device or at the pedestal. This allows the phone at each location to ring at the same time.

B. Conditions and Limitations

1. OPX will only be provided where technically feasible and is subject to the availability of outside plant.
2. Mileage charges will be based upon the airline mileage between the locations of the primary (main station) and secondary line terminations.
3. For multi-point channels, the mileage is the shortest airline distance between each building in which the channel terminates. The charging mileage is the combination of such segments of distance which results in the lowest total mileage for the entire channel.
4. OPX is only provided to locations residing within the same exchange as the main station.
5. OPX may be located on the premises of another customer provided the other customers have a separate access line service at that location.
6. The Telephone Company may limit the number of off premise extensions connected to a line.
7. OPX is limited to voice grade service.
8. Calls made to 9-1-1 from the extension station may only list the main station in the 9-1-1 database.

<sup>(1)</sup> Off Premises Extension provisioned in or through the Central Office is grandfathered to existing customers effective May 9, 2016. This service will not be available to new customers after this date.

(C) Indicates Change

Issued: May 6, 2016

Effective: May 9, 2016

**OFF PREMISES EXTENSION** <sup>(1)</sup> (Continued)

B. Conditions and Limitations (Continued)

9. The rates listed below are in addition to the Basic Local Exchange Service.
10. Non-recurring charges as stated in Section 3 apply.
11. If supporting structures are necessary for the purpose of furnishing OPX extensions on the customers premises or the extension involves unusual construction or disproportionately large expenditures as compared with usual types of construction, the customer may be reasonable for the additional costs of construction.

C. Rates

The rates below do not apply to terminals located in the same building.

	<u>Monthly Charge</u>
<u>Continuous Property</u> Per 1/10 mile or fraction thereof	\$ .75
<u>Non-Continuous Property</u> Per ¼ mile or fraction thereof	\$2.25
