TOUCH CALLING SERVICE

A. GENERAL

1. Touch Calling Service provides for the origination of telephone calls through the use of telephone equipped with tone generating pushbuttons in lieu of pulse generating pushbuttons or rotary dial.

(D)
|
(D)

B. RATES

1. Appropriate Service Connection charges (see Section V), per line, will be applied for adding Touch Calling Service to an existing, customer's primary service. Touch Calling Service installed simultaneously with the establishment of primary service will be included with the normal service connection charge.
2. At the time Touch Calling Service is established on a customer's premises, any and all of the customer's existing stations on a central office line will be equipped for Touch Calling without a change of instrument charge.
3. Subsequent to the initial establishment of Touch Calling Service at a customer's location regular service connection, move and change charges shall apply for additions and changes in the customer's service.
4. The following rates and charges are in addition to the applicable rates and charges for all the services with which this service is associated.

Monthly Rate

Residence, per line	<u>1/</u>
Business, per line	<u>1/</u>

1/ Touch Call charges included in Exchange Access Line Rates, see Section III.

MISCELLANEOUS SERVICE ARRANGEMENTS**APPROVED**SUSPENSION OF SERVICEA. General

Suspension of Service allows local exchange service to be temporarily suspended by request of the customer. This service is provided to customers whose requirements for telephone service is less than the normal 12-month period within a year.

B. Conditions

1. Service can be temporarily suspended for a minimum of one (1) month. (D)
(D)
2. Suspension of Service is available on all one-party residence lines and up to three one-party business lines subject to the availability of facilities.
3. The customer must have at least one month of regular telephone service paid prior to the establishment of Suspension of Service.
4. The Company reserves the right to bill charges for the total number of suspended months requested prior to establishment of Suspension of Service.
5. Suspension of Service may begin and terminate on any day of the month, provided notice is given sufficiently in advance for arrangements to be made. Customers' rates will be prorated according to when their request for Suspension of Service starts.
6. The Company will not provide installations, moves, changes, or maintenance during the period when the customer is billed at the reduced rate. (D)

7. Bills are rendered at the reduced rate at regular billing dates during the period of suspension. (T)
8. The customer's listing will be retained in the directory. (T)
9. The Company assumes no liability for failure of a calling party to reach the customer during the period of suspension. (T)
10. The Company reserves the right to refuse suspension of service in the case of a customer whose account is delinquent. (T)
11. Unless specifically exempted, Suspension of Service shall be subject to all general regulations applicable to the provision of service by the telephone company as stated in the general tariff. (T)

(D)
(D)C. Rates and Charges

1. The monthly rate will be based upon 50% of the regular rate for basic local one-party exchange service. All other local services will be zero rated except for the following:
 - a) 911/E911 and all other applicable taxes and surcharges will be billed at the full rate.
 - b) The Federal Subscriber Line Charge will be discounted 50% per the National Exchange Carrier Association FCC Tariff No. 5, Section 4.5.5.
2. Non-recurring charges do not apply for reconnection to regular full service.
3. Personal Greeting Service

This optional service is available for customers who prefer to leave a personalized greeting for incoming calls while they are on Suspension of Service.

Monthly Rate: \$3.50

EMPLOYEE TELEPHONE SERVICE

A. GENERAL

Employee Telephone Concession Service applies to all Asotin Telephone employees who are regular full-time employees, regular part-time employees, retirees and employees on long-term disability, and who reside in service territory of Asotin Telephone Company.

(T)

Asotin Telephone Company will provide reimbursement to eligible employees for the following services if facilities at the Company are equipped to provide such service.

- Basic Residential Service (one line)
- Touch Tone Service
- End User Charges - interstate and intrastate
- E911
- Dual party relay surcharge
- Custom Calling Service
- Advanced Calling Services
- Voice Mail
- Telephone instruments (2500 type), up to three per employee
- Inside wiring installation and maintenance services
 - Telephone Assistance Surcharge
 - Service Connection Charges
 - Other local service items

B. RATES

Asotin Telephone Company will provide reimbursement of eligible expenses to eligible employees based on the following:

Regular Full-time employees	100%
Regular Part-time employees	75%
Retired employees	100%
Long-term Disability employees	Rate receiving prior to disability

DIRECTORY LISTINGS

A. General

The alphabetical section of the telephone directory consists of a list of names of end users in alphabetical order and is designed solely for the purpose of informing calling parties of the telephone numbers of end users and those entitled to use the end user's service as an aid to the use of the telephone service. Any restrictions, changes or additions are provided for in this section.

B. Conditions and Limitations

1. The rates and regulations specified herein for directory listings apply only to the alphabetical section of the directory.
2. The company has the right to limit the length of any listing to one line in the directory by the use of abbreviations when the clearness of the listing or the identification of the customer is not impaired thereby.
3. A listing must conform to the Company's specifications with respect to its directories.
4. Listings are regularly provided in connection with all classes of exchange service except public telephone service.
5. The length of the contract period for directory listings where the listing actually appears in the directory is the directory period. The directory period is from the day that the directory is distributed to the customers to the day the succeeding directory is distributed to the customers, unless the listing no longer services the customer because of disconnection, removal, etc., of the service, the minimum contract period will be for at least 30 days. When the listing appears on information records only, the minimum contract period will be for at least 30 days.
6. The Telephone Company shall not be liable for damage claimed on account of errors in or omissions from its directories; nor for the result of the publications of such errors in the directory; nor will the Telephone Company be a party to controversies arising between end users or others as a result of listing published in its directories.
7. In cases of extra listing in the alphabetical section of the directory for which a charge is made, the Telephone Company's liability shall be limited to cancellation of the charges and refunding of any charges to the customer in question.
8. Listings are furnished only as specified for the various services mentioned in this section. Listings which, in the opinion of the company, are not necessary in connection with any services or facilities not specifically mentioned in this section are not furnished either with or without charge.

DIRECTORY LISTINGS

C. Primary Listings

A Primary Listing, which may include the name, address and telephone number of the individual, organization, firm or corporation for whom the service has been contracted will be furnished at no charge.

1. Listings will be limited to such information as is necessary for the proper identification for the customer.
2. The length of a listing may be limited to the use of abbreviations where the clarity of the listing and the identification of the customer will not be impaired.
3. The Company may refuse to insert any listing, which in its judgment does not facilitate the use of the directory.
4. Primary business listings must be the name under which the subscriber is conducting business.
5. Business listings may include a designation descriptive of the business or profession if the name does not indicate the nature of the business.
6. Titles are permitted in business or residence primary service listings where required for the purpose of identification.

When two or more main station lines or private branch exchange trunk lines are consecutively operated, the first number of the group is considered the primary listing. Where two or more main station lines or private branch exchange trunk lines are consecutively operated, a primary listing may be made for each line. DID trunk numbers and trunk hunting lines listed will be charged the applicable listing charges for regular or additional listings.

D. Additional Listings

1. General
 - a. Additional listings for which a charge is made, are available to business and residence customers and are subject to the same regulations as Primary listings.
 - b. Additional listings must bear the same address and telephone number as the primary or regular listing. An exception to this may be made in the case of off-premises access lines that are located in other premises solely occupied by the customer, in which case, a different address may be listed. This exception is not permitted when the off-premise access line is located in the residence of an employee of the customer.

DIRECTORY LISTINGS

(T)

E. Non-Published and Non-Listed Numbers

1. General

At the request of the customer, a listing or listings (including name, address and telephone number) may be omitted or deleted from the telephone directory. The divulgence of the customer's telephone number to the public is dependent upon the type of service provided.

a) Non-Published Numbers

The customer listing is omitted or deleted from the telephone directory. Only the name and address of the customer will be carried in the telephone company records, and the number will not be given to any calling party.

b) Non-Listed Numbers

The customer listing is omitted or deleted from the telephone directory, but such listings will be carried in the telephone company information records and the number will be given to any calling party upon request.

2. Regulations

a) The Company shall not be liable should a non-listed or non-published telephone number be divulged inadvertently. When a non-published or a non-listed number is inadvertently published in a directory, the Company's liability shall be limited to and satisfied by a refund of any monthly charges that the customer has incurred for such service.

3. Conditions

A Charge will not apply to non-published numbers for customers having the following services:

- a) When the customer has another published number for the same class of service in the same exchange.
- b) Public Telephone Service
- c) Special Reversed Long Distance Service (Enterprise)
- d) Foreign Exchange Service
- e) Temporary Service (service provided for a period not more than 30 days)
- f) Special services such as teletypewriters or data services provided for customers with impaired hearing having a limited requirement for voice communication.

CHANNELS

INTRAEXCHANGE (LOCAL CHANNELS)⁽¹⁾

(C)

A. GENERAL

1. Intraexchange or local channel charges apply in the provision of local private line, lease line, tie line, radio broadcast circuits, and all other services, where leased channels are provided. Mileage applications may be applicable to local channels and will be measured on an air-line basis unless otherwise indicated.
2. A Local Loop Charge is applicable for all private line services whereby the use of a cable pair and central office equipment are required to provide such private line services. The Local Loop Charge pertains to that portion of the loop extending up to ½ mile from the central office. Any segment of the loop extending beyond the ½ mile mark is subject to the normal channel mileage charges which are rated on a per ¼ mile basis.

B. CONDITIONS

1. The minimum contract period for channels is one month.
2. Intraexchange channel mileage will apply to local channels provided to different buildings—non-continuous property, if the channel extends beyond one half mile from the serving central office or the primary station. Intraexchange channel mileage will apply to local channels provided to different buildings—continuous property, measured on an air-line basis between buildings.
3. See Local Channel – definitions
4. The base rate area for the provision of intraexchange or local channels is a one half mile radius from the serving central office.
5. Intraexchange channels terminate at each end in FCC approved jacks or other connecting arrangements and service connection charge as outlined in Section V, applies to the work performed at each end.

⁽¹⁾This service is only available where facilities are available. As the Company upgrades its network to fiber and VoIP, this service will only be available to existing customers as of March 8, 2021 and to customers that do not have access to fiber-based services.

OFF PREMISES EXTENSION¹

A. General

Off-Premise Extension (OPX) is a telephone line that connects a station located in a separate building to the main station at the Network Interface Device or at the pedestal. This allows the phone at each location to ring at the same time.

B. Conditions and Limitations

1. OPX will only be provided where technically feasible and is subject to the availability of outside plant.
2. Mileage charges will be based upon the airline mileage between the locations of the primary (main station) and secondary line terminations.
3. For multi-point channels, the mileage is the shortest airline distance between each building in which the channel terminates. The charging mileage is the combination of such segments of distance which results in the lowest total mileage for the entire channel.
4. OPX is only provided to locations residing within the same exchange as the main station.
5. OPX may be located on the premises of another customer provided the other customers have a separate access line service at that location.
6. The Telephone Company may limit the number of off premise extensions connected to a line.
7. OPX is limited to voice grade service.
8. Calls made to 9-1-1 from the extension station may only list the main station in the 9-1-1 database.
9. The rates listed below are in addition to the Basic Local Exchange Service.
10. Non-recurring charges as stated in Schedule V apply.
11. If supporting structures are necessary for the purpose of furnishing OPX extensions on the customer's premises or the extension involves unusual construction or disproportionately large expenditures as compared with usual types of construction, the customer may be responsible for the additional costs of construction.

¹Off Premises Extension provisioned in or through the Central Office is grandfathered to existing customers effective 10/7/2016. This service will not be available to new customers after this date.

DIRECTORY ASSISTANCE SERVICE

APPROVED

A. GENERAL

Directory Assistance Service gives customers access to telephone numbers of individuals or businesses by dialing 555-1212, 4-1-1 or 1-4-1-1.

B. DEFINITIONS

- 1. Local numbers are any NPA/NXXs within the customer's local calling area or home NPA.
- 2. National numbers are any NPA/NXXs within the United States, Canada, Puerto Rico and the U.S. Virgin Islands, but outside the customer's local calling area or home NPA.
- 3. Call Completion is when a customer requests that a call be completed to the number that was provided during the directory assistance call. (D) (N) (N)

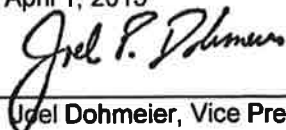

C. REGULATIONS

- 1. A maximum of two requested telephone numbers are allowed per call.
- 2. Rates will apply based on the NPA/NXX requested. (D)
- 3. Charges for Directory Assistance Service for requests of a local or national numbers are not applicable to calls placed from customers whose physical, visual or reading handicaps prevent them from using the telephone directory. (T) (D) (D)
- 4. Charges for Directory Assistance Service do not apply to the following: (T) (D)
 - a. Requests originating from hospitals or hotels and motels. (T)

CUSTOM CALLING SERVICE

APPROVE

A. General

- 1) Custom Calling Services are optional services offered in addition to regular exchange service to those customers served by central offices so arranged to provide such services.
- 2) Custom Calling Services are furnished only in connection with individual line service. Semi-Public Telephone Service equipped with a coin collector is excluded from this offering.
- 3) The charges specified below will apply on a per line basis when Custom Calling Services are provided in conjunction with Key or Multi-line Systems. In some instances where rotary hunt feature is present, certain custom calling features might not be available.
- 4) Except as specifically provided herein, Custom Calling Services are subject to the regulations, rates and charges applicable to other types of customer service.
- 5) Other facilities, miscellaneous and supplemental equipment, requested by customers and not detrimental to this service, will be furnished by the Company in accordance with regulations and at the rates specified in the applicable sections of this Tariff.
- 6) Flat rate services equipped for Call Forwarding are assessed regular long distance message charges for each call transferred on a long distance basis.
- 7) Custom Calling features may be provided in connection with Foreign Exchange Service.

MISCELLANEOUS SERVICE ARRANGEMENTS

CUSTOM CALLING SERVICE (Continued)

B. Service Description

a) Call Waiting/Cancel Call Waiting

This service alerts a customer who is on the phone that another local or long distance caller wants to get through the line. The customer will receive a tone signal to indicate another incoming call and the caller will receive the usual ringing tone. To place the first call on hold and answer the incoming call, the customer depresses the switchhook once. The customer can then toggle between both calls by depressing the switchhook. If the customer hangs up when a call is still on hold, the customer's line will automatically ring back.

Cancel Call Waiting allows a Call Waiting customer to deactivate the Call Waiting service by dialing a code. When this service is activated, the customer will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal. Call Waiting will remain disabled for the rest of the call, but will be automatically restored upon call termination.

b) Call Forwarding

This service redirects incoming calls to another telephone number. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use Call Forwarding will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

CUSTOM CALLING SERVICE (Continued)

B. Service Description (Continued)

(K)
|
(K)

c) **3-Way Calling**

This service allows a customer to add a third party to an existing telephone call. To add a third party, the customer depresses the switchhook once to place the current party on hold, receives a dial tone, dials the third party's number, and then depresses the switchhook again to establish the three-way connection. All 3-way calls are subject to transmission limitations and all applicable local and long distance charges.

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use 3-Way Calling will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

d) **Call Transfer***

This service allows the customer to hold and transfer incoming, out-going and intragroup calls. If the customer has established a three way call, this service will allow the customer to hang up while the other two parties remain connected. Any applicable long distance charges will apply for the duration of the call, even if the customer drops off the call.

* As of April 12, 2004, this service will no longer be available to new customers. Once current customers disconnect this service, they will not be able to reestablish it.

(K) Text shown here now appears on Sheet 23 of this Section.

B. Service Description (Continued)

d) Speed Call 8

This service allows the customer to keep a list of eight specified telephone numbers which can be dialed by using a one-digit (2 through 9) access code.

e) Speed Call 30

This service allows the customer to keep a list of 30 specified telephone numbers which can be dialed by using a two-digit (20 through 49) access code.

f) Toll Restriction

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. When a restricted call is attempted from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

MISCELLANEOUS SERVICE ARRANGEMENTS

CUSTOM CALLING SERVICE (Continued)

APPROVED

B. Service Description (Continued)

g) Call Forwarding-Busy (Customer Programmable)

(T)

This service routes incoming calls to another telephone number when the customer's dedicated number is busy. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - Busy, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

h) Call Forward-No Answer (Customer Programmable)

(T)

This service redirects incoming calls not answered after a predetermined number of rings to another telephone number. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - No Answer, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

i) Call Hold

(T)

This service allows a customer to place a current caller on hold, which frees the line so the customer can initiate another call. To activate Call Hold, the customer depresses the switchhook to receive a dial tone and then dials a specific code. Only one call per access line can be placed on hold at a time. The held call cannot be added to another call, however, the customer can toggle between each call.

CUSTOM CALLING SERVICE (Continued)

B. Service Description (Continued)

j) Call Transfer Enhanced

(T)

This feature enables a customer to transfer multiple incoming or outbound calls to a third party with either a Screened Transfer or a Blind Transfer. A Screened Transfer enables the transferring party to announce a call to the third party prior to completing the transfer. If the third party chooses not to take the call, the transferring party may disconnect the third party and return to the caller. Otherwise, the transferring party may disconnect, completing the transfer and returning the line to an idle state. A Blind Transfer enables the transferring party to immediately disconnect after dialing the third party, prior to the third party answering the call. After disconnecting, the transferring party may either originate or receive a new call, even though the transferred call is still in progress. In addition, this feature enables a customer to establish a 3-way conference call while enabling any party (including the originator of the call) to drop out of the conference while leaving the other two parties connected. The customer is responsible for all applicable long distance charges for originating or terminating calls that will apply for the duration of the call, even if the customer drops off the call.

MISCELLANEOUS SERVICE ARRANGEMENTS

CUSTOM CALLING SERVICE (Continued)

APPROVED

B. Service Description (Continued)

k) Call Forward-Busy (Programmed by Telco)

(T)

This service automatically redirects incoming calls to a predesignated telephone number or voice mail service when the customer's line is busy. The customer activates the service by contacting the telephone company and designating the number to which all calls will be forwarded when the line is busy. The telephone company then establishes the fixed forward-to telephone number within the switch. To cancel the service or change the forward-to telephone number, the customer must contact the telephone company. All call forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

l) Call Forward-No Answer (Programmed by Telco)

(T)

This service automatically redirects incoming calls to another telephone number or voice mail service when the customer's telephone is not answered in a pre-determined number of rings. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer activates the service by contacting the telephone company and designating the number to which all calls will be forwarded when the telephone is not answered within an established period of time. The telephone company then establishes the fixed forward-to telephone number within the switch. To cancel the service or change the forward-to telephone number, the customer must contact the telephone company. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

m) Call Forwarding-Remote Access

(T)

This service is an additive to the Call Forwarding service and allows the customer to activate and deactivate Call Forwarding from a telephone in another location. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

CUSTOM CALLING SERVICE (Continued)

B. Service Description (Continued)

n) 6-Way Calling⁽¹⁾

(C)

This service allows a customer to call up to five parties and establish a six-way conference call. To activate this service, the customer dials an access code, dials the desired telephone number (calling party must answer), depresses the switchhook to add the calling party to the line, then depresses the switchhook again to receive a new dial tone. If the called party line is busy or there is no answer, the customer must dial a special access code to drop the line. This process needs to be repeated until all parties (up to five) have been connected to the customer's line. All 6-Way Calls are subject to transmission limitations and all applicable local and long distance charges.

o) **Reserved for Future Use**

(T)
(D)

—
(D)

p) Home Intercom-Basic

This service allows customers to redial their own directory number in order to talk to another party at a different extension. To activate this service, customers redial their own directory number and then hang-up. After a short interval, the phone will ring back. Once both parties pick-up the phone, they will be able to have a two-way conversation. This service is also known as Revertive Ringing.

q) Home Intercom-Enhanced

This service allows customers to establish a talking path between two or more of their extensions. To activate this service, the customer dials one of the access code numbers predetermined by the Company, receives an announcement, and then hangs up the phone. The phone will ring back in one of the distinctive patterns, depending on the access code dialed. Also included in this package is dialable hold, where one extension can transfer an outside call to another extension.

⁽¹⁾This service is only available where facilities are available. As the Company upgrades its network to fiber and VoIP, this service will only be available to existing customers as of March 8, 2021 and to customers that do not have access to fiber-based services.

CUSTOM CALLING SERVICE (Continued)

B. Service Description (Continued)

r) Personal Ringing

This service allows the customer to have up to four distinct telephone numbers on a single line. The second, third and fourth number will each have a distinctive ringing pattern so the customer can identify which number has been called. If a customer also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a customer also subscribes to Call Forward, the main directory number or all four telephone numbers can be forwarded.

s) Call Reminder

This service allows a customer to program a time at which a reminder call is desired. At the programmed time, the customer will receive a call placed by the Central Office Equipment. When the call is answered, the customer will hear a tone or a Company recorded announcement.

t) Toll Restriction with PIN override⁽¹⁾

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. In addition, the customer will have the ability to override the restriction on a per call basis by using a Personal Identification Number (PIN). To activate the override, the customer dials a code, the PIN, waits for a dial tone and then dials the toll number. When a restricted call is attempted without the PIN, from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

⁽¹⁾This service is only available where facilities are available. As the Company upgrades its network to fiber and VoIP, this service will only be available to existing customers as of March 8, 2021 and to customers that do not have access to fiber-based services.

Q. DIRECT INWARD DIALING (DID) SERVICE⁽⁴⁾

(C)

1. General

The Telephone Company will provide, subject to the availability of facilities, Direct Inward Dialing (DID) Service. DID service provides for the completion of local and toll calls to associated station numbers without intermediate handling by an attendant.

2. Rates

a. The rates and charges for central office trunk associated with Direct Inward Dialing (DID) Service are as found in Section III, Sheet No. 3 or 4 of this tariff.

	<u>Monthly Rate</u>	<u>Trans. Code</u>	<u>NRC</u>	<u>Trans. Code</u>
b. DID Trunk Unit, Per Trunk	(1)		None	N/A
c. Central Office Equipment				
Each trunk arranged for DID	\$20.00(2)		\$113.00	
First Block of 10				
directory numbers	\$10.00		\$84.00(3)	
Each additional block				
of 10 directory numbers	\$10.00		\$84.00(3)	

3. Conditions

- a. The service is furnished subject to the availability of Central Office facilities and compatibility of customer provided equipment.
- b. The service includes central office switching equipment for in dialing from the exchange and toll network directly to stations associated with customer premises equipment.

- (1) See Section III, Sheet No. 3 (Asotin Exchange) and Sheet No. 4 (Anatone Exchange) for associated PBX trunk rate.
- (2) This charge is in addition to the monthly DID trunk charge.
- (3) Not applicable if installed with initial installation. Subsequent installations are subject to non-recurring costs.
- (4) This service is only available where facilities are available. As the Company upgrades its network to fiber and VoIP, this service will only be available to existing customers as of March 8, 2021 and to customers that do not have access to fiber-based services.

MISCELLANEOUS SERVICE ARRANGEMENTS**APPROVED**Q. **DIRECT INWARD DIALING (DID) SERVICE** ⁽¹⁾(Continued) (C)

3. Conditions (Continued)

- c. The service must be provided on a minimum of 10 lines in a trunk group arranged for inward service.
- d. The rates herein contemplate the use of standard Telephone Company equipment and serving arrangements and are in addition to rates and charges for the service with which it is furnished. When equipment or service of a special type is requested and provided, rates and charges are related to the costs involved to meet the individual requirements of each case.
- e. Operational characteristics of interface signals between the Telephone Company-provided connecting arrangements and the customer-provided equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards of service.
- f. The Telephone Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Telephone Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alternation of such equipment or system or otherwise affect its use or performance.
- g. Directory listings will be provided in accordance with the regulations of the "Directory Listings" section of this Tariff. DID numbers furnished herein are not entitled to free directory listings.
- h. Customer-provided equipment must be arranged by the customer to provide for the intercepting of assigned but unused station numbers.
- i. The customer being provided DID service will be responsible for all toll calls billed to the DID numbers.
- j. The assignment of the telephone numbers and the sequence of numbers assigned to a DID service is determined by the Company based on the rules established in FCC order 00-104 and 01-362. The customer may request a sequential block of numbers to be placed into service at a later date. Non-Recurring Charges for DID numbers may apply to recover the cost of reserving the numbers. Reserved numbers can only be held for a maximum of six months. After six months, the reserved numbers must be placed into service for that specific customer or the numbers will be categorized as available for use by other customers.

⁽¹⁾This service is only available where facilities are available. As the Company upgrades its network to fiber and VoIP, this service will only be available to existing customers as of March 8, 2021 and to customers that do not have access to fiber-based services. (C)

MISCELLANEOUS SERVICE ARRANGEMENTS

ADVANCED CALLING SERVICES

A. GENERAL

Advanced Calling Services (ACS) are optional services, offered in addition to regular exchange service, which allow customers to efficiently manage the call flow generated over their Exchange Access Line(s). Customers will be able to screen, redirect, or return selected calls. These services offer subscribers convenience, time savings, and a greater degree of control over the use of their telephones. Advanced Calling Services are available to residence and business customers where facilities are available. Individual feature availability may differ by exchange.

B. SERVICE DESCRIPTION

1. ANONYMOUS CALL REJECTION

This service enables a subscriber to reject incoming calls from which a privacy indicator is received. The service is activated by dialing a unique code. When the service is active, the Telephone Company ("Company") will not complete calls to its customer when the calling party has activated Caller ID blocking services. Such calls will be routed to a Company recorded announcement. Anonymous Call Rejection is included with Caller ID at no charge.

2. CALL REJECTION

This service enables a subscriber to reject up to a maximum of six (6) preselected incoming telephone numbers from which he/she does not wish to receive calls. To select a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. To add an unknown telephone number to the list, a subscriber can activate a code immediately after receiving an unwanted incoming call. The Company's equipment will screen incoming calls against the subscriber's list and reject those on the list. Callers whose numbers are rejected are directed to a Company recorded announcement. If facilities are unavailable to provide incoming call screening via the subscriber's list, standard call completion will occur.

3. CALL RETURN

This service enables the subscriber to automatically redial the telephone number of the most recent incoming call. The Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation of Call Return if the most recent incoming call is busy. If the most recent incoming call is blocked, the subscriber will get a Company recorded announcement indicating the number is a private number and the call can not be returned. The service cannot be activated for calls originating from a line that is forwarded or from a line not associated with a telephone number, e.g., multiline hunting groups.

Call Return is available on a flat monthly rate and a pay-per-use basis. Pay-per-use Call Return will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

B. SERVICE DESCRIPTION *(continued)*

4. PREFERRED CALL FORWARDING

This service enables the subscriber to forward up to a maximum of six (6) preselected incoming telephone numbers to another telephone number. To forward a telephone number, the subscriber dials an activation code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and forward only those telephone numbers on the list. Calls forwarded by this service are subject to all applicable local and long distance charges. These calls are also subject to transmission limitations.

5. PRIORITY RINGING

This service allows the subscriber to provide up to a maximum of six (6) preselected incoming telephone numbers with a distinctive alerting signal or ring (or a distinctive Call Waiting tone if the subscriber has subscribed to Call Waiting), when the subscriber receives calls from them. To program a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and provide the Priority Ringing service for the preselected telephone numbers on the subscriber's list.

6. REPEAT DIALING

This service enables the subscriber to automatically redial the last outgoing telephone number dialed from that line. When the recalled telephone number is busy, the Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation. Repeat Dialing is available on a flat monthly rate basis.

7. SPECIAL CALL ACCEPTANCE

This service enables a subscriber to allow up to a maximum of six (6) preselected incoming telephone numbers to be accepted. To select a telephone number to be accepted, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and allow only those calls on the list to be completed. Calls from all other numbers will be routed to a Company recorded announcement.

B. SERVICE DESCRIPTION (Continued)

8. CALLER ID

(D)

a) Caller ID - Basic

This service utilizes specific network capabilities to transmit and display the number associated with an incoming call to the called party's access line. The number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID subscribers must provide, and connect, their own compatible premises equipment in order to process and display the number transmission. The Company will forward all telephone numbers where technically feasible.

The customer originating the call may prevent the display of their number by using blocking services. If a calling party has activated blocking, the number will not be transmitted to the display equipment of a Caller ID subscriber. Instead, the Caller ID subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID subscriber that the calling party chose to block number delivery. Anonymous Call Rejection is included with Caller ID at no extra charge.

At this time, blocking may or may not be provided on calls originating from paystation or other services used by the general public. This depends on feature availability.

(T)

b. Caller ID - Deluxe

This service utilizes specific network capabilities, where technically feasible, to transmit the Name and Number associated with an incoming call to the called party's access line. The name and number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID - Deluxe subscribers must provide, and connect, their own compatible premises equipment in order to process the name and number transmission. The Company will forward all telephone numbers and names where technically feasible.

If a calling party has activated blocking, the name and number will not be transmitted to the display equipment of a Caller ID - Deluxe subscriber. Instead, the Caller ID - Deluxe subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID - Deluxe subscriber that the calling party chose to block name and number delivery. Anonymous Call Rejection is included with Caller ID at no extra charge.

ADVANCED CALLING SERVICES

B. SERVICE DESCRIPTION (Continued)

9. CALLER ID BLOCKING

Caller ID Blocking allows the subscriber to prevent the delivery of their calling data to a Caller ID subscriber on a per call basis (Caller ID Blocking - Per Call) or per line basis (Caller ID Blocking - Per Line).

a) Caller ID Blocking - Per Call

This service will block the delivery of the subscriber's data to a Caller ID subscriber for one call only and may be activated from all single party access lines by dialing *67 (1167 from a rotary phone) prior to placing the call. Per call blocking is provided to all customers at no charge.

b) Caller ID Blocking - Per Line

This service will automatically block the delivery of the subscriber's data to a Caller ID subscriber on all calls. This service will be made available to all customers at no charge. Specifically, no charge shall apply to law enforcement, domestic violence and crisis intervention agencies and, upon certification by a domestic-violence or crisis-intervention agency, to volunteers working for those agencies. Per line blocking will be provided upon request by the customer and can be deactivated on a per call basis by dialing *67 (1167 from a rotary phone) prior to placing the call.

(M)

(M)

10. CALL TRACE

This service enables the customer to initiate a trace of the last incoming call completed by dialing an activation code immediately after terminating the call. A Call Trace is considered successful when the Company's equipment is able to record the incoming call detail (not the conversation). Incoming call detail includes: the calling number, the time the trace was activated, and in some locations, the time the traced call was received. Upon completion of a successful trace, the customer will be assessed a Call Trace fee that will appear on the customer's next bill. The results of the trace are never provided to the customer directly. Call Trace information will only be given to appropriate law enforcement agencies. For further action to be taken, the customer is required to contact the Company Business Office during normal business hours, which will refer the customer to appropriate law enforcement agencies, or contact the law enforcement agency directly. Call Trace detail will be retained by the company and made available to the local law enforcement for ten (10) business days after the trace has been initiated.

Call Trace may not capture incoming telephone numbers marked "private" or "out of area".

Only calls from ACS-compatible locations with compatible signaling services are traceable using Call Trace.

C. SPECIAL CONDITIONS AND LIMITATIONS (Continued)

1) Special Conditions for Caller ID:

a) An originating caller's number may not be displayed at the called party under the following conditions:

- The caller's data will not be displayed if the called party is off-hook. The called party must be on-hook to receive the caller's data. If the customer subscribes to both Call Waiting and Caller ID, and is on an existing call, the second incoming call information will not be displayed. Instead, the called party will receive the usual Call Waiting tone.
- The caller's data will not be displayed if the called party answers the incoming call during the first ring interval.
- Caller ID services cannot be provided with any distinctive ringing lines having a maximum silent interval duration that is not long enough to allow transmission of the date message.
- Identification of names, specific stations or extensions served by a PBX or Key System is not possible. The main directory number of the PBX or Key System will be displayed.
- Caller ID services cannot be provided if the calling party is from a multi-party line. The called party will receive an "Unavailable" display.
- The caller's data will be unavailable if it is from another office that is not linked by appropriate facilities with the called party's office.
- The calling party has activated blocking.
- Caller ID services do not display a directory number or name for operator assisted calls, calls marked private by the originator or calls originating from coin and party line stations.

C. SPECIAL CONDITIONS AND LIMITATIONS (Continued)

1. Special Conditions for Caller ID: (Continued)

b) The following special conditions apply to Caller ID based on the FCC Caller ID Order effective 12/1/95:

- If a customer dials a "1-800" or other Automatic Number Identification (ANI) Service number, the telephone number that they are calling from will be revealed to the called party, even if the customer has per line blocking or has activated per call blocking.
- Caller ID is available on all long distance calls where technically feasible. Businesses receiving information via Calling Number Delivery may not sell such information.
- All calling numbers will be displayed to E911, even if the customer has per line blocking or has activated per-call blocking..
- All calling numbers will be passed, even for customers who do not subscribe to Caller ID.
- Per Call Blocking will be available to all customers. (The FCC Order overrules all state PUC/PSC decisions on Per Call blocking.)

2) **Limitations of Advanced Calling Services:**

- The caller's data will be unavailable if it is from another office that is not linked by appropriate facilities with the called party's office.
- The calling party has activated blocking.
- Caller ID services do not display a directory number or name for operator assisted calls, calls marked private by the originator or calls originating from coin and party line stations.

C. SPECIAL CONDITIONS AND LIMITATIONS (Continued)

The Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failures, or malfunctions of ACS Services or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of the services after the Company has been notified, and has reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service affected for the period following notice from the customer until service is restored.

It shall be the responsibility of the Customer to provide customer premise equipment (CPE) compatible with ACS.

RELOCATION FORWARDING SERVICE

(N)

A. GENERAL

Relocation Forwarding Service (RFS) is a voice only application service which allows calls sent to a telephone number programmed in the central office to automatically forward to a customer's terminating premises equipment or voice mail box. The customers premise equipment or voice mail box may be located in the same or different exchange from the call forwarding location.

B. CONDITIONS AND LIMITATIONS

1. RFS service is offered subject to availability of suitable facilities.
2. RFS is provided on the condition that the Telephone Company's facilities are able to adequately handle calls to the RFS customer without interfering with or impairing any services offered by the Telephone Company. If in the opinion of the Telephone Company, the facilities are inadequate to handle the calls to the RFS customer, the customer will be required to pay for the cost of additional services and facilities.
3. Only one call will be forwarded at one time. Another call will not be sent through until the previous call is completed.
4. Customers subscribing to this service are responsible for any toll call charges between the call forwarding location and the terminating point.
5. One listing in the white and yellow page directories, covering the exchange in which the call forwarding central office is located, is provided without additional charge.
6. The minimum service period is one month.
7. RFS service is not offered where the terminating station is a coin telephone.
8. Service is not available on ported numbers or to Internet Service Providers.

C. RATES AND CHARGES

	<u>Non-Recurring Charges</u>	<u>Per Month</u>	<u>Trans. Code</u>
Relocation Forwarding, per number	(1)	75% of B1	CCBRF

(1) Subsequent Service Order and Central Office Work charges apply. The rates are listed elsewhere in this tariff.

OPERATOR SERVICES

1. **General Description**

Operator Services allow customers to complete calls within the local calling area with the assistance of an operator. The Customer dials "0" or "0+ NXX LINE" to get the operator. Charges include a per-call rate as well as a per-minute rate.

2. **Definition of Calls**

A. **Billed to Third Number**

When the Customer dialing the Operator requests the call to be billed to a third-party. The third party will need to accept the charges before the caller and the called party can be connected.

B. **Collect Calls**

When the Customer dialing the Operator requests the call to be billed to the called number.

C. **Person-to-Person**

When the Customer requests the Operator to complete the call to a specific telephone number and in addition requests to speak to a specific person, department, extension of an office, etc. Once the requested person, department, extension, etc. joins the call, the Operator will connect the call.

D. **Station-to-Station**

When the Customer requests the Operator to complete the call to a specific telephone number and is willing to speak to whoever answers the called number.

E. **Call Completion**

When the Customer requests the Operator to complete the call to a called number. This charge is in addition to other charges that may be assessed.

3. **Terms and Conditions**

A. Operator Services are available 24 hours, 7 days a week. Rates apply to any time of the day and any day of the week

B. Qualified customers with disabilities will not be assessed the charges.

C. This service is not available on payphones.

4. **Rates**

A. The rates will be assessed on a per call basis.

	<u>Rate</u>
1) Operator Assisted Call, per call	\$1.20
2) Call Completion, per minute	\$0.20
